The Subject Was Roses Opens May 1

Mr. Steele Cast
In Players' Prod.

On Friday morning, April 11, in wake of incidents Thursday at Harvard, John Downs told a group of students and faculty that he noted "a bizarre attitude in the conduct of American police." He said that situations such as the one at University Hall, which he had witnessed firsthand while visiting Harvard on the 10th, might have been "well handled by three bobbies or a good cop on the spot."

"The use of clubs is restrained in England," he said, "we have demonstrations and outbursts that would make Chicago look like a Sunday walk." He said he has received a number of letters from English students, who were impressed by his account of the university exams, which opened May 1st.

Letters
To The Editor

An Open Letter to Provost Flinn

Dear Mr. Flinn:

As Maine Day approaches, my thoughts turn to last Maine Day and the Faculty-Student Softball Garge, surely a hit of the day. You will remember that the students protested that game for the strange and shady happenings in the last of the ninth. The students were leading into the last of the ninth before the faculty and administration called time and hatched a diabolical plot. First they introduced a "rabbit" ball and promptly began to get some hits. You, sir, somehow got on base. Now came the crucial play. A hit by one of the faculty seat you running for second where you tagged you out. An obvious hit. However, the umpire, a person under your employ, deemed you safe, the final step in the plot. Dr. Drown was promoted to a house run off starting pitcher to throw you for the faculty.

It is because of these sinister circumstances which surround last year's game that we students challenge you to a return. Until this Maine Day. Also, please note that the Owls and Eagles have donated a plaque to be hung in the new gym, wherever it is finished, with each year's winner on it. A rejection of this challenge would show that the students did win last year.

Sincerely,
Rick Mourners

Welcome to U.M.P. The second largest institution in the newly expanded University of Maine. Otherwise known as Orono II.

In order to reach the Chancellor and thereby obtain audience with the rulers of the system a student at U.M.P. has to go to the Provost here in Portland. The Provost then goes to the President of U.M.O., who in turn goes to the Chancellor. The student enrollment at U.M.P. is 1,177.

If you are a student at Washington State College (enrollment 419), Aroostook State College (enrollment 450), Fort Kent State College (enrollment 288), Farmington State College (enrollment 880), or Gorham State College (enrollment 1,550), you can go to the Chancellor directly through the College President.

But U.M.P. is a "feeder college" and there is no doubt about who is doing the feeding on whom.

Demonstration
Down-East Style

I had a delightful talk of a demonstration as conducted by down-easters all drafted for this issue. Drafted on the basis of a demonstrated response for student participation. Unfortunately I seriously over-estimated the UMP student. The demonstration, for those that attended, was a success, measured in terms of a very pleasant and informative day. On the other side it was the usual step in the face to interest one in his university and the sincere members of his family.

Professor Reid of the Art Department arranged for and conducted the members of the Art Department faculty an excellent trip to the Boston Museum of Fine Arts. The immediate response was terrific. Extra transportation was planned for the overflow of signees for the trip. To the participation of one of your better faculty members. He may not consider this a normal step in the face to interest one in his university and the sincere members of his family.

The Sports Scene

In an interview with head coach Sturgeon and assistant coach Hadlock, the upcoming baseball season was looked at with optimism. The competition in every position is strong and blended with a crop of freshmen, the team will play an exciting brand of ball.

The major source of concern will be the hitting and this will lead to a reliance on speed and defense. Coach Sturgeon said that there were some capable hitters on the team but lack of outdoor batting practice will hurt them in the early games. The defense is sound at every position and this will lead to "a lot of versatility."

The most important part of any team is the pitching, and in this position UM is not as strong as anticipated. The staff is lead by veteran captain Bob App and backed up by four freshmen. It is hoped, that these four, Mark Bernstein, John Butler, Charly Sutis, and Mark Goldstein will improve with each game.

This team make-up will cause it to play as coach Hadlock calls it, "an exciting brand of ball." During base running, sacrifice bunting and hustle will remind fans of pre-1968 Chicago White Sox ball.

Hitting and defense are the team's strengths. The staff is balanced with a crop of freshmen, and the team will play an exciting brand of ball. If everyone steps up and performs, the team will play exciting baseball.

The team is optimistic about their chances of winning the season. The coaches and players will try hard to make the team successful.

Spring Jacket Time

Spring is here. The warm sunshine, sweet air, and green grass are getting to you. You feel that you would like to get out and do something. You enjoy sports but wonder whether or not you're good enough. Well here's your chance. The baseball team would like two managers. As a manager you will go on all the trips and be where the action is. If you are interested, don't wait. Contact Coach Sturgeon or Coach Martin this week.
