Directions to the Portland campus (Summer Session office, 101 Payson Smith Hall)—From either north or south, take the Maine Turnpike to I-295, exit 6B (Forest Avenue North). Turn left at the second traffic light (Falmouth Street). Park in Visitor’s Lot on Falmouth Street directly after Payson Smith Hall.

Directions to the Gorham campus (Registrar’s office, 113 Corthell Hall)—From either north or south, take the Maine Turnpike to Exit 8 (Portland/Westbrook). Follow signs to Gorham on Route 25 west. At Gorham center, turn right onto Route 114. Take first left onto College Avenue and first right at the USM sign. Once on campus, turn right and park in the Visitor’s Lot in front of Corthell Hall.

USM does not discriminate on the basis of race, color, religion, sex, sexual orientation, national origin or citizenship status, age, disability, or veteran’s status and shall comply with Section 504, Title IX, and the ADA in employment, education, and all other areas of the University. The University provides reasonable accommodations to qualified individuals with disabilities upon request. Discrimination inquiries can be directed to Sue Ellen Bordwell, 780-5171, TDD, 780-4595, or to the Office of Civil Rights, 617-223-9692.

The University of Southern Maine reserves the right to revise, amend, or change items in this catalog from time to time. Readers of this catalog should inquire as to whether any such revisions, amendments, or changes have been made since the date of publication. The University reserves the right to cancel course offerings, to set minimum size of classes, to change designated instructors in courses, and to make decisions affecting the academic standing of anyone participating in a course or program offered by the University of Southern Maine.
Registration begins Monday, April 5 and continues through the beginning of each session.

Holidays:
University closed on Monday, May 31, Memorial Day and Monday, July 5, Independence Day

The dates shown in this calendar are subject to change at any time by official action of the University of Southern Maine.

Most offices on campus are open from 8:00 a.m. to 4:30 p.m. and will have extended hours to accommodate student registration. The offices are listed below.

- **Advising Centers** • 122 Payson Smith (Portland) • 780-4040 • 103 Corthell Hall (Gorham) • 780-5340
- **Department of Conferences** • 68 High Street (Portland) • 780-5960
- **Financial Aid** • 202 Corthell Hall (Gorham) • 780-5250
- **Graduate Education** • 118 Bailey (Gorham) • 780-5306
- **Off-Campus Programs** • 301 Payson Smith (Portland) • 780-4470
- **Professional Development Center** • 305 Bailey Hall (Gorham) • 780-5326
- **Registrar's Office** • 113 Corthell Hall (Gorham) • 780-5230 • 101 Payson Smith Hall (Portland) • 780-4076
- **Student Billing Office** • 128 Payson Smith (Portland) • 780-5200 • 110 Corthell Hall (Gorham) • 780-5200
- **Student Life** • 100 Upton Hall (Gorham) • 780-5240 • Campus Center (Portland) • 780-4090
- **Summer Housing** • 100 Upton Hall (Gorham) • 780-5240
- **Summer Session** • 101 Payson Smith (Portland) • 780-4076

*Extended Hours for Registration*

Portland Advising Center • 122 Payson Smith • May 17-18 • July 6-7 • (8:00 a.m.-7:30 p.m.)

Summer Session Office • 101 Payson Smith • May 17-18 • July 6-7 • (8:00 a.m.-7:30 p.m.)

Student Billing Office • 128 Payson Smith • May 17-18 • July 6-7 • (8:00 a.m.-7:30 p.m.)
Welcome to the University of Southern Maine (USM). Our Summer Session program is designed with you in mind, with more than 350 courses, special workshops, and institutes. Whether you listen to a reading or improve your writing at the Stonecoast Writers’ Conference, participate in an archaeological field program on St. John, learn about childhood psychopathologies, brush up on a language, work on your recertification, or take one more (or your first) step toward your degree, the USM Summer Session has something for you.

With a variety of sessions and flexible scheduling, Summer Session allows you the freedom to choose the mix of courses, session lengths and times which best fit your individual needs and interests. Several special programs are offered in the summer which are not available at any other time—see the Special Programs section of the catalog for information about these exciting offerings.

With registration sites located at the Portland, Gorham, and Lewiston-Auburn campuses of USM and at off-campus sites, as well as some phone-in registration dates, USM makes it easy for you to register where you want to register. Registration begins April 5. Make USM your choice this summer!

The University of Southern Maine is a coeducational, public university located in Portland, Gorham, and Lewiston-Auburn, Maine, with an enrollment of over 10,000 students during the regular academic year and over 4,500 students during the summer. The University is accredited by the New England Association of Schools and Colleges.

The campuses of USM offer a number of unique points of interest—a blend of the old and the new. On the Gorham campus, which is more than 100 years old, is the McLellan House, dating from 1773 and believed to be the oldest brick house in the state. The Art Gallery, built in 1878, was an early Gorham town hall. Corthell Hall was named in 1878 for the first president. The President’s house was built in 1906 and is the home of the president.

Among the Portland campus buildings are the Alumni Center, the only remaining building of the Deering Estate, an eighteenth century farm; the seven story law building which houses the School of Law; and many University administrative offices; and the Science Building, which houses the Southworth Planetarium, considered to be one of New England’s finest planetariums.

In addition, the Intown Center at 68 High Street was the early site of Portland Children’s Hospital, was later the first location of the University of Maine School of Law, and now provides a convenient location for noncredit programs, as well as a site for USM’s Community Television System.

