Studying in the library.

Everybody out to roll that foot-deep carpet of leaves off the campus.

Skiing and tobogganing on Normal Hill.

Archery, field hockey, badminton, basketball, baseball, soccer, softball.

Dances, picnics, parties, glee club, dramatics, social clubs, daily worship.

Observing skilled teachers in the classroom and teaching under their guidance.

Life at Gorham is based on the belief that a teacher must not only know the technique of teaching, but must be possessed in a superior degree of the qualities most admired by Americans.

This is the goal we seek to achieve.

Here's how.

**AS TOLD IN WORDS AND PICTURES IN THIS 1943 GREEN AND WHITE**
DEDICATION

TO ELEANOR DULEY, PH.D., BELOVED COUNSELLOR AND FRIEND

To the memory of our beloved Dean, Eleanor I. Duley, we, the members of the yearbook staff, dedicate this issue of the Green and White.

Her education was extensive. A graduate of the Quincy, Mass., High School, Miss Duley received her A.B. degree from Wheaton College and her Master's and Doctor's degrees from Radcliffe. Her high scholarship won membership for her in the national honor society of Phi Beta Kappa.

At the Normal School, besides serving as Dean of Women in the various activities of that position, Dr. Duley taught several courses in European History. Her grasp of the subject was comprehensive and detailed. Her presentation had vitality and her viewpoint was always one of tolerance.

During her second year, Dr. Duley became advisor to the Young Women's Christian Association and brought to it the same interest and helpfulness that she displayed in her classes. She was lovely and pleasant in all her dealings as dean, as advisor, as teacher and as friend.
We noted several changes when we returned to school last fall. Many of the boys were in the Army or Navy. The parking lot was vacant except for Alton Benson's kerosene-burning Model T. Portland commuters were using the bus; others had moved to Gorham.

There were three brides among us: Rebecca Kinney Sheldon, Lena Johnston Creamer, and Margaret Richardson Lindsey, and it took a little while to get used to their new married names. The first day of Christmas vacation Betty Frost and Pat Busson of the senior class were married.

Lack of transportation ended outings to Sebago Lake, Salmon Falls and other favorite places out of town, and so we were pleased to find in the grove west of Corthell Hall a fine outdoor fireplace and picnic tables. The brightening up of the basement room in Robie Hall for a girls' recreation room, with a piano, pingpong and pool tables, was a much appreciated improvement.

From the faculty we missed Miss Harris, now teaching at Keene Teachers College; Mrs. Gross, who resigned to become head of the educational program at the Hallowell School; Mr. and Mrs. Savage, who have moved to New Britain, Conn.; and Mr. Hill, who is in the Navy. We found Miss Allen teaching sixth grade, and Miss Mildred Peabody succeeding her at West Gorham School. We welcomed back Mabel Murphy and Micky McAllister after a year's absence.
WHEN WINTER COMES TO

GORHAM ON THE HILL

Deep snow provided skiing on Normal hill when we returned from the Christmas holidays. The oaks and maples furnished a natural slalom course for masters of the Christie. Beginners pocked the open slope with sitzmarks which the big eight-place toboggan quickly ironed out.

At mid-years a note of sadness—and determination—when our men in the Army Enlisted Reserve were called for active duty. We tried to make their farewell party in Center an occasion that will stay with them as a happy memory until they return to complete their course.

Tighter gasoline rationing made the Portland bus more crowded but the convenient schedule of eight trips a day made it possible for us to go into town for concerts, lectures and our usual shopping trips.

Fuel oil rationing was no problem. We were heated with coal.

Ready for thrills on practice slope or perhaps an hour’s touring over the woods cross-country course.
Earliest spring in decades as judged by Gorham's infallible harbinger, which is not the first robin, nor yet the first dandelion or trailing arbutus, but the first superintendent calling to employ new teachers for the coming school year.

Several new cadet teaching units set up, to be served by Gorhamites who were sophomores this year.

Plans in the making for Commencement the last of May, a Commencement streamlined to the emergency with many of the social events omitted, but none of the symbolism which traditionally marks the graduates' attainment. Gorham's pride in its 20 Bachelor's degrees, conferred in a war year.

Spring, season of hope and promise, sees also at Gorham preparation for re-opening, for a continued keeping of the faith with Maine children that they shall have well-qualified teachers.

Do you think we can make it last for the duration if we use less kerosene
Who are the students at Gorham?
They live in Falmouth, Waldoboro, Thomaston, Kennebunkport, Windham, or Fryeburg; in Portland, Bangor, Biddeford, Sanford, Augusta or Lewiston, to name a few representative towns and cities.

They have graduated from high school with scholarship above average. They are people of strong character as certified by their high school principals; and of sound health as certified by their family doctors. Normally about one-third of Gorham's students are men, including many fine athletes.

Most Gorham graduates become Maine teachers. A few teach elsewhere in New England. A neighboring State Department of Education sent unsolicited last fall a report showing Gorham second highest in a list of some 20 colleges and normal schools based on superintendents' ratings of their alumni employed as teachers in that state.

AND THESE ARE THE PEOPLE . .
Dr. Bailey, advisor and friend, in three years at Gorham Has shared our rich pleasures, helped with our problems

Advice asked, a way found

NEXT WE CHOOSE

FOR TEACHERS OF CHILDREN 5-8

The intensive work with primary and junior primary children which students in the Primary Education course do under Miss Hay represents the only specialized preparation of teachers in this field offered by any Maine Normal School.

Members of the two upper classes who have completed the work offered in Primary Education include Norma Butterfield, Florence Coombs, Esther Bennett, Pat Barron, Mary Curran, Virginia Davis, Florence Sias, Joan Thompson and Joselyn Tozier.

COVERING THE ELEMENTARY GRADES

More than half of Gorham's students are enrolled in the General Course, preparing them to teach in any of the elementary grades and in rural schools. Student teaching is usually planned to include nine weeks in an upper grade and nine weeks in a lower grade to give broader experience. At the typical rural school administered by the Normal School at West Gorham, and in other nearby one-teacher schools, the important but difficult techniques of the rural teacher are learned. Ten students served as cadet teachers at Livermore.

JUNIOR HIGH SCHOOL

Gorham and Machias are the only Maine Normal Schools offering specialized preparation of teachers for departmentalized junior high schools. Ordinarily more men than women are enrolled in this course, but superintendents are now looking for women to take over teaching positions in Mathematics, English and Social Studies in the seventh, eighth and ninth grades.

Practical experience of value is derived from the student teaching program under Miss Trask, Miss Pride and Mr. Anderson.

The thoroughness and excellence of the subject-matter courses have helped a number of Gorhamites to commissions this year through the tough competitive grind of the officer candidate schools. The boys have written expressing their appreciation, or have mentioned the fact with gratitude while visiting the school on leave.

WHICH ONE OF FOUR COURSES

INDUSTRIAL ARTS TEACHERS

Since the Industrial Arts course was started at Gorham more than 30 years ago, most of the industrial arts teachers in Maine elementary schools have been Gorham-trained.

The authentic colonial Academy Building, modernized and equipped with woodworking machinery, a drafting room and a laboratory for the study of electricity is the principal workshop. Nearby the brick shop building houses lathes, shapers and other metal working machinery. In the basement of Corbell students tore apart the 1933 Chevy which was the first laboratory specimen in the newly established auto mechanics course, and reassembled it, rumor whispers, with only four pieces left over. The print shop turned out many jobs, though emphasis on printing was greatly reduced.

As might be expected, girls enrolled in industrial arts work and, as might be expected, proved themselves more skilled in a number of phases of the work than men. Thus the experience of 1917-18, when women studied manual arts courses at Gorham successfully, began to repeat itself.

