**Director's Note:** During the research and interview process for this production, I have been extremely inspired by the courage, humor, and strength of spirit of those living with HIV/AIDS. Whether it is an actor, artist, sports figure, or a neighbor, every life is a precious gift to be cherished... and too many have been lost to AIDS, which deprives us all. Statistics reveal the need for continued research and education, and for individuals to make informed choices as they explore intimacy. I hope this production will give a glimpse into the complex reality of coping with this virus, and perhaps inspire acceptance, empathy, and compassion.

Thoughts From The Cast and Crew

"I am angered at the way this disease was perceived in the beginning. I'm saddened by the sometimes lack of compassion that has been associated with this epidemic...and I'm proud to have a small part in the healing!"

"Until I met people involved with the AIDS Project here in Maine, and several people diagnosed with HIV, I viewed it intellectually, but now I feel it emotionally."

"Through this experience, I've been able to alter my naive stereotypical thoughts on HIV, and the people that come into contact with it."

"It's truly a remarkable experience to be invited into the lives of the amazing people we've talked to during this process. I am touched and inspired by the courage of the victims dealing with this disease."

"Despite the negative effects and devastation that occurs with AIDS, I am amazed and inspired by the beauty and grace of the human spirit."

"Having never really talked to someone with AIDS, I have learned that real people are living and dying with this disease. The speakers have brought the personal side of this disease to the front of my mind, and that's what it is all about."

"It's sobering to have the people and statistics which I only see on t.v, sitting in front of me. It's real."

"This process has really showed me that AIDS is not just a gay man's disease, we are all at risk. But knowledge is power, and we don't need to be paranoid - only aware."

"I would like to dedicate my work on this play to the memory of Dr. Bradford Dudley Daziel, who died of AIDS in 1994. He was a wonderful mentor, and an inspired teacher. William Blake once wrote, "He whose face gives no light, shall never become a star." I believe the light from Brad's star will shine for a long time to come."

Remembering Donald Catalano and Fred H. Smith
written by Richard Steinman

From opposite corners of the United States, Donald Catalano and Fred H. Smith came together in 1976. Fred was a Mainer from generations back, while Donald was a first-generation son of immigrant Italians who had settled in Southern California. Their northern and southern European heritages were reflected in their contrasting good looks but there was a reversal in their personalities: Donald was low-keyed and introspective whereas Fred was more openly forceful and could display Mediterranean fire.

They entered the University of California's School of Social Welfare (Berkeley) and quickly fell in love. They established their lives together. Donald gravitated to psychogeriatric social work and Fred to adolescent mental health. They were both keenly sensitive to human suffering and, though they expressed it in distinctly different ways, shared in common deeply held social, political and philosophical values about what constituted a just society for all citizens, and about how to achieve it. They effectively translated their passion against injustice into solid achievements on behalf of persons with AIDS, adolescents, and the elderly, including lesbians and gay elders.

They lived together for 14 years. Their beautiful house and garden, high on a hilltop of San Mateo, was their final home. Both in their mid-thirties, Donald died of AIDS late in 1990, and Fred six weeks later. Throughout the long period of nursing Donald, Fred refused to explore or reveal his health condition because he did not want Donald to blame himself for his partner's impairment. In addition to funding the higher education of several nieces and nephews, they left generous bequests to the social work education programs at both Berkeley and the University of Southern Maine. Income from that fund has helped to underwrite activities such as this production.

The Kennedy Center
American College Theatre Festival XXIX

Presented and produced by the John F. Kennedy Center for the Performing Arts. Supported in part by The Kennedy Center Corporate Fund, The U.S. Department of Education, Ryder System

This production is entered in the Kennedy Center American College Theater Festival (KC/ACTF). The aims of this national theater education program are to identify and promote quality in college-level theater production. To this end, each production entered is eligible for adjudication by a regional KC/ACTF representative, and certain students are selected to participate in KC/ACTF programs involving awards, scholarships, and special grants for actors, playwrights, designers, and critics at both the regional and national levels.

Productions entered on the Participating level are eligible for inclusion at the KC/ACTF regional festival and can also be considered for invitation to the non-competitive KC/ACTF national festival at the John F. Kennedy Center for the Performing Arts in Washington, DC, in the spring of 1997.

Last year more than 900 productions and 18,000 students participated in the American College Theater Festival nationwide. By entering this production, our department is sharing with the KC/ACTF goals to help college theater grow and to focus attention on the exemplary work produced in college and university theaters across the nation.