Students and visitors to campus are encouraged to take advantage of the University’s ideal location. An attractive vacation area, southern Maine offers many activities for visitors in the summer. A nationally recognized orchestra, resident theatre and dance companies, an exciting art museum and picturesque shopping make the city of Portland a cultural center for the area. The surrounding lakes, mountains, and beautiful Maine coast offer a variety of recreational activities during the summer. Two coastal state parks (Crescent Beach and Two Lights) are about a half-hour’s drive from either campus. To the west, Sebago Lake State Park is about a 45-minute drive from the Gorham campus.

Summer Session is part of the Office of Extended Academic Programs. Other departments include International Programs, National Student Exchange and English as a Second Language. With creative and diverse programming, all of these departments offer a variety of educational options for our students, both here and abroad.
Registration Information

Registration begins April 5, 1993

Phone-in Registration (using VISA or MasterCard only)

Students may register by telephone for undergraduate courses and graduate courses except those offered by the School of Business, Economics and Management and the School of Nursing by calling the Registration Services Office at: (207) 780-4408. Please have your card number ready. Phone-in registration begins April 5 and will run for the following weeks only: April 5-9, May 10-14, June 21-25. Please note that the phone lines are extremely busy during the first week of registration. If you live or work close to one of the USM campuses or off-campus sites, you are encouraged to go to that site to register.

Mail-in registrations for undergraduate and graduate courses are not accepted.

Undergraduate Registration

Academically qualified students may take courses in the summer, even though they have not been accepted into a degree program. Before registering, students should read carefully the course prerequisites in the course description.

Advising

Academic advising for students with declared majors is available by contacting specific academic departments. Academic advising for undeclared or non-matriculated (special) students is available through the Advising Center in Payson Smith Hall on the Portland campus or the Advising Center in Corthell Hall on the Gorham campus. These centers provide academic advising to assist students in interpreting University curricula requirements and in making decisions regarding the appropriate selection of courses for which they may register.

Undergraduate Registration Procedures

Undergraduate Registration (walk-in)

All students taking undergraduate courses may register in person at the Registration Services Office in Payson Smith Hall on the Portland campus, the Registrar's Office on the Gorham campus, the Lewiston-Auburn College, or any off-campus site. Students registering for courses in the School of Business, Economics and Management or the School of Nursing must register at those schools (Luther Bonney Hall and Masterton Hall, respectively). This registration may be made through the second class meeting. Please note the office hours for registration in the Summer Hours, Offices and People section of this catalog.

Graduate Registration

Students holding a baccalaureate degree may register for graduate courses (courses with a number of 500 or higher) even though they have not been accepted into a degree program, providing there is space in the course and that all course prerequisites have been satisfied. Exception: Due to national accreditation standards, no MBA graduate courses may be taken by individuals not meeting the "1050 rule." Contact the MBA Program for details on this restriction (780-4184).

Graduate Registration Procedures

Graduate Registration (walk-in): Students taking graduate courses may register in person at the Registrar's Office (Corthell Hall, Gorham) or Registration Services (101 Payson Smith Hall, Portland). Registrations will be processed from April 5, 1993 through the Friday preceding the beginning of each session. Please note that payment must be made at the time of registration.

Graduate Programs

Graduate Admission

To be admitted to a graduate program, an applicant must have received a baccalaureate degree from an accredited college or university and must show ability to pursue advanced study and research. All applicants, except those for the MBA program, are required to provide the results of their performance on either the Graduate Record Examination or Miller Analogies Test. Applicants for the MBA program should present scores from the Graduate Management Admission Test in lieu of GRE scores or MAT scores.

An application is not considered complete until all the required transcripts, appropriate test scores, and letters of recommendation are on file. All material sent in support of an application for admission becomes the property of USM and will not be returned to the student.

For information regarding admission to any of USM's graduate programs contact:

Office of Graduate Affairs
University of Southern Maine
96 Falmouth Street
Portland, Maine 04103
(207) 780-4386

For specific program information, contact:
College of Education, 780-5306; School of Business, Economics and Management, 780-4184; School of Nursing, 780-4130; School of Law, 780-4346.

General Policies Related to Undergraduate and Graduate Registration

Audits

Students may register for courses on a noncredit basis. With a noncredit registration, the student may participate in classwork, but is not required to take examinations. A noncredit registrant should know, however, that state Departments of Education do not accept for certification or other purposes any course taken on a noncredit basis. An audit registrant is required to pay full tuition for the course.

Course Cancellation

The University reserves the right to cancel courses in the case of low enrollment.

Degree Applications

Students who expect to complete associate, baccalaureate, or graduate degree requirements this summer should submit an Application for Degree. These forms are available in the Registrar's Office.

Failure to Withdraw Penalty

Failure to submit notice of withdrawal may result in a failing grade and a financial liability. Discussion with faculty members is not proper notification of change. In the case of a student withdrawal after the automatic grade "W" period, the student will receive a grade designation to be determined by the instructor.

Grades and Transcripts

Grade reports will be mailed to students at their home address by the Registrar in early July and late August. These grade reports represent the only notification to students of their performance in given courses.

Students who desire official documentation of work completed during a summer session must complete a Transcript Request form at the Registrar's Office. Transcripts will be updated with summer session work when a grade is received by the Registrar. The fee for a transcript to be sent outside the University of Maine System is $3.00 per copy. There is no charge for transcripts sent within the University System. All University charges must be paid before a transcript is released.