Recess brings the "pause that refreshes"

Mr. Gilley shows eighth graders how to use saw safely
SHOP AND SCIENCE

A visitor's nearest stop on entering Corthell would be Mr. Woodward's classroom and laboratory for the study of the physical sciences. And if our visitor climbed the front stairs to the top and wandered to the farthest classroom, it would be Miss Keene's laboratory for the study of biology. This could symbolize the way the spirit of science pervades the curriculum from beginning to end.

Miss Keene's eagerly attended course in Bible, and Mr. Woodward's duties as chapel attendance officer seem also to indicate harmonious relations between science and religion.

The gentlemen in the lower left-hand corner are Messrs. Packard (pointing finger), Gilley (pointing pencil) and Smith (just beaming) of the Industrial Arts Department. The center of their interest is a blueprint of the projected new general shop. The close integration of their department with industry is indicated by the employment of all three in defense plants last summer, Mr. Packard as supervisor of blueprint reading classes at the shipyard in South Portland; Mr. Gilley as draftsman at the shipyards and Mr. Smith as machinist at the Knowlton shop in Westbrook.

We've a strong suspicion she's not a-goin' fishin'

MATH AND GYM CLASSES TOO

Miss Flint has stepped into the picture with the first bit of teaching material she laid hands on in the well-stocked equipment room of the gym. If it had been Thursday instead of Wednesday she would have had a badminton net and two standards under one arm, a dozen racquets under the other, and a box of birds under the other. For her evening Red Cross first aid class it would have been a bushel of bandages, half a cord of splints and the little book with all the questions in it (and all the answers).

With the commissioning of her former colleagues, Mr. Jensen and his successor, Mr. Hill, by the Navy, Miss Upton this year assumed all the duties of teaching Mathematics, from decimals to calculus. This has meant a consistently heavy load during school hours.

The interest in Math among members of the Enlisted Reserve Corps looking forward to induction into officer training schools was such that special classes met in the late afternoon during the fall term.

We always thought it was done with mirrors
WE STUDY OTHERS:

Seated at the library table are Miss Lewis, glancing up briefly from her preparation of a Literature class, and Mr. Sloat, who runs a machine for recording your voice and shocking you with the way it sounds. With them is Miss Eames, happy as a clam in high water over the hundreds of new books given by alumni to the school library, hers to catalogue and circulate. The members of the English faculty sponsor respectively the Poetry, Dramatic and Library clubs. Mr. Sloat helps with the Oracle, is Kappa advisor and NYA timekeeper.

Giving their attention, at the moment, to the world, which, with its people, they consider a part of their field of knowledge, is the social studies faculty. Miss Wood points the historical finger at the English Channel, with Dr. Duley's considered approval. Miss Ryan, the geographer, looks benignly on. The world is hers. Mr. Bassett is ready to insist on a sociological twist to any point missed.

This department suffered inestimable loss in the untimely death last fall of Dr. Duley.

Miss Littlefield, reaching for teacup, is a trifle out of character. She and her home economics girls are more often behind the scenes engineering teas, and aren't served until people are starting to go home. Mrs. Sawtelle, pouring, teaches art. Her classroom is always gay with autumn leaves, snowflakes or spring flowers decorating bulletin boards and windows. Miss Andrews annually performs the miracle of losing all her best singers and instrumentalists by graduation and yet developing from the less experienced musicians still in school as accomplished a chorus or orchestra as last year.

The glad young lady is Miss Murley, psychologist. She has just christened a trawler built for her father at Thomaston. She can also chauffeur a flying machine. To us who work on the GREEN AND WHITE she is the person to see when it comes to having a wienie roast or murder party.
PRACTICE AT JUNIOR HIGH

Seated at the piano is Miss Mary Peabody, with Miss Allen and Mrs. Higgins. Miss Peabody, in Grade 4, is a specialist in remedial reading and arithmetic and a qualified Binet tester. Miss Allen took Mrs. Gross's place in Grade 6 after three years as able supervisor of the West Gorham school. Besides keeping things humming in Grade 5, Mrs. Higgins (occasionally referred to by those of short memory as Miss Frost) is assistant dean of women.

There are four teachers of the Primary grades. Miss Hay has the five-year-olds in the junior primary in the morning and in the afternoon teaches Primary Methods courses and Teaching of Reading at the Normal School. In the first grade room Miss Wetherell quietly transforms natural six-year-old wiggles into energy usefully applied to learning. Miss Murphy and Miss McAllister, the youngsters of the department, have Grades 2 and 3 respectively. Both returned as critic teachers this year, having served as cadets two years ago.

Lee Joy took Miss Hastings' picture on one of her visits to the West Gorham rural school to observe the work of two student teachers and confer.

A welcome caller at West Gorham Rural School.

TEACH BYE 'N' BYE

with them. Miss Peabody is greeting her at the school steps. In her years of service as Director of Training at Gorham Miss Hastings has made thousands of visits like this. Her reward is in the hundreds of men and women who have taken their places in Maine classrooms with confidence and with the ability to warrant it.

In the upper corner viewing a small section of the mountain of scrap metal and scrap rubber that rose as a result of the school children's hard work in the salvage drive, are the Junior High staff, Mr. Anderson, Miss Trask and Miss Pride. Andy is principal of the Demonstration School, teacher of English, scoutmaster, maker of prize-winning photographs and teacher of photography in summer school, and a radio ham of parts until the war ended this hobby. Miss Trask, vice principal and teacher of social studies, is much in demand as teacher of Maine history and geography in summer sessions. She has travelled extensively outside the state. Miss Pride teaches Mathematics and was honored by the governor, on her return from a summer expedition on the Allagash, as the first woman angler ever to land a trout five feet long.

Junior High staff views scrap pile.

Creators of vital school life for Grades 4, 5 and 6.

No question about it, teaching school is inspiring.
4 YEARS TO GET A BACHELOR OF SCIENCE

Seniors are alike in their belief that elementary school children should have teachers as well prepared as high school teachers, and that the four-year course for which the degree of Bachelor of Science in Elementary Education is awarded, represents such thorough preparation. Norma Batterfield, Betty and Pat Bussone, Owen Durgin and Lindy Eaton pursued this goal from the time they entered Gorham, and make up the second group of seniors in the four-year integrated course.

Others in the class, graduated from three-year courses at Gorham, Farmington or Aroostook State last June, are intent on completing their work for the Bachelor's degree before starting their teaching. Still others have shown their interest in professional improvement by returning for their fourth year of study after teaching. These include Muriel Barbarick, Barbara Doherty, Mrs. Packard, Blanche Peterson and Myrtle Storer.

Besides Commencement, a distinctively senior activity is the writing of the class ode in which competition, traditionally, the writers must compose both words and music. The ode is sung by the class at Commencement. Miss Andrews reported that the odes submitted this year were of a high order of excellence.
S E N I O R S

MURIEL BARBARICK
South Portland

Summations. She has attended
of the Dr. Forriel
when a bell
and a good look in her wardrobe.

From A.S.N.S. accompanied the orchestra.

her ability in verse writing
he brought his musical ability
and is the only K.P. senior in
four-year integrated course. She has had a lot to
do with the success of Library Club affairs. Her pep
and organizing ability were drafted
by her classmates last fall to make the class party a
success.

FLOYD BREWER
Bridgewater

It must be an advantage socially to work at a green-
house! Not that Floyd needs an advantage. From A.S.N.S.,
he brought his musical ability
and a good looking wardrobe. His hobby is the study of
airships, which may develop
into a career in the Army Air
Corps.

MARY BRIGGS
South Portland

Farmington's loss. As far
as we know, Mary is the only member of our class who has
had poetry published. She
sings well, and at Farmington accompanied the orchestra.
We have enjoyed her musical talents and have called upon
her ability in verse writing
for our class slate.

