6/29/44

Dear Dean Bonney:

The P.T.C. College news of June 1944 just arrived in a letter from my mother. It was decidedly on the pleasant side to carefully devour each word printed thereon. It was especially good news to learn that P.T.C. is only hibernating for the duration - dreaming for the greater P.T.C. of tomorrow.

A brief list of my present duties is as follows:

Distributing Officer for USS Wasp

Supply Duty Officer - every fourth day

Coding Board Watch Officer

Supply Dept. Educational Officer

Income Tax Officer for USS Wasp

Insurance Officer

Service Record Board Officer

Auditor of Navy Mail Clerk's Daily Business

Mail Censor (every tenth day)

Compartment Inspecting Officer - every fifth week

Sack artist

Bridge platter for CIC Team Three during my turn while at 6A or in contact areas. This job is the best by far. I have to plot location of Jap + friendly planes for the Captain on bridge. Has been (& will be) "hot duty."

our

My two sons, Dick + Doug, are doing splendidly. My chief concern is that the United Nations + later the World will have brain and spiritual power in sufficient quantities to eliminate the necessity for them to make the World safe for democracy a third time. If we could only channel a fraction of the intellectual force and praying now being expended to kill Japs + Normans into building a future world of peace - that should do the job handsomely.

"To be teaching mathematics to the suffering freshmen" - what memorize that phrase brings to mind. It, in itself, is adequate - more than adequate - to give one courage to see all the Japs can muster. A single Jap dive bomber attack is far less devastating than those math exams you used to "block-buster" in with.

I'll be looking forward to your "wholesale" answer to this letter in the next P.T.C. College News.

Best Luck always all ways

DICK

A MERRY CHRISTMAS

TO ONE WHOSE THOUGHTS ARE
WITH THE **WASP**. THESE ARE OUR
CHRISTMAS GIFTS TO YOU.