Independent Study

All courses entitled Independent Study require the use of a special advance approval form, available upon request from the Registrar's Office or the Registration Services Offices. This form must be completed in advance of registration.

Registration (Changes)

Students may not add a course after the secondclass has met. Changes to or from pass/fail,
audit, and repeat must be done before the second class meeting. To add or drop a course or make other changes after registration is completed, the student must complete the proper forms at the Registrar's Office on the Gorham campus or the Registration Services Office on the Portland campus. All courses added must be paid for at the time of registration.

Registration (Late) Students in attendance at the first and/or second class meeting must complete and submit registration forms not later than the second class meeting.

Variable Credits Students wishing to register for variable credit courses must complete a Variable Credit Approval form, obtain proper approval, and specify the credit hours for which they will register.

Maine Immunization Law Current Maine State Law requires all degree students (and non-degree students taking 12 or more credit hours), and who were born on or after January 1, 1957, to show proof of immunization against measles (rubella), rubella, mumps, tetanus, and diphtheria BEFORE the student registers for classes. Any student who has already demonstrated proof of immunization to the University of Southern Maine does NOT need to show proof again.

Educational Network of Maine

The Educational Network of Maine offers associate and baccalaureate courses via live, interactive television (one-way video and two-way audio). Network courses are available at UMA's off-campus centers in Saco/Biddeford and Sanford. In addition, these courses may be offered at Kennebunk, Massabesic, Noble, Bonney Eagle, and Wells High Schools. For a complete listing of courses by location, contact any off-campus center or the Summer Session Office.

Tuition and Fees

There are three types of tuition charged: undergraduate, graduate, and law. Tuition charges are calculated by multiplying the number of credit hours attempted by the rate established. Courses being audited are included in this calculation.

</tbody>
</table>

The tuition charged for undergraduate courses offered at Lewiston-Auburn College or the University of Maine System Centers at Bath-Brunswick, Saco-Biddeford, or Sanford is slightly lower. For more information, contact the site where the course is being offered.

Tuition rates are established by the University of Maine System Board of Trustees. The University reserves the right to adjust these charges to respond to changing costs, state and/or federal legislative action, and other matters. Such adjustment may be made any time prior to the date of final registration for a given academic term. A student acknowledges this reservation by applying for admission or registering for courses.

Technology Fee

This is a mandatory $2.00 per credit charge. The money generated by this fee is used to purchase computer hardware and software used by students. Some specialized courses require payment of a fee in addition to tuition and are designated in the course schedule. For information, contact the Summer Session Office.

Payment Procedures

University charges are due at the time of registration. A $25.00 late fee will be assessed if payment is not received. Cash payment may be made at the Student Billing Office or at an off-campus center. Cash should not be mailed.

Checks Checks should be made payable to the University of Southern Maine. The student’s name and social security number should be shown on the check. If a check is returned for non-payment, a $10.00 fee is charged.

Credit Cards The University accepts both MasterCard and Visa for payment of tuition and mandatory fees. The minimum allowable transaction is $25.00.

Third Party Payments The University will bill an employer or agency that guarantees the payment of a student's charges. The employer/agency must provide written payment authorization before the student registers. Conditional payment offers cannot be accepted.

Senior Citizen Tuition Waiver

The University of Maine System Board of Trustees has authorized the waiver of tuition charges for any person age 65 or over who shows evidence of financial need. Permission to enroll is granted on a space available basis. An application for a Senior Citizen Tuition Waiver must be completed at the time of registration. Proof of age is required.

Payment Plans

Students registering prior to May 1, 1993, are eligible to participate in the University's three-payment plan. At the time of registration, the student must pay one-third of the total balance due. Subsequent payments are due on May 31, 1993 (one-half of the outstanding balance) and June 28, 1993 (remaining balance). Students electing this option are charged a $15.00 installment payment plan fee.

Bills are mailed no less than five days in advance of the payment due date. The bill is sent to the student's local address, as shown on the Registrar's files. If payment is more than five working days late, a $25.00 late payment fee is assessed (the late fee is charged no more than once during the summer). Students who don't make timely payment may be prohibited from using the payment plan and required to make payment in full before future registrations are accepted.

Adjustment of Charges

Students who withdraw are assessed charges in accordance with schedules established by the University of Maine System Board of Trustees. The date the Registrar receives written notification of withdrawal is used when calculating refunds. For more information, please consult the University catalog.

Refunds

Students who drop a course or withdraw from the University may receive partial refunds of tuition based upon the following schedule.

<table>
<thead>
<tr>
<th>Sessions which are more than three weeks</th>

Adjustment of Charges

Students who withdraw are assessed charges in accordance with schedules established by the University of Maine System Board of Trustees. The date the Registrar receives written notification of withdrawal is used when calculating refunds. For more information, please consult the University catalog.

Refunds

Students who drop a course or withdraw from the University may receive partial refunds of tuition based upon the following schedule.
Accommodations and Dining

On-Campus Accommodations

Nightly, weekly, and entire summer accommodations are available on the Gorham campus and at Portland Hall, 645 Congress St, Portland, from May 16-August 21. Furnishings include a bed, desk, desk chair, closets, drawer space, and overhead lights. Study lights and fans are not provided and it is recommended that you bring your own. Major kitchen appliances are provided in Portland Hall suites. Bathrooms in Gorham are the community type and separate for men and women. All Portland Hall rooms/suites have in-unit baths. Pets are not permitted in residence halls. Health and fire regulations prohibit cooking in residence hall rooms (except Portland Hall suites). Room/suite types (e.g., singles) may be limited and assigned on a first-come, first-served basis. If you choose a double and do not specify a roommate, one may be assigned to you.