BETTY BUSSONE
Seabago Lake

Don't whistle at the blonde; it's Mrs. Bussone. Perhaps
you didn't know because it's been Mrs. Owen, only since Christmas.
If she seems to be walking
on air it's just because she is wearing wings. She's been our editor since Owen
Durbin left, and is an efficient
library assistant and typist.

SENIORS

PATRICK BUSSONE
Beverly, Mass.

H ere's the other half of the Bussones, now an aviation
cadet pursuing meteorological
studies. He came to Gorham after studying Math and
Physics at Lowell Institute.
S peeded his course here by attending summer school
while working in the shipyard.
Though studious, he was not
wedded to his books.

NORMA BUTTERFIELD
Camden

Norma is a specialist in
kindergarten primary work
and is the only K.P. senior in
the four-year integrated
course. She has had a lot to
do with the success of Library
Club affairs. Her pep
and organizing ability were drafted
by her classmates last fall to make the class party a
success.

ROSEMARY CARDEN
Wilton

The thing which attracted
our glances to Rosemary was her harlequin glasses which
give her a puckish air. The
Gorham girls were delighted
by her excellent taste and
ability to wear clothes thren-
ingly. Proved to be a valuable transfer from F.S.N.S.,
quickly adapting our ways
and joining our clubs.

FLORENCE GOOMBS
Topsham

In the four years in which we have known Florence, we
have enjoyed her enthusiasm,
williness, and humor more
each year. This is the first
year that she commuted and
she rides with Miss Hayward.
We think she will be a remedial
reader who.

LENA CREAMER
Waldoboro

Formerly Lena Johnston, but still the same good scout.
She has been another of our obliging telephone girls. Not
much of a joiner, Lena has
won a reputation for quiet
dependability in her attending
to classroom duties and in her
dormitory contacts. Mr. is an
army man stationed at Portland.

JULIA DAGGETT
Ashland

Moonlight and roses, salt
and pepper. Daggett and
White. Inseparable. How
often we have been entertained
by Judy's songs or recita-
tions. She's proud of Arro-
took and always assures us
there's nothing here that Arrotook doesn't have, and
a little better.

CAROL DAVIS
Cape Elizabeth

Carol graduated in January
and at once went to teach the
seventh grade in Rangely.
She attended Westbrook Junior
for a year and a half. She
likes tennis and skiing. If
you need help on that sweater,
go to Carol. She is also very
well-read.

BARBARA DOHERTY
Portland

Barbara graduated from the
three-year course, then taught
a year in West Dummerston, Vt., before completing the
work for her degree. Finds
senior year pleasantest of all.
It gives her more opportunity
for art club projects and other
hobbying in art which she
likes best. She's also one of the
real experts at badminton.

LENORA HALL
Portland

Here's the other half of the
Bussones, now an aviation
pilot.

LYNEDON EATON
Portland

Lindy has two vices—pool
and planes. His pool is pass-
ing, but we hear his flying is
expert. He learned to fly
while a student, and was
called for naval aviation train-
ing last November. What
more fitting nickname could we
find for one who is now
flying for Uncle Sam? Here's
you, Lindy! Keep 'em fly-
ing!

SENIORS

OWEN DURGIN
South Portland

Owen was Editor-in-chief of
this year book until Uncle
Sam called him. He is an expert
skier, and a very interesting
conversationalist. Being well
informed on many subjects.
Voces reading extensively has
something to do with that.
His room in Gorham the last
two years was headquarters
for friends who could use
some tutoring in Math.

LYNENAD EATON
Portland

Lindy has two vices—pool
and planes. His pool is pass-
ing, but we hear his flying is
expert. He learned to fly
while a student, and was
called for naval aviation train-
ing last November. What
more fitting nickname could we
find for one who is now
flying for Uncle Sam? Here's
you, Lindy! Keep 'em fly-
ing!

VIRGINIA HALL
Portland

At Gorham Virginia Hall is
another name for music. When
she entered we were pleased
to find her an accomplished pianist.
We were amazed to discover in her also a
cellist in the Portland sym-
phony orchestra and a tenor-
peter and vocalist for fun.
Everything responds to Ginny.

RACHEL HIGGINS
Mapleton

Another A.S.N.S. contribu-
tion sent to us by Mr. We-
den. She headed the tourna-
ment ladder in badminton
there, and hopes to do the
same here. She says she
learns as much waiting table
as in attending classes. She
was House President the last
half-year.

learns as much waiting table
as in attending classes. She
was House President the last
half-year.
LEN A KELLEY
Limestone

Although Lena is far from home, she is as easily inte­
red life as Gorham as if she had been here four years, instead
of transferring only this year from Presque Isle. She is
mathematically inclined cur­
ricularly, and enjoys sports and social goings-on extra­
curricularly.

R AYMOND KNIGHT
South Portland

Our kingdom for a saw on some of those nights when we
suspected Ray was investigat­
ing a jam session in the boys’
quarters! We can remember
the night Ray won the pie­
eating contest and won a
quarters! We can remember
how much charm and much ability.

EDW IN LAMOREA U
Presque Isle

A.S. Normal School’s loss
was our gain when Ed Lam­
oreau transferred to Gorham. He was basketball center
there. We remember how Ed
received money for train fare
at Christmas. He bought a
jacket and hitchhiked home.
Do clothes make the man?

F RANCES L IBBY
Westbrook

Holder of the Portland Alumni scholarship for high
rank and leadership during her first three years. Frances
was a mainspring of the Com­
munity’s Club in the years
when that organization had
deep membership and much ac­
activity. She is a young lady of
much charm and much ability.

JUNE MILES
Portland

Quiet, smiling, even tem­
pered June. Her favorite
sport is riding the train from
G.N.S. to U. of M. Likes to knit,
too, when she can find her
needles. A loyal sup­
porter of F.T.A. and Com­muters’ Club. For her lawyer
father, she is “girl Friday”
while his secretary is away.

M E R C Y P A C K A R D
Gorham

From faculty to student. A
reversal of the usual process
but a happy one in this case.
She took Miss Ryan’s classes
during her illness last year.
With two children and a big
house (and Mr. Packard) to
care for, she keeps busy. Re­
member her calling off “Lady
of the Lake”?

B L A N C H E P E T E R S O N
Centerville, N. B.

Blanche now sings “Amer­
ica” instead of “The Maple Leaf
Forever”, and has papers
to prove it. From her teach­
ner position in Connecticut
she went to Aroostook Nor­
mal, and Gorham was the next
step. Also attended Yale
Summer School and Frederick
N.S.

L U C Y P O L I
Biddeford

“Vanity, vanity—!” And we
mean it as a compliment be­
cause one of Lucy’s most at­
tractive characteristics is her
love for nice clothes and sense
of color harmony. She doesn’t
like to get up in the morning,
but when she does you’re bound
to hear her.

R E B E C C A S H E L D O N
Belfast

For three years she was
Becky Kimmy, but she had a
sweetheart and when she re­
turned last fall it was as
Becky Sheldon. Her days at
Gorham are busy ones at
work and studies but she al­
ways has time to help with
class or club functions. Stor­
ing sunshine is so new inves­
tion to her for she always has
a good supply on hand.

M Y R T L E S T O B E R
Brunswick

Have you read the latest
books? Myrtle has. Do you
know the goings on in dorm,
Glee Club or F.T.A.? Myrtle
does. She’s always there. We
are glad she decided to return
for a degree after a year as
cadet teacher in the second
grade of our Training School.

C L A S S O D E

Dear Mother Normal, for thy care
We lift this song of grateful praise.
For knowledge thou didst ever share,
For light to guide our lives always.
Thy message shall be brought to all—
Our loving hearts obey thy call,
Thy sons and daughters sing today
Unending songs of praise to thee;
For happy hours of work and play,
For every cherished memory.
Long may thy children find at will,
Laughter and learning on this hill.
Oh may thy portals ever stand
Open, and thy ranks increase;
Though battles rage throughout the land,
God grant thee blessings in war or peace.
This tribute at thy door we lay—
God keep thee safe forever, we pray.

