Sea Level Rise Planning for Bayside in Portland: A Community Discussion

2050 Scenario, High Sea Level Rise, 100-year storm event. Blue bars represent lost real estate value in dollars.

Friday, February 24 7:30 am - 12 pm

Wishcamper Center, University of Southern Maine, 34 Bedford Street, Portland | Free parking in adjacent garage

How will sea level rise affect Portland's Bayside neighborhood, and how should we respond? Join USM's Environmental Finance Center to hear results from its recent study of potential lost real estate value in Bayside under various sea level rise, storm surge, and adaptation scenarios. Breakout discussions will focus on adaptation actions Portland might undertake. Your input will help frame Portland's sea level rise adaptation planning process.

RSVP is encouraged but not required: sadie.lloyd@maine.edu