On-Campus Dining

Meals and snacks are available on both campuses. Portland Hall and the Gorham Summer Session Hall have small common kitchens for student use. Information regarding locations, schedules, and prices will be mailed to you with confirmation of your room reservation.

Reservation and Payment Policy

- Reservations for full summer—send $75.00 nonrefundable deposit. You will be billed for the balance with your confirmation notice.
- All other reservations—send no money. You will be billed with your confirmation notice.
- All balances due at or before check-in unless a payment plan has been arranged (4-week stay or more only). Payment plan information will be sent with your confirmation.
- Confirmation notices and bills for reservations made one week or less prior to stay will be held at the Summer Housing Office on campus of residence.
- Refund Policy for on-campus accommodations can be found in the Tuition and Fees section of this catalog.

Off-Campus Dining/Lodging/Camping

For information regarding off-campus services, contact: Convention and Visitors Bureau, 305 Commercial Street, Portland, Maine.

Return form to: Summer Housing, University of Southern Maine, 100 Upton Hall, Gorham, Maine 04038.
Phone (207) 780-5240.
Campus
Resources and Services

Parking
All faculty/staff and summer session student vehicles not previously registered for the 1992-93 academic year must be registered and display a valid decal.

Effective May 17, 1993, the vehicle registration fee will be $10.00. All decals expire August 31, 1993.

Vehicles may be registered at Student Billing, Payson Smith Hall on the Portland campus, and at Police and Safety, Upton Hall on the Gorham campus.

Bookstore
Both Portland and Gorham campus stores are open from 8:00 a.m. to 4:00 p.m., Monday through Friday. The stores will be open for extended hours at the beginning of several sessions. Please call to check for specific hours.

We will mail textbooks to any student who is unable to obtain textbooks within our regular business hours. There is a small handling charge for this service. Please call the Bookstore (780-4070, Portland or 780-5476, Gorham) to obtain the correct price, tax, and shipping fee, so that you may mail a check before USM Bookstores will ship the textbooks.

Please note: Textbooks for a Gorham campus course are located only in the Gorham Bookcellar, and the Portland course books are only in the Portland bookstore.

Cash refunds for texts will be made if the following conditions are met:
1. Refunds will be made for a period of one week (5 working days) from the first day of class.
2. If a course is for less than one week, refunds will be made on the first day of class only.
3. All refunds must be accompanied by the cash register receipt and by class registration materials.
4. Books must be in new, resalable condition unless purchased as used.

Library
The University Library provides a full range of services on both campuses (Portland-Luther Bonney Hall; Gorham-Bailey Hall). Among the services available are: circulation and reserves, informational and research reference, bibliographic instruction, electronic database searching, and interlibrary borrowing.

Portland and Gorham Campuses
Monday-Thursday: 8:00 a.m.-10:00 p.m.
Friday: 8:00 a.m.-5:00 p.m.
Saturday: 9:00 a.m.-5:00 p.m.
Sunday: 10:00 a.m.-6:00 p.m.

Holiday and intersession hours will be as posted or may be heard by calling 780-4507.

Educational Media Services
Portland Campus: 780-4280
Gorham Campus: 780-5356

Hours: Mon-Fri, 8:00 a.m.-4:30 p.m.

Classroom audio visual equipment needs available from 8:00 a.m. to 10:00 p.m. Weekend and special equipment needs by prior arrangements.

Academic Advising
There are two Advising Centers (one on each campus) to provide academic advising for students who are undeclared or undecided about a major, students who are "admitted with conditions," and non-degree students. The coordination of services for disabled students who have special needs also takes place in the Portland Campus Advising Center. For further information, contact the Advising Center in Payson Smith Hall on the Portland Campus (780-4040), or the Advising Center in Corthell Hall on the Gorham Campus (780-5340).

Counseling
Through a staff of professional psychologists and counselors, the Counseling office assists students with personal counseling needs. As part of these services, the office provides testing, and referral as deemed appropriate. For more information contact: Counseling, 106 Payson Smith Hall, 780-4050.

Off-Campus Centers
In its continuing effort to meet the needs of a diverse student population, the University of Maine System administers centers in Saco-Biddeford and Sanford. These centers provide easy geographic access to University courses and services. Students may register for courses taught at any USM location at either center. Students may also phone in registrations if payment is made by VISA or MasterCard. For more information, contact the center nearest you.

Saco/Biddeford Center
Mill 2, Saco Island
Saco, Me. 04072
(207)282-4111

Sanford Center
72 Pleasant Street
Springvale, Me. 04083
(207)324-6012

Financial Aid
Going to college is an important and exciting decision. It is also a decision that involves some planning to make sure that you have the resources to pay for tuition, fees, and other college-related costs. Students who do not have adequate financial resources may be eligible for financial assistance and are encouraged to contact the Student Financial Aid office on the Gorham campus. This office administers, coordinates, and recommends programs of financial aid to enable those students who lack adequate financial resources to attend USM.

Summer financial aid is available to eligible continuing students from Pell Grant and student loan programs. Limited funds are also available through the Summer College Work-Study (CWS) program. Students who are interested in applying for summer financial aid need to complete a USM Financial Aid Application available through the Student Financial Aid Office. Applicants must also submit a completed 1992-93 FAFSA (Free Application for Federal Student Aid) to be processed and submitted signed, 1992 federal tax returns (student's and parents when appropriate) to the Student Financial Aid Office.