Words—MARY BREGS
Original Music—VIRGINIA HALL
The Juniors can rightly number Dr. and Mrs. Bailey among their members. Dr. Bailey had arrived in Gorham to succeed Dr. Russell as principal only a few weeks before our class entered as freshmen.

Besides being the first class to go through Gorham entirely under Dr. Bailey's administration, the Juniors are the first class to feel the full effect of the war. Three-year graduates of last year escaped; their men were deferred until after Commencement. They were the largest class to be graduated in a decade. We shall be the smallest in about 25 years. Few of our men returned to school after sophomore year and those who did were all enlisted in the ERC.

We were the first class to try the new cadet teaching plan which was announced too late to include our C1 division, but changed the plans of the C2's the last day before they had planned to start their long-awaited student teaching at the training school.

Much has happened to emphasize how much is expected of us in this emergency that so seriously affects the schools.

We are Gorham's war class—we hope its last war class.
JUNIORS

PHILIP ARCHAMBAULT
Springvale
A serious-minded young man with a strong historical bent, and a deep-seated aversion to Math. Hasn't missed a dance in three years. Active in Art Club which he served as treasurer. F.T.A. chose him for their vice-president.

ELIZABETH BACON
Brunswick
Here's a girl who knows her hardware. She ought to--she had the interesting job of working in a hardware store last summer. She is very fond in Art Club which he served Committee for two semesters and hardware. She ought to--she

MARGARET BARRON
Portland
Pat usually worked in the Gorham's hardware store. She is a Y.W.C.A. student. The Service. Teaching junior primary seems so dull at times, even when you're specially gifted at it.

MARY BENNETT
Portland
Any beads today? That's what Mary's theme song was when a new scholarship fund was started under her direction. Why shouldn't she be interested, her heart is in the Navy. Taking notes for House Committee and keeping tabs on her gang, she's busy.

EDWIN BLACK
Waldoboro
Do you know anyone who is prouder of his family? And we'll bet it is mutual. He's president of Alpha Lambda Beta this year and is the instigator of those basketball games that have brightened Thursday evenings. Red is at every dance in Center.

FREDERICK BRADFORD
Portland
Freddie, the demon driver, after scores of near misses had to put up his green sedan and move to Gorham with sister Pat. Quickly entered into all Com- munity's club dances--given dancing and just socializing sometimes. Taking Junior High course.

CLAYTON BROWN
Gorham
Mr. Brown's son, Clayton, is one of the mainstays of the third year Industrial Arts class. He's seldom seen. He's been working at the Gorham Academy Hall at 805 A. M. He's known for his pleasant smile and greeting. (We know him better as Jack.)

ESTHER BENNETT
Portland
Esther's Monday morning accounts of the Harvard football game were over the week-end keep our sports wise. And the "Veritas" pin, Esther. They later, the Service. Teaching junior primary seems as dull at times, even when you're specially gifted at it.

CLAYTON BROWN
Gorham
Mr. Brown's son, Clayton, is one of the mainstays of the third year Industrial Arts class. He's seldom seen. He's been working at the Gorham Academy Hall at 805 A. M. He's known for his pleasant smile and greeting. (We know him better as Jack.)

BLANCHE BRUME
Portland
Blanche is always in on any fun that is going on. She has been Mr. Brown's right hand woman this year in the drug store, and we like her speedily served. She is an accomplished knitter and she does everything like lightning.

MARJORIE BUTLER
Union
Smell that popcorn? It must be Margie again con- tributing her bit to dormitory atmosphere. After receiving a thousand-dollar scholarship she attended U. of M. for a year. If she hasn't we would have missed all that good First-Aid instruction and help in our organization.

VIRGINIA CLARK
Augusta
Here's a girl with a list of responsibilities yards long! And they're not all academic. She is athletically inclined and a good sport all around. Just is able to tell you of the latest movies. She is willing to share her good judgment with anyone.

DORIS COLEY
Bath
Dor is too busy to lead a sympathetic cat. She hasn't been cadet teaching at Livermore and we know that she's one of the literary efforts she's always hurrying to catch the bus and she has not missed yet. She is a Y.W.C.A. member and a Poetry Clubber.

HELEN COX
South Portland
Helen has real literary talents and artistic ability. She entertains classmates with her stories, both real and written, and the phantom or illust- rations accompanying them. That letter outside her door every night is to a sergeant in Florida.

MARY CURRAN
Portland
One of the Rec Room gang with good eyes and quick wits. A good adver- tisement, chosen by that sideboard to represent it on Civic Committee. She's been specializing in Primary work under Miss Hay and Miss Harris.

VIRGINIA DAVIS
Bethel
Hall, Queen of the Winter Carnival of '42! And she certainly deserved it, not only for her appearance, but for a long list of athletic activities and many clubs in which she has participated. She enjoys concerts and likes to dance.

MARGARET DOW
Portland
Peg stayed in the dormitory during her first year. Then she turned to commuting. Any reason? It seems as if she's always hurrying to catch the bus and she has not missed yet. She is a Y.W.C.A. member and a Poetry Clubber.

HAZEL FRANK
Portland
Hazel says her hobby is collecting novels, letters, etc. We're sorry her last quarter of practice teaching was marred by mumps (and so was Mona's). She's one of Gorham's outstanding dance- ers. She address all her let- ters to Georgia.

MONA FRANK
Portland
Mona is an enthusiastic dancer and is often seen at Richard Garden, the Fox, or Wildwood with an adoring escort. She commutes and disputes with Hazel, her cou- sin. We miss seeing her wait after school for a ride home.
MARY GONYA
Millinocket
Mary Liz is very often seen scurrying around after a three-cent stamp to send a letter southward. She is an ardent basketball fan and has been the backseat driver on many a trip. She's another one of the "appearance" girls.

NANCY GOODWIN
Winchester, Mass.
Nancy has not been bothered much by the gasoline shortage. She has simply taken to long walks in good company. She is very loyal to all her friends and a person in whom one may confide and feel secure. She has superior taste in clothes.

JOHN GROVER
Buxfield
Johnny has been a great asset to our school. He is an ardent worker of the G-GREEN AND WHITE Board, takes a great interest in his class, and loves tennis. John is always hunting for someone's geography notes. What happened to yours, John?

ANNETTE HALL
Waldoboro
We don't know, but we think she has Alabama on her mind. Anyway she has a sparkle. On her finger. What will she do if the government restricts toll calls? Peanuts is one of the smallest girls in the class, but we know she's one of the most efficient, too.

PEARL HARTT
Belfast
Pearl plays the piano for the G. N. & orchestra and sings in glee club. Probably her musical ability was an asset to her and a pleasure to the children she taught in Livermore. She is happy-go-lucky and good-natured, as that smile indicates.

MARILYN HARVEY
Rockland
Goodby, Carine, Helga, Gorham. If William, the dormitory cat, looks well-fed, it is probably Red Harvey doing. She can't collect cats, so she collects their pictures. She is a good typist and a whiz at blowing the trumpet.

JANET HENRY
Thomaston
Ratra, a species of the owl family, had to leave for a year because of ill health, but had the spunk to return. She is both fortunate and ambitious to have had three quarters of practice teaching. If you need pictures of anything on earth, ask her.

PRISCILLA HICKS
Biddeford
Priscilla did her practice teaching in the training school in the second grade first quarter, and second quarter she taught in Westbrook. We hear she did excellent work in both places. Last summer she was one of Grant's better salesladies.

CATHARINE HOBART
Lewiston
Cay has been an able president of the House Committee at a difficult time and has done well at it. She plays tennis and (as you can tell from observation) spends a good deal of time on her appearance. She is a tall girl who makes height an asset.

