This Book is brought to you for free and open access by the Student Newspapers at USM Digital Commons. It has been accepted for inclusion in Newsance, 1957-1958 by an authorized administrator of USM Digital Commons. For more information, please contact jessica.c.hovey@maine.edu.
Four representatives from the University of Maine at Orono will speak at our assembly today. The four are: Dean Frank E. Evans, College of Technology, Assistant Dean David H. Huntington, College of Agriculture, Dean Joseph H. Murray, College of Arts and Sciences, Assistant Professor of Education, Stanley L. Freeman.

These representatives will advise us of what their respective fields have to offer. There will be an opportunity to ask questions after the assembly.

**FRIED CLAM SUPPER**

The Concord Fried Clam Supper has been rescheduled for May 9th, 5:30 to 7:30 in the school Cafeteria. The Circle K Club will sponsor the Supper.

Supper will consist of Fried Clams, Potato Chips, Slaw, Rolls, butter, coffee and dessert. Tickets are 50 cents. Proceeds will go to the Student Loan Fund. You can get your ticket from any Circle K Club member.

---

**NOTICE**

Published the 3rd and 10th of each month. The school cafeteria and the library are the free reading places. The school is a member of the New Hampshire Library Association and the New England Library Association. There are books in the school library for everyone's reading pleasure. We can have reading materials for you. Each teacher is asked to keep a reading list of books for his own class. The school library is open to students during the school day. The library is open to students in the evening and during the day on Saturdays.

---

**LAME-BRAIN PARKERS**

There seems to be a reluctance on the part of drivers when it comes to parking correctly. People insist upon using as much space as possible instead of being considerate of their fellow commuters.

There is nothing more disturbing than to arrive at school and have to waste many precious minutes searching for a parking spot. It’s really disgusting to see ample parking facilities ignored by lamedbrains who either don’t know any better or just don’t care.

Diagonal parking would do. We actually don’t have a parking problem but we try damn hard to make one for ourselves.

May Craig, nationally known columnist and TV personality gave a talk on Dilemmas of Today's World. May Craig has just recently returned from a two-month world tour during which she visited more than twenty countries in Europe and Asia visiting both the Near East and Far East. May Craig visited several countries behind the Iron Curtain.

Miss Craig visited President Alan Levinsky. Host for and interviewed top officials in the occasion was the Club's President, Belgrade and Moscow. Miss Craig met President Luis Cardenal. The Chairman interviewed Premier Nasser in Cairo of the committee on arrangements for Egypt and was very much impressed with the usual amenities of local patronizing society. (English Class take note!)

Following the supper two movies were shown, one a scientific film which presented in a graphic and semi-humorous manner the story of "Our Mr. Sun" and emphasized the great potentialities of sun power. The other film dealt with telephone communication. Can't eat all the usual amenities of local patronizing society. (English Class take note!)"
NEWSANCE

The M.I.T. Computer Science Laboratory

The aim of the Laboratory is to conduct research in the field of computer science, with a particular emphasis on the development of computer hardware and software.

The Laboratory is located in Cambridge, Massachusetts, and is one of the leading research institutions in the field of computer science.

The Laboratory is funded by various government and private organizations, and is home to a large team of researchers and engineers.

The Laboratory's research areas include computer architecture, operating systems, programming languages, and artificial intelligence.

The Laboratory's mission is to advance the state of the art in computer science through innovative research and to provide educational opportunities for students and researchers in the field.

The Laboratory is renowned for its contributions to the field of computer science, and has produced numerous groundbreaking technologies and ideas.
May Craig, nationally known columnist and TV personality gave a talk on Dilemmas of Today's World.

May Craig has just recently returned from a two-month world tour during which she visited more than twenty countries in Europe and Asia visiting both the Near East and Far East. May Craig visited several countries behind the Iron Curtain and interviewed top officials in Belgrade and Moscow. Miss Craig interviewed Primer Nasser in Cairo and was very much impressed by this "Brilliant, ambitious, shrewd and handsome man with flashing white teeth".

This was the first in a series of talks to take place during the next two weeks in which May Craig will report to the people of Maine what she saw and heard during her world tour.

Miss Craig has been with the Bennett Publishing and Broadcasting Company exclusively for more than twenty-five years.

During WWII she was a War Correspondent. Following the Korean War she was the only woman present at the peace talks in Korea.

Miss Craig has won many national honors and citations during her career as a Columnist. Some camera shots were taken throughout the evening. The party ended about of the "Firsts" May Craig has to her credit are: First woman to fly the Berlin Air-lift, First woman to fly over the Fort Polk, First woman to set the U.S. Navy back on it's heels by sleeping overnight on a Battleship.

THE HERALD IS PUBLISHED AT THE UNIVERSITY OF Maine IN PORTLAND, UNDER THE SUPERVISION OF IR. JOHN F. JACOBS, FACULTY ADVISOR.