To receive priority consideration for summer financial aid, the USM Financial Aid application must be received by the Student Financial Aid Office and the FAFSA must be received by the processor by February 26, 1993. Signed, 1992 federal tax returns should be received by the Student Financial Aid Office by March 30, 1993.

Application materials are available at the Student Financial Aid Office, Corthell Hall, Gorham campus, Room 115 Payson Smith Hall, Portland campus, and at all off-campus locations (Sanford Center, Saco Center, Lewiston/Androscoggin College). Those students interested in applying for Stafford Loans may obtain applications from local banks, credit unions and savings and loan institutions.

For more information about financial aid and the financial aid process, contact the Student Financial Aid Office, 202 Corthell Hall, Gorham campus, 780-5250.

Veterans Affairs
The Office of Veterans Affairs is staffed by a full-time veterans coordinator. Veterans should contact the office, located in 101 Payson Smith Hall, for more information. (207) 780-4043.
Special Programs

Institutes for Educators

The Professional Development Center (PDC) is the in-service arm of the College of Education at the University of Southern Maine. Its commitment is to assist educators in their quest for excellence.

In the summer, the PDC sponsors special courses and institutes to contribute to the development of educators throughout the state. The programs are designed to provide participants with new knowledge and skills. They range from one-day seminars to intensive one-week institutes to three-week courses. They carry varying types of credit: graduate academic, in-service graduate academic, and continuing education units. For information, please call (207) 780-5326.

Field Camps

Ecological and Archaeological Field Studies in the West Indies
GYA 300 or COR 132IW
June 14-July 12, 1993

USM's 1993 program in the West Indies will offer two alternative opportunities for study in the West Indies. Students may register for either GYA 300 Archaeology Field School, or for COR 132 Historical Ecology. Both alternatives will involve one week of intensive classroom work on the USM campus, followed by three weeks of field study on St. John, the smallest and least developed of the U.S. Virgin Islands. Each course carries 6 credits.

Students enrolled in GYA 300 will participate in the discovery, description, and excavation of pre-Columbian settlements, and will contribute to an inventory of resources that were available to the Native American inhabitants of the island.

Students who enroll in COR 132 will study the long-term changing relationships between humans and the island ecosystem, with attention to the contrasting experiences of Native American, European, and AfroAmerican peoples on St. John.

The 1993 West Indies program will be jointly taught by Dave Davis, Department of Geography/Anthropology and Thomas Knight, Department of Biology. For more information and an application, contact the Summer Session office at (207) 780-4076.
Environmental Archaeology Field School in Casco Bay, Maine GYA 300
July 26-August 20, 1993

This program is offered through USM’s Department of Geography and Anthropology. The research will focus on the prehistory of the coastal adapted people and the nature of their subsistence patterns. Students will excavate Archaic (ca. 3000 B.C.) and Woodland (ca. A.D. 1500) midden deposits, map and photograph several sites, and conduct vibracore sampling of the coastal marine environments. These data will be utilized to examine the relationship between prehistoric human populations and changes and evolution of the natural ecosystem.

The archaeology field school will provide all lectures and training in the field for a four-week period. All instruction will be in the field with scheduled lab work involving material culture studies and GIS work running concurrent in the evenings. Instructors are Nathan Hamilton and Matthew Bampton. Hamilton will supervise excavations and Bampton will supervise site excavation and compilation of the GIS data base. This field work will be central to the development of a cultural resource management plan for Casco Bay. Program costs, including tuition for 6 credits, housing, meals, boat and land transportation is $1136 for in-state students and $2114 for out-of-state students. Enrollment is limited to 15 and is by permission. For information and application materials, contact Summer Session at (207) 780-4076.

Field Studies in Environmental Geology—Lesvos, Greece GEY 299
July 2-26, 1993

This course will consider the basic and applied geology of the eastern Aegean Sea with emphasis on the island of Lesvos, Greece. It will provide a broad educational experience emphasizing an understanding of environmental geology as it relates to land use and development. Director: Irwin Novak, Ph.D., associate professor of geology, Department of Geosciences. For more information and application, call Summer Session at (207) 780-4076.

Readers Theatre Institute in San Diego July 11-30, 1993

Readers Theatre is a process of arranging and presenting literature and nonfiction materials on stage, in the classroom, and wherever else audiences gather. In addition to teaching and theatre, it is gaining recognition in other fields, including the social services, for both its artistic and utilitarian uses. Readers Theatre, therefore, is an art form and a highly effective teaching methodology. Workshop classes are Monday-Friday mornings for three weeks with afternoon, evenings, and weekends free to enjoy the cultural, historical, and recreational attractions of the area. This year, participants will be able to sample the heritage of beautiful San Diego and the ambience of old Mexico and Hollywood, both located nearby. No previous training in theatre is required. Participants with little or no background in the arts find working with experienced peers exceptionally rewarding. Workshop students come from all 50 states as well as foreign countries. Their educational levels range from high school seniors through post-doctoral study.

The course is divided into two basic areas of emphasis, Classroom and Performance, to meet the needs of teachers, undergraduate and graduate students, both professional and amateur theatre practitioners, and others including family members who seek creative growth.

RT for the classroom introduces Readers Theatre as a dynamic, highly efficient teaching tool. The skills and techniques developed by our Institute during the past 20 years are presented in simple, practical action to enable teachers of all subjects (especially Reading, Language Arts, Social Studies, Foreign Language, and Speech Communication) to become specialists in this popular innovative approach to successful teaching. Everyone is given the opportunity to create scripts, direct, perform, evaluate, and learn highly effective classroom methodologies.