KATHERINE HUSTON
Lincoln Falls
All students of her class, her work is always done. How we admire her. Loves sports such as hockey, basketball, and tennis. We hear that Kay found another interest at Livermore Falls besides teaching the kids in her rural school. Who is he, Kay?

MILDRED JACKSON
Leelanau, N. M.
Missie, the one-woman reception committee in East. Our dormitory would be unseemly if she were not here to pull shades. She is another of those lucky girls with a Christmas diamond. (Remember Lindy?) Suppose she goes to Alaska from Livermore?

CICELY KENNEDY
North Berwick
Betty is the livewire of the dorm, but she has her serious moments, like caddy teaching at Livermore Falls. She is a faithful worker of the Poetry Club and Y.W.C.A. We may lose her in the near future to a certain young Ensign. A nice ring, Betty.

PHILIP KIMBALL
Gorham
It takes a friend to be one but if you know Phil you're saved of a headache. He is active in many of the school activities, especially music and sports. He is a constant source of amusement yet he can be very impressed by his practice teaching.

BARBARA LIBBY
Biddeford
Barb's favorite occupation is dancing, and she's good at it. When she isn't dancing, you may find her writing to the boys in the service. Cassie sent us several students for that old friend, but has taken one whom Barb is always glad to see back.

MARGARET LINDSEY
West Scarborough
Peggy did a very commendable bit of acting as the "Erra" in "Letters To Lucifer." During summer vacation she married our Don and they had two whole days to gather. Christmas vacation—"Virginia, where I came?" Peg likes to knit, cook and keep house.

PHYLIS NORWOOD
Southwest Harbor
Phyllis is one of the five pioneers who have done such a commendable job at Livermore during the first semester. She has been a member of the Poetry Club, Library Club and Art Club. She likes to read and enjoys sports. That red hair is misleading.
Juniors

Pauline Pendleton
Isledore
Polly attended Casco Bay until this year. She sings, dances very well, and plays the piano, but is likely to keep her talents to herself, unless coerced. She has been a member of the Glee Club, Oating Club and Y.W.C.A. this year.

Waldron Roberts
Sanford
He's the fellow with the blond wavy hair. His special interests are skiing and photography. He's quite a hand with a motorboat, too. Dancing is one of his specialties. Maybe that collection of records is responsible.

Ellen Rowe
Portland
We haven't been told, but we suspect Ellen has a flair for good-looking costume jewelry. She is enough of an individual so that she dares to try changes. (Remember the bangs and braids?) She knows what it's like to manage a schoolroom, already.

Mary Rowe
Portland
One of the C's whose world was topsy-turvy about practice teaching time 1942. Having to choose this winter between Livermore and the Training School she took the adventurous course as one would expect. The F.T.A. missed her sense of humor and her help.

Arlene Ruth
East Millinocket
Arlene would like to go through this life on roller skates. She gets around without them, though. A transfer from Aroostook, she is active in Library Club, F.T.A. and Archery Club. She has tried her hand at managing Livermore's young hopefuls.

Florence Sias
Turner Center
How many of you gasoline shortage mourners have the pep to commute by bicycle to say nothing of pedaling fifty miles home? We'd know that anyone capable of being our secretarial assistant during her Freshman year has something.

Jane Skillings
Gorham
Jennie is always willing to play the piano for everyone. She says she likes long outdoor walks, opera, and dancing. Hates to write letters or drink soda pop from the bottle. She is an ardent and conscientious church worker, much interested in religion.

Ernestine Smith
Kennebunk
Ernie has had an aunt and a cousin graduated from Gorham. Runs in the family. We remember her as "Columbia" in the history pageant. She has worked especially faithfully in Y.W.C.A. and should get a medal for boosting candy sales. O, my Florida letter!

Pauline Supple
Portland
Here's Polly with her cheese plus Alice. She is usually the last up the hill, but rushes to be the first down. Her commuting specialty is trying to miss a bus. English History is her line, but classical music has its hold on her.

Margaret Swett
Westbrook
Margaret has another diversit besides playing ping-pong noon and afternoon, and that is geology. She certainly knows her rocks and minerals. Emergency material is always in her locker. She usually gets on the bus with a suitcase or its equivalent.

Jean Thompson
Brewer
We dream of Jeannie with the light brown hair, and Jeannie dreams of Bud, at U. of M., whose diamond she so proudly wears. We don't believe she has missed a football game this year, and as for traveling, she is the company's best customer.

Margaret Sweet
Westbrook
Margaret has another diversit besides playing ping-pong noon and afternoon, and that is geology. She certainly knows her rocks and minerals. Emergency material is always in her locker. She usually gets on the bus with a suitcase or its equivalent.
THE SOPHS

In 5 seconds it will be 8:15 a.m., time for chapel. (Bette will make it; Benny's hopeful)

ARE COCKY BUT GRADUALLY GROWING UP

Eight of the ten associate editors of the Green and White are sophomores. In order not to take unfair advantage of this dominant position, they all collaborated in preparing the modest account of their class's accomplishments appearing below.

"The Sophomores don't advertise themselves as a class. They don't have to. Every organization in school is given its zip by its Sophomore members. Sophomores have always been willing to assist the other classes with advice and counsel.

"The example of our class president in marrying during the summer and continuing his school work was followed by two Seniors and one Junior.

"A Gallup poll showed second year students in agreement with the rest of the school that the May Ball is exceeded in importance only by the Sophomore party and treasure hunt. Bob Dolloff was general chairman, Betty Lee decorations chairman and Elvira Birney refreshments chairman of this super-shindig.

"In the rationing of scholastic accomplishment the Sophs got plenty of C cards.

"Gorham is fortunate that we shall be back next year as Juniors."

In the Rec Room after school—"Willie Hoppo" Smith concentrates on pocketing the eight-ball

Quiet shipbuilder with quiet car  Our Betty and Patty off to a party
It is probable that no class in Gorham’s long history has ever been as carefully selected as the freshmen. Not only did they all pass the several selective tests for scholastic fitness, good character and good health which all entering students have taken in the last few years, but they also had to prove the sincerity of their desire to become teachers.

This was no pen and pencil test. Jobs with good pay starting at once were beckoning high school graduates on all sides throughout the area from which most Gorham students come. The possibility of living at home and commuting which has aided hundreds of students was dimmed by the rubber shortage. Prospects of the draft tended to discourage boys from enrolling.

Entering Gorham last fall meant a clearcut affirmative to the call of the profession, a willingness to postpone gainful employment at good wages for at least three years while going to school, and for many it meant the necessity of working outside class hours to pay part or all of expenses for board and room.

It meant a desire to serve the children of Maine and a willingness to make sacrifices. Has any other class been as thoroughly tested?

The first part of the book has been devoted chiefly to portraits of the people who make up Gorham,—administration, faculty and students.

There follows a presentation of these people at work and at play in the many activities which fill the hours of their week not spent in class. Among these activities are several student government and program-planning groups such as the W.A.A., Civic Committee, and House Committee. Then there are the organizations which make possible accomplishment in fields of special interest, in some form of sports or in religious, artistic, professional or literary pursuits. Finally there are campus friendships, bull sessions, courtships, picnics, dances and all the precious part of American college life that comes under no organization but is created largely by individuals in favorable surroundings.

All this we try to picture in the pages ahead.

A WAR YEAR AT GORHAM REFLECTS

Cap and gown, proud uniform of home-front soldiers
Pledged to defend our Democracy from ignorance

THE HOPES OF THE FUTURE

All year reports kept coming from the State Department of Education at Augusta and from other states that there were not enough teachers for the Nation's schoolrooms. The urgency of this need in our State was further emphasized by the willingness of Maine communities to pay better salaries to teachers.

