

Why Do We Need Libraries?

I came to USM
having no idea what
career I wanted to
pursue, what my
passion or focus was.
Then I joined the
Student Library
Advisory Board.

Through SLAB I had
exposure to work
which I had no idea
would be so vital or
personally fulfilling.
Every opportunity I
have had with the
libraries has
enriched my life
beyond words.

During my work on this project, I
realized that the greatest value
offered is the passion,
graciousness, and willingness to
give time that these incredible
staff and involved students have.
Depicted above is me meeting
with librarian and my project
supervisor, Carrie. A person who
was not just a supervisor, but a
true mentor.

**Because Most of
All, Libraries Are
Their People**