RT for performance emphasizes theatre with the various styles in which texts can be shared with an audience. Those who are primarily interested in the staging dimensions of Readers Theatre will learn exciting new presentational modes which are becoming prominent throughout the world. Trevor Nunn’s Nicholas Nickleby and Frank Galati’s Of Mice and Men are examples of internationally celebrated commercial RT productions.

All share in General Sessions which feature performances, demonstrations, guest artists, and in-house events. Everyone is also involved in Oral Interpretation, Storytelling and Improvisational Theatre. A daily period is devoted to staff-directed productions seen on the final day.

Students have the advantage of a large and highly trained faculty as well as a series of guest lecturers which has included John Gielgud, Diana Rigg, Eva Marie Saint, Ray Bradbury, and many other important artists. Last year’s session included Richard Eyre, the artistic director of the National Theatre of England. For more information and an application, contact the Summer Session office at (207) 780-4076.

Sport Psychology Institute
PSY 400
June 24-26

This is a three-day institute that will examine a number of current issues in sports psychology. Topics include: 1) psychology of the elite athlete; 2) psychosocial factors influencing competitive sport participation of young athletes; 3) mental preparation for performance optimization; 4) goal setting and athletic performance; 5) life development intervention and its application with athletes; 6) sport psychology and the professional athlete; and additional topics. Presenters will be asked to address these issues from the perspective of athlete, coach, sports professional, and parent. For more information or to register, contact the Summer Session office at (207) 780-4076.

Childhood Psychopathology
PSY 400
July 1-3, 1993

This three-day workshop will examine 1) treatment of anxiety disorders in children and adolescents; 2) clinical psychological evaluation of children; 3) social skills training with children and adolescents; 4) helping parents help their non-compliant child; 5) OSM IV Classification of childhood mental disorders; and additional topics. Intended for teachers, guidance personnel, and mental health professionals, this institute will utilize local, regional, and national experts to facilitate a discussion of theory and practice. For more information or to register, contact Summer Session at (207) 780-4076.
Kodaly Workshop

MUE 599
July 26-30
This three-credit course will examine the philosophy of the Kodaly concept of music education as adapted for the American classroom. Four areas will be explored: Kodaly methodology for elementary and middle school levels, folksong and art music examples and resources, development of musicianship through melody and rhythmic solfege, and materials and rehearsal strategies for young choirs. Teachers will learn to create lessons which teach musical literacy in a sequential but fun manner, and to organize individual lessons into coherent long-term goals and plans. The instructor for this course in Victoria Loebell, assistant professor of theory and music education and assistant chair of music education at Hartt School of Music, University of Hartford. For more information, contact Summer Session at (207) 780-4076.

Media & Journalism

New as of summer 1993, USM is offering a selection of courses appropriate for students interested in journalism in all of its forms. These courses include: ENG 299 Magazine Feature Writing, ENG 309 News Writing, COM 399 Electronic News Gathering, ART 399 Photographic Essay. See these departments in this catalog for course descriptions.

Stonecoast Writers’ Conference

Portland Campus

July 24-August 3
The Stonecoast Writers’ Conference is for students, teachers, and others seriously interested in writing who seek to improve their written work. The staff consists of generous, inspiring, and personable professional writers with distinguished experience in teaching and a substantial record of written achievement.

Please note that application for admission must be sent to: Stonecoast Writers’ Conference, Summer Session, University of Southern Maine, 96 Falmouth Street, Portland, Maine, 04103. Manuscript samples are required for admission. For further information and application, call 780-4076.

The Courses

Creative Nonfiction Workshop ENG 299
This is an intermediate workshop which will treat a variety of types of nonfiction including autobiographical writing, reviews, journalistic articles, and essays. Workshops will focus on voice, style, organization, research interview techniques; will explore the boundaries between fiction and non-fiction and will discuss marketing completed manuscripts. Cr. 3

Children’s and Young Adults Fiction Workshop ENG 299
In addition to the general principles of good fiction and emphasis on individual manuscripts, this workshop will address the special elements of all levels of children’s book writing, from the board book to the young adult novel: language, tone, genres, illustrations and getting published. Cr. 3

Genre Writing ENG 299
This is a new course designed to accommodate various types of genre writing, including the detective novel, horror, science fiction and fantasy. Workshops will focus on the basics of good writing—pacing, dramatic tension and character—as well as on elements of crafting particular to each genre. Attention will also be paid to marketing manuscripts. Cr. 3

Fiction Writing: Developing Short Story Material ENG 300F
This is for those who have already, in a course such as Creative Writing or on their own, written several pieces of fiction and are ready for more advanced work. Emphasis will be supportive rather than critical, with instruction in writing well-developed short stories and on understanding the basic elements of fiction. Suggested preparation: ENG 201F Creative Writing. Cr. 3

Fiction Workshop: Short Stories ENG 302F
This is an advanced course in writing fiction. Discussion of student short stories and work-in-progress will occur with emphasis on subject development, technique, plot, and publication standards. The faculty represents varied perspectives on form and style which challenge the contemporary writer. Class discussion of student stories and manuscript conferences will take place. Cr. 3

Poetry Workshop: Poems for the Reader ENG 303F
This is an intermediate to advanced course in which emphasis will be placed on effectively engaging the poem’s emotional values, its boldness, humor, passion, or relationship to the mysteries of sadness. Class discussion will explore the initial motivation and circumstances behind a poem to clarify what the poem seeks to convey, and how well it touches the reader’s emotions with fire and wit. Members of the poetry workshop may be called upon to write and revise poems as assignments. Cr. 3

Novel Workshop: Writing the Novel ENG 304
This is an intermediate course designed to help novelists with the unfolding of their books. This workshop will study form and rhythm in the novel as well as plot, character, point of view, and voice. Students should submit a key chapter or scene (15-25 pages) which contains the threads of the whole book and a one-page synopsis of the book. Cr. 3

* A manuscript sample is required for admission.