While many of our Gorham men are among the millions serving their country overseas, there is a vastly important job to be done on the home front in the service of children. This is the teacher's job, more vital than ever now that in so many homes both parents are away at war work all day. A realization of this call to service was constantly before students and faculty during this war year. It made all of the work more meaningful, the accomplishment greater, the morale at a high level.

On the field service committee, representative students joined with faculty members to present to high school seniors the challenge of the schoolroom today.

Service to such as these—a teacher's reward

TRAINING SCHOOL PROGRAM

Most of us do our student teaching at the training school where experienced and friendly supervisors help us to become successful teachers. To these people we owe our thanks for encouragement and friendly criticism. Without these aids we could have remained the nervous, self-conscious, passive greenhorns that we were when we started.

It is to the training school teachers that we recount the humorous happenings of the classroom; with them we discuss our problems and to them we turn when we need honest, solid advice.

We also make friends with the children. At first they are skeptical of our ability. Then they begin to trust us and give us their confidence. After we finish our first nine weeks of student teaching and are back at Normal Hill to attend classes again, it is a pleasant experience to walk up School Street from The Corner when school is just out and be greeted by an eager "Hello, Miss Brown" from so many of our former pupils.

During nation-wide scrap drive sidewalks were jammed with loads like this

IS BASIC IN LEARNING HOW TO TEACH . . . .

First we saw it as just another doorway to another school. Then it let us in and out of Observation classes. Finally as student teachers we stood here and admitted our first pupils to our first classes.

For us it was a gateway to the teaching profession
With representatives from each class and every club on the campus, Civic Committee mirrors student needs; is potent force in meeting new situations, carrying out new enterprises, bettering college life.

**CIVIC COMMITTEE HEADS STUDENT GOVERNMENT**

1942-1943

*President* 
Virginia Hall

*Vice President* 
Adeline Montebello

*Secretary* 
Catherine Howard

*Faculty Advisors* 
Miss Upton
Miss Hastings
Mr. Packard

The Civic Committee, composed of about 25 members, is the central organ of student government.

The first Chapel program was presented by this organization to greet the new students. Virginia Hall, Judy Daggett and Owen Durgin spoke.

One of the most important functions of this group was the gathering of data for the honor roll for the Gorham men in the service. It was through the cooperation of the Civic Committee and all the students that this honor roll was made possible.

At each meeting of the Civic Committee a problem of the week was discussed and if possible a solution was found.

Dr. Bailey, Miss Hastings, Miss Upton and Mr. Packard are the faculty advisors for this conscientious group of students.

**AS DEFENSE COMMITTEES PACE WAR EFFORT**

Normal Hill was Sector 4 in Gorham town’s organization of civilian defense. Dr. Bailey was sector warden, assisted by Mrs. Bailey, Dr. Duley, Miss Wood and a group of dormitory residents, all trained as wardens through graduation from Deputy Chief Warden Woodward’s course. The periodic air raid warnings found Normal Hill quickly and efficiently blacked out. Mr. Packard was warden of Sector 2, in the South Street area.

At Gorham’s observation post students and faculty took their fair share of the watches. Mr. Sloat was deputy chief observer and Mr. Anderson was one of the seven captains. The service of Mr. Smith and several of the men students in manning the post during the midnight to dawn tricks was especially appreciated.

Miss Flint’s faithful and expert instruction in the Red Cross first aid course resulted in completion of the instructor’s course by about a dozen students. A majority of students and faculty members took the beginners’ course.

Miss Littlefield was instructor in the nutrition course taken by many townspeople.

First aiders practice artificial respiration, soon will change places with “victims.”
DORMITORY LIFE IS

For the first time in several years, owing to lack of transportation facilities, nearly all of the students at the normal school lived in the two dormitories.

The war gave us a new form of recreation—blackout drills. These were organized in September by Dr. Duley and under her leadership the girls learned to get everything ready and reach the dining room in less than five minutes after the bell. The girls were allowed to take their most valuable possession with them, so that pictures of soldiers, sailors and marines vied with those of civilian sweethearts. The table and floor around it were covered with blankets, quilts, afghans, until it looked like a fancy work booth at a country fair. Housecoats, curlers, and even towels over the heads of those caught in the act of shampooing their hair, completed the picture.

After Dr. Duley’s death, Miss Wood became dean of women with Mrs. Higgins assisting her. They

BED OF ROSES WITH THORNS

with the house committee and the cooperation of the students in general, kept the dormitories a place where one could sleep without undue disturbance and live through the day comfortably.

The boys had a pretty good time in their rooms according to girls who lived near their quarters. Many evenings sounds were heard which indicated wrestling matches, singing and other forms of entertainment going on which were not all radio programs. Once in a while they heard sweet music, however, so they knew the boys had a radio.

Center was the scene of parties sponsored by the school, the House Committee, and Outing Club. The dormitories have also seen many unsponsored parties—floor parties, birthday parties, Christmas parties, Valentine parties, and others, the boys having their share.

Those who know Miss Woodward well, feel that we owe a great deal of our pleasure here to her efficiency and helpfulness. Dormitory life is fun.

Girls next door drop in for an evening snack.
ORGANIZATION ACTIVITIES ARE PRODUCERS

The organizations commonly known as "extra-curricular" are democratic in their membership policies. Each is open to any student showing a willingness to take part in the kind of program the club engages in. If a Gorhamite wants to sing she can join the glee club even if she isn't Lily Pons. Where the two fraternities were flourishing, before war reduced their membership, a survey showed every man in school was either a member of one of them or had declined to accept an invitation to join.

With this friendliness toward newcomers and the entire lack of a feeling of exclusiveness, the organizations do wonders in developing skills in their members.

A second function of the organizations is the promotion of sociability. Each takes its turn in sponsoring dances, picnics, parties or assembly programs.

To assure a balance in the extra-curricular program harmonious with student interests, each organization has a representative on the Civic Committee, which co-ordinates the program.

W. A. A. Board goes into executive session

OF EXTRA CURRICULAR EFFORT...

The Women's Athletic Association includes all women students. The W.A.A. Board, which consists of the officers of the Association, sports counsellors, and class representatives, controls all women's sports activities. Members of this year's Board were:

V. Davis, president; L. Dickens, vice president; M. Jackson, secretary; G. White, treasurer; L. Savage, archery; B. Lee, hockey; P. Morse, publicity; E. Birney, outing club; E. Barton, basketball; P. Harli, volleyball; L. Thompson,badminton; L. McLain, campfire; J. Henry, softball; R. Higgins, seniors; M. Densmore, freshman; Miss Flint, faculty advisor.

Outing Club officers were: President, E. Birney; vice president, B. Lee; secretary-treasurer, J. O'Mara. Hiking counsellor, P. Morse.

Outing Club officers were: President, E. Birney; vice president, B. Lee; secretary-treasurer, J. O'Mara. Hiking counsellor, P. Morse.

Class basketball tourney brings tense moment of play
GLEE CLUB AND ORCHESTRA

Tenor-bass shortage failed to discourage Miss Andrews' glee clubs
Jaboted treble section, strong and true, melodiously carried on

Under Miss Andrews' able direction the glee club held weekly meetings devoted to rehearsal of the music presented at their various programs before the school in Russell Hall. The first of these enjoyable events was the Thanksgiving program given at morning assembly. Then came the annual Christmas cantata, an evening presentation for students and townspeople. During the winter songs were prepared for the Spring evening of music.

Music has its social side too, and the glee club enjoyed picnics and parties. A party for members in the ERC was a memorable event.

The instrumental ensemble spent part of each weekly rehearsal working on more difficult music, and a part of the time on numbers in lighter vein.

Miss Andrews' elective course in instrumental music, in which beginners learned how to play several instruments, to enable them to coach school orchestras, was extremely popular.

GIVE CHANCE FOR FUN WITH MUSIC

Below are given the lists of personnel of the glee club and orchestra.

