This Report is brought to you for free and open access by the Institutes and Research Centers at USM Digital Commons. It has been accepted for inclusion in Maine Statistical Analysis Center by an authorized administrator of USM Digital Commons. For more information, please contact jessica.c.hovey@maine.edu.

PATHWAYS to OPPORTUNITY

The pathways provide a way to engage the voices and experiences of directly impacted people, strengthen participatory methods, and innovative approaches to policy problem solving.

Opportunities

Through investments in building equitable and progressive opportunities within the University system for people who have been involved with public systems, we in turn deepen community engagement, invest in future leaders and strengthen civic life. The pathway increases access to a host of opportunities, both inside and outside of formal roles.