Programs for Young People

Child Care Services

Day Program
Infant, Toddler, Preschool, Kindergarten, and After-school
Ages: 6 weeks to 13 years
Dates: Year Round
Hours: 7:30 a.m.-5:30 p.m.
Locations: Portland Campus, Gorham Center-Portland, and Gorham Campus.

Full-time, part-time and hourly rates available. Waiting lists may exist in some programs.

Call USM Child Care Services at 780-4125 for more information.

Southern Maine Music Academy

July 10-18
The Southern Maine Music Academy is a nine-day program designed to provide high school musicians with opportunities for musical growth and development through intensive group and individualized instruction provided by a highly qualified staff of professional musicians. The staff includes Peter Martin, Scott Reeves and John Boden, all professors at the University of Southern Maine. For more information, contact Summer Session at 780-4076.

Camps

USM Day Camp
Ages: 6-13 years
Dates: June 28-August 20
Hours: 7:30 a.m.-5:30 p.m.
Location: Gorham campus and beyond
Transportation from the Portland campus to the Gorham campus and return is available.

Full-day, broad-based program providing hiking, crafts, swimming, nature study, sports and the arts, plus experimental learning opportunities for stimulating social and academic skills. Special programs for the 11-13-year-old group, plus a Counselor in Training Program for 14 year olds.
USM Basketball Camps

- SWISH Basketball Camps:
  Team SWISH: June 21-July 1
  Girls' SWISH: July 25-30
  Boys' SWISH: August 1-6

- SWISH Day Camps:
  June 21-25
  July 26-30
  August 16-20

The SWISH Basketball Camp provides top-quality instruction in all phases of basketball to boys and girls entering grades 6-12. SWISH day camps are for girls and boys ages 9-12. Each camper will receive individual, team, and group instruction featuring some of the finest high school and college coaches in New England. Directed by Al Sokaitis, men's basketball coach and Gary Fifield, women's basketball coach at the University of Southern Maine, the camps feature development of team concepts, discussion on the care and prevention of injuries, training concepts and programs, modern facilities, divisions of competition, and a positive approach to the world of basketball.

- RISE Basketball Camps:
  Shooting Camp: June 21-23
  Advanced Position Play: June 24-26
  Post Play Camp: July 1-3
  One-on-One Camp: July 30-August 1

For boys and girls entering grades 9-12 RISE Camps offer individuals an opportunity to improve their skills through a program designed to produce maximum results in a minimum period of time.

STIX Field Hockey Camp

Grades 9 through 12
Dates: July 4-9

The objective of STIX Camp is to provide the highest quality instruction in all phases of field hockey to girls entering grades 9 through 12. The camp is directed by Paula Hodgdon, head field hockey coach at USM. She is supported by a staff of outstanding high school and college coaches, as well as members of the U.S. Olympic Field Hockey Team. Emphasis is placed on individual and team instruction, fair play, training concepts, and a positive approach to competition and world of field hockey.

USM Fundamental Baseball Camp

Grades 8-12
June 20-25

Young players will learn from professionals who are dedicated to teaching and motivating young athletes. Directed by Ed Flaherty, head baseball coach at USM, the object of the camp is to provide the best possible instruction in all phases of baseball. Each player will receive individual, team, and group training in pitching, catching, infield, outfield, baserunning, and hitting.

USM Summer Soccer School

Girls' Week (grades 7-12):
July 11-16
Boys' Week (grades 7-12):
July 18-23
Soccer Day Camp (ages 9-12):
July 26-29

In its 18th year, the USM Summer Soccer School has developed into one of the best soccer programs in New England. The camp provides progressive instruction in basic soccer techniques and tactics toward the development of young soccer players. These skills are developed through team, special group, game situations, and individualized instruction by an outstanding coaching staff comprised of both college and high school coaches from throughout the country.

Husky Hockey Camp

Ages: 9-17
July 12-16

The objective of the Husky Hockey camp is to provide local hockey players with basic fundamental instruction that will help maximize individual ability and talent. The high level of training offered at Husky Hockey is designed to foster the development of such basic skills as skating, shooting, and passing. Off-ice training will be included in the program with a concentration on off-season and in-season conditioning to improve quickness, strength, and endurance.

For more information or to register...
Day Camps: contact USM Child Care Services, 780-4125.
All Other Programs: contact Department of Conferences, 780-5960.

Honors Program

The Honors Program provides an enriched education to a selected group of students who are outstanding in their ability, curiosity, creativity, and motivation. Students selected for the program work closely with faculty in a series of small seminar-type courses specially designed for Honors Program students. These courses integrate knowledge from various disciplines and examine more fully than is possible in the general curriculum the ways of knowing, Western culture, and contemporary situations. Honors Program work provides a superb background for further study and will assist students in gaining admission to graduate or professional school. For more information about the Honors Program, contact: University Honors Program, University of Southern Maine, 96 Falmouth Street, Portland, ME 04103, (207) 780-4330.