Glee Club officers: President, Margaret Lindsey; Vice President, Joscelyn Tozier; Secretary, Myrtle Storer; Treasurer, Rebecca Sheldon.

Orchestra: Violins, M. Clark, L. Thompson, E. Magure; 'cello, V. Hall; clarinets, J. Tozier, L. Meloon; oboe, W. Wiggins; trumpets, P. Kimball, M. Harvey, R. Boothman; horns, L. Kelley, L. Anderson; piano, M. Edwards; drums, O. Durgin.
PUBLICATIONS Vie For

Click of shutter, flash of bulb. A little group of students or faculty members, re-enacting a typical Gorham scene, has done its part to put Gorham down on paper as we know it and as we want to remember it. The camera man moves on to the next scene.

Weeks later the write-ups and captions fill in details of the story the pictures tell. Hard work by board members digging up facts, writing, editing. Efficient work of John Grover and Rusty Henry to make the advertising section a success.

It has not been all work. Miss Marley's house was the scene of many get-togethers and the farewell party for Editor Owen Durgin, now in the army.

Board members sincerely feel the yearbook could not have been a success without the splendid support of the whole school. It is truly Gorham Normal School's Green and White. It is hoped that the new arrangement of the book will afford pleasure to its readers.

LITERARY TALENT AND NIMBLE MINDS

The Oracle, a paper produced almost entirely by the efforts of volunteer students, is issued usually about once a month. Since the contents are written by those who best know the feelings of the student body, the distribution of the Oracle is eagerly awaited by all.

Praise and criticism are found; sports write-ups, campus jokes and scoops covering the most important events of the year. Perhaps the finest article in this year’s Oracle was Miss Keene’s appreciation of Dr. Duley. A much appreciated news service was the publication of the first tentative list of Gorham students and alumni serving in the armed forces.

Members of the editorial staff were:

Co-editors: Zita Cullinan
Associate editors: Eleanor Barton, Bette Lee, Ray Knight, Katherine Shevlin
Typists: Phyllis Cole, Virginia Davis
Faculty Advisor: Mr. Sloat

Extra! Extra! Read all about it in the Oracle
THE POETRY CLUB

We have had less money in our treasury, less sugar in our tea and no gas for our outings, yet we by no means starved in a garret.

We gave a good send-off in chapel to our red, white and blue bond sellers, a singing high-pressure team that helped sell nearly $2,000 worth of war bonds at a meeting of townsfolk. We bought a $25 bond by means of bit contributions of members and schoolmates. This was presented to the school to start a student loan fund or otherwise further school aims.

Dolls, games, toys, books and clothing went into the Christmas boxes as usual. These gifts were sent to needy children in schools recommended by the State. Several grades in the training school followed our example.

The yearly Christmas tree and entertainment was held at Mary Clark's home.

We take off our hats to Miss Lewis who kept the club thriving and full of pep in spite of obstacles. Long live Hector!

THE DRAMATIC CLUB

Though the size of the school dwindled, the Dramatic Club kept its size. The large number of Freshman girls brought the club up. In the fall a successful Grove Party was held, followed by the initiation of new members.

Just before Christmas a one-act play entitled "A Certain Just Man" was presented in chapel. Those who participated were All McDonough, Judy Epstein, Hope Goodwin, Caroline Cunningham, Eddie Gagnon, Sylvia Hodgkins and Leigh Smith. This play will probably be the last one to be presented with male parts for the duration. A sad thought but true.

The big play "His Women Folks", presented in March, had an all girl cast.

Our last gala event before Uncle Sam stepped into the picture was our self-cooked supper in the form of a farewell party for the boys. It was held in the home economics room. All was successful, and we hope we sent them off happy.

LOIS COACHING WINNING JUNIOR HIGH SPEAKER

It's "all hands on deck" when scene shifting is in order
F. T. A. BUILDS PROFESSIONAL VIEWPOINT

The Future Teachers of America organized this fall under Miss Wood and held its first meeting on October 12, when programs for the year were distributed. Miss Wood continued as advisor until she became Dean of Women, and Miss Hastings became advisor of the FTA. This organization has had many interesting meetings.

An interesting discussion of "Gorham Normal Boys in the Service" was held by Barbara Libby on November 2. Mimeographed maps were marked with names of boys when their addresses were known. Interesting letters from some of the boys were also read. Other meetings included a fine lecture by Mrs. Bailey at her home on "Music in the Wartime". Very nice refreshments followed a discussion of three questions "Are Teachers Patriotic", "Academic Freedom" and "College Men in Present Day Colleges", led by Rosemary Carden, Rachel Higgins and John Grover respectively; a lecture at the home of Mrs. Austin Alden by Mr. Anderson on "Visual Aids in the Schoolroom"; a showing of slides on "Wild Flowers Taken Within a Five Mile Radius of Gorham"; and a lecture by Dr. Russell on the "Origin and History of the NEA". Travel talks by students also made interesting discussion at one meeting.

The FTA held a banquet in East Hall dining room this spring which marked the climax of a year of interesting and educational gatherings of a group of young people who are interested in making themselves better fitted for their life's work.

These officers steered the Walter E. Russell Chapter through its second successful year. Members all exerted leadership in developing professional spirit among tomorrow's teachers.

OFFICERS

Song leader, Mary Clark.

Christian Association reaches out to more students than any other organization on the campus. Influence is kept vital through leadership of Cabinet who plan policies at meetings like this.

Y. W. C. A. SERVES RELIGIOUS NEEDS

Because Katherine Huston was cadet-teaching in Livermore, we were without a president at the first of the year, but through her forethought and the guidance of Dr. Duley, the annual reception for newcomers was held as usual the first Friday with great success. Nancy Goodwin was general chairman of the affair and later was elected acting president until midyear.

Membership dropped a little because of smaller enrollment, but was still the largest of any organization in school. Y. W. C. A. girls acted as "big sisters" to the freshman girls and did what they could to promote a feeling of friendship and cheerfulness on the campus.

Features of the regular Thursday night meetings were interesting speakers, a sing, reading of seasonal stories and discussion of timely topics.

The members' desire to contribute toward the war effort resulted in obtaining sewing to do for the Red Cross.

The loss of Dr. Duley was felt very keenly by the Young Women's Christian Association. The students are grateful to Mrs. Bailey for consenting to take Dr. Duley's place as advisor, and feel that this is a fine opportunity to become better acquainted with her.

Rachel Higgins, Lena Kelley and Margaret Small have been able assistants in the absence of Betty Kennedy, Doris Colley and Katherine Huston.
These students, commenting on sketch by fellow artist, learn the thrill of a well-drawn line. They see artistic creation as diversion, not obsession, and so don’t go temperamental on you.

The Art Club is open to anyone interested in art as a hobby. A member does not have to have unusual artistic ability but must have some ambition and self-confidence. The aim of the club is to provide pleasure for its members through artistic expression, not to instruct them in techniques of teaching art, although experience with club projects is often rich in teaching ideas.

Early in the fall the club met outdoors and did a bit of sketching. The campus at times took on the appearance of an art colony. Later they dabbled with finger-painting, which was different from the ordinary run of projects and afforded much amusement to the artists. Another activity was the making of boutonnieres from painted fir cones, pine needles, acorns and other decorative natural objects.

One of the most interesting undertakings was the problem in wood design. Each member bought an unfinished wooden tray, box or set of bookends, designed its decoration and painted it. The finished products were highly successful, stirring envy in many students not belonging to the club, and bringing real satisfaction to their makers.

The social program of the club included a fall picnic in the grove and a number of parties.

LIBRARIANS . . . .

We all appreciate very much the addition to the library of a new dictionary stand, presented by the Library Club. Norma Butterfield as president and Miss Eames as advisor have steered this organization through channels of an interesting and entertaining nature. The first important part along the way was the “backward party” for the initiates. Clothes were worn backwards and plates were used bottom side up, but everybody had fun.

