

Saturday June 30

Dear Ones -

Just a short note to accompany this money  
order; we were paid today so I came up  
from the depot. I also have to get a  
typhus booster inoculation early this  
afternoon. Tonight I plan to eat supper at  
the hospital; I may spend the evening there  
but I don't know. Things are quiet; the depot  
is coming along all right. I'll try to  
remember to mail my watch home too,  
today. Please be sure and let me know when  
you have received both the money order and  
the watch. I finished "The Ragged Dicks" last  
night and it is the kind of book that I  
enjoy - a well told story of a man and his  
psychological and intellectual development and his  
relationship to his society and the people in  
it. Maugham is without a doubt one of our modern  
masters. Oh for now - all my love,  
Reginald Davis. Ernest