The club has subscribed to Omnibus, condensed version of five novels sent out each month. This was passed around among the members so that all had a chance to enjoy it.

Programs were arranged by committees under Myrtle Storer and Rosemary Carden. At one meeting the girls enjoyed readings by Miss Lewis from “Extracts of Tonight” by Edna St. Vincent Millay. Another time Miss Andrews gave a fine lecture on music. Reports on books, movies by Miss Eames, a Thanksgiving entertainment and reports on books read during Christmas vacation were subjects of meetings.

A play which represented characters from many well-loved books was given in chapel. The audience will remember the excellent portrayals for a long time, especially that of Lorna Doone and Rebecca of Sunnybrook Farm.

So we see the Library Club doesn’t spend its time in the library and it doesn’t always read books. It sprinkles its work with fun in just the right mixture.

Doris Libby represents Lorna Doone in tableau as Grandma tells children of good books to read.
The athletic program has two phases—intercollegiate competition and intra-mural individual and team events. It is unusual to find a student, man or woman, who does not engage in one part of this program or the other.

Gorham is a member of the New England Conference of Teachers Colleges, and its intercollegiate schedules in basketball, baseball, and track are made up of games chiefly with members of the conference—Farmington, Salem, Hyannis, Keene, New Britain, Rhode Island. The Conference in April, 1942, postponed further activities until after the war.

The women's intra-mural program is planned by the Women's Athletic Association and directed by student counsellors in each sport assisting Miss Flint, director of physical education. Play days with Farmington afford pleasant contact with other Maine teachers in preparation.

The men's intra-mural program is directed by the Men's Athletic Association, working with the coaches and their assistants. The Athletic Council, with men and women from each class, and faculty representatives, co-ordinates the various athletic activities.

On warm spring days tennis players flock to the courts behind Corbell to practice serves and returns.

Gorham's intercollegiate athletic program ended with the final basketball game of the 1942 season. Correspondence with other members of the New England Conference of Teachers Colleges about scheduled baseball and track contests of the spring indicated all were banning trips, while some had lost so many men that they were unable to field teams.

Closing of conference competition for the duration interrupted a valued activity which in past years had produced at Gorham top-notch teams and had fostered acquaintance with teacher-athletes in other colleges and other states.

Cut off from intercollegiate sports, Gorham turned at once to intra-mural baseball for which there were enough players for two teams. Practice was as faithfully attended as if a game with Farmington were coming up, and Coach Smith whipped into shape two nines that battled to a 2 to 1 decision in their first game, and 7 to 3 in the second. Ed Hadlock, Tony Pecoraro and Dick Kilroy twirled ball of conference caliber. Hadlock's team won both games.

Last fall the 36 men divided into three teams for a series of touch football games in which keen rivalry ensued especially between Ray Knight's and Alton Benson's teams. Deke Towne's improvised strategy finally won out after Ed McDonough, ace pass snatcher of the opposition, was gotten under control.

Hardly a man was left out of active competition in the hectic intra-mural basketball tourney of this winter. A natural division of players resulted in a team representing Kappa Delta Phi, one for Alpha Lambda Beta, and one made up of freshmen and transfers not yet initiated into either fraternity. The non-fraternity men took the name of The Orphans.

Kappas and Betas both beat The Orphans in the first round, and the Betas took the Kappas to lead. In the second round the Orphans took revenge on the Betas but bowed to the Kappas who by their win tied the Betas for first place. In the final between the two fraternity teams the Kappas won the championship.

From the three teams a squad was made up which played Portland Junior College, losing 52 to 15 there and 40 to 30 at Gorham.

Gorhamites keenly look forward to resumption of Conference schedules after the war.

WOMEN'S ATHLETICS

Twice as many girls responded to the call for archery this year as last, and twelve times as many received their archery certificates. The first gold tassel ever awarded for Columbia Round was won by Archery Counsellor Lillian Savage who scored 287 points. The sophs ran off with the trophy.

Field hockey was a great success, especially for hockeypot-winning juniors and seniors. Miss Flint always liked to use the opponents' goal. Fifteen gals won their numerals and Lucie Dickens was awarded a 150-point G.

Outing Club broadened its scope. Witness the "See Gorham" and "Lost Freshman" hikes. The girls were good at picking apples even to dodging those falling unawares. Skiing and tobogganing were popular at Alden's Hill.

ARCHERY

Fast and furious were the basketball games between the freshman and sophomore squads. The first meeting ended in a tie; then each team won a close victory. In the playoff after Christmas vacation, the freshmen, sparked by Betty Sundgren, won the title. Any specks of dust that may have landed on the gym floor immediately prior to a game didn't bother the players a bit as they had Hope Hale.

After basketball, an interesting volleyball season followed with much skill and team coordination in evidence. The ball seldom hit the floor, particularly when Eleanor Barton was there.

In the spring, softball on the two hockeyfield diamonds, and the fame of Gerry White and Margaret Edwards as batsmen.

Other sports such as tennis and badminton were outside the point system and had no counsellors this year, but they had as many devotees as always. The new recreation room in Robie Hall spurred dorm girls' interest in ping pong, hitherto chiefly a commuters' sport.

VARY WITH SEASON AND AWARDS

Good teamwork wins in field hockey

Outing Club's not stuck in the mud

SOCIAL LIFE

The most exciting of our social activities is the traditional May Ball. This is the time when the boys are borrowing tuxes and studs, and the girls are in curlers all day preceding the event. May Balls are all too short and far between, but May Ball memories are never lost.

The social program also includes many informal dances, to celebrate athletic victories, entertain visiting teams, spread cheer on various holidays or just for fun.

The classes and clubs have their annual outings at Salmon Falls, Sebago Lake, or Union Hall.

The Recreation Room (Rec Room for short) is a popular place during leisure periods of the school day. Here we brush up on our ping-pong, checkers, pool, bridge and jitterbugging.

A special treat is the annual Superintendent's Day when superintendents and principals attend classes and hold panel discussions. The afternoon brings an assembly program with guest speakers, followed by a friendly tea.

Blondie Roberts has pinged a fast one to Mary Curran who is all set to pong it right back.

They're having their picnic 100 paces from Corbell Hall.

Gay flowers, swishing skirts and gallant escote transpose Center from daytime quiet to evening glamour.
ACKNOWLEDGMENTS

To the following technicians who took the ideas of the editors and transformed them into the substance that is this book, the GREEN AND WHITE wishes to express its appreciation.

To Gardner M. Roberts of Portland whose action photos, nearly a hundred of them, were taken with the care and skill of an artist.

To Eldora Lidback, '37, of Gorham for the hours of sketching and revising she so graciously gave to make possible the glimpse of the campus and of faculty homes shown on the endpapers.

To the Howard-Wesson company of Worcester, Mass., for engravings and valued technical assistance.

To the Wheelan Studio of Portland for individual portraits of Seniors and Juniors.

If you are handy with tools and like to make things, you may enroll in the Industrial Arts Course at Gorham Normal School. You will receive sound collegiate preparation, shop experience and teaching techniques qualifying you as teachers of Industrial Arts in Maine elementary and secondary schools.

Very Modest Financial Support Will See You Through

GORHAM NORMAL SCHOOL

Any bright high school graduate with determination to continue his or her education need not be stopped by lack of funds.

At GORHAM NORMAL SCHOOL it is possible for a student to secure excellent professional preparation along with three or four years of the finest sort of college life at exceptionally low cost. Many students pay a large part of their expenses by working summers and during the school year.

If you are determined to continue your education, interested in becoming professionally trained, and willing to work, it will pay you to inquire about Gorham, even if you feel that your finances are meagre.

Address inquiries to—