Certificate Programs

Several departments within the Division of Continuing Studies offer non-credit certificate programs for professionals in several fields. For further information, please call the telephone numbers listed below:

Community Programs (780-5900)
Certificate for Paralegals
Certificate for Personal Computer Management
Certificate in Conflict Management
Certificate in Basic Computer Proficiency
Certificate in Advanced Computer Proficiency
Certificate in Nonprofit Development

Continuing Education for Business (780-5910)
Certificate in Management
Certificate in Health Care Management
Certificate in Human Resource Management
Certificate in Office Management
Certificate in Supervision
Certificate in Integrated Management

Continuing Education for Nursing and Health Professions (780-5950)
Certificate in Nursing Leadership and Management

Lifeline Center for Fitness, Recreation, and Rehabilitation (780-4170)
Certificate in Fitness Instruction

Other USM Programs

Graduate Programs

The University of Southern Maine offers post-baccalaureate degrees in the following areas: law (through the University of Maine School of Law), education, business administration, nursing, computer science, public policy and management, electrical engineering, applied immunology, New England Studies, and statistics. For more information about any of these programs, except education and law, contact the Office of Graduate Affairs at (207) 780-4386. For more information about programs offered by the College of Education, contact the Office of Graduate Education at (207) 780-5306. For more information about the School of Law, its programs and its summer offerings, contact the School of Law, Office of the Registrar, 246 Deering Avenue, Portland, ME 04102, (207) 780-4346.
Small Business Development Center

SBDC provides comprehensive management and technical assistance services to Maine's small business community. It offers a wide range of resources to assist small businesses: one-on-one business counseling, a valuable library and information clearinghouse, and a range of computer-related services. The SBDC also offers training, special programs, and conferences on a variety of business-related subjects. For further information, contact the SBDC at (207) 780-4420.

Center for Real Estate Education

The Center for Real Estate Education, a part of the Institute for Real Estate Research and Education, offers courses necessary to obtain real estate licensure and appraisal licensure/certification in the state of Maine. Courses are also offered to meet continuing education requirements in both real estate and appraisal. All courses are provided statewide. Also available is a Certificate Program in Property Management, as well as continuing education courses for tax assessors for licensure recertification. There are additional correspondence course and video course offerings in finance, construction, investments and other related areas. For more information, write the Center for Real Estate Education, USM, 68 High St., Portland, ME 04101 or call (207) 874-0520.

Production Technology Center

The Production Technology Center is a dynamic, regional university-industry partnership. It assists firms in increasing productivity and enhancing their ability to compete successfully in a global economy. The PTC utilizes the facilities and faculty of the University of Southern Maine, as well as the expertise of private consultants and individuals from industry. It provides assistance to companies through workshops, short courses, conferences, testing, patent searches, productivity assessments and consultant referral. Noncredit technical continuing education courses are offered at various locations on USM campuses and, for interested companies, are offered in-house. Conferences and workshops are offered throughout the New England area in cooperation with departments within the University of Maine System and are endorsed by local chapters of national professional societies such as American Society of Quality Control (ASQC) and American Production and Inventory Control Society (APICS). The Production Technology Center is located in the Technology Center on the Gorham campus. If you wish to learn more about the services provided, please stop by or call 780-5439.

Office of Public Service

The Office of Public Service is responsible for the development, coordination, and support of noncredit programming at USM. Among the units within the Division offering programs during the 1993 Summer Session are the Department of Conferences, the Department of Continuing Education for Nursing and Health Professions, the Department of Community Programs, the Department of Continuing Education for Business, and Lifeline.

Community Programs

The Department of Community Programs offers a wide variety of noncredit programs designed for adults who want to develop their minds, find new careers, add meaning to their lives, or just have fun. Late spring and summer 1993 programs include Advanced Facilitation and Advanced Mediation Skills and a variety of special events such as An Evening with Dr. Ruth and a trip to Mexico offering Spanish instruction. We also offer computer classes for computer users of all experience levels—from novice to professional. Call us if you would like help in selecting a class.

The Department of Community Programs is located at 68 High Street. Drop by and we'll be happy to answer your questions about upcoming courses, or call 780-5900.

Lifeline

The USM Lifeline Center for Fitness, Recreation and Rehabilitation has a primary mission to help individuals and organizations in southern Maine adopt health-enhancing lifestyles by providing services in exercise, rehabilitation, education, recreation, and employee wellness. Lifeline has been serving the greater Portland community since 1976. Activities are offered throughout the year for men and women, ages 14-80. They range from Walk/Jog/Aerobics to Cardiac Rehabilitation to Volleyball.

Classes are open to USM faculty, staff, and students and the general public. Application to all programs should be made in advance. For further information, call the Lifeline Customer Service Center, Monday through Friday, 8:00 a.m.-5:00 p.m. at 780-4170.

Continuing Education for Nursing and Health Professions

The Department of Continuing Education for Nursing and Health Professions provides continuing education offerings for health professionals such as nurses, pharmacists, physical therapists, occupational therapists, dieticians, respiratory therapists, and others at locations throughout Maine. Programs are offered in a variety of formats, including workshops, seminars, and evening courses. For more information, call 780-5950.

Department of Conferences

The Department of Conferences provides planning and coordination to University and community groups who wish to use the University's conference facilities and services. The Department occasionally provides workshops and seminars which bring together qualified individuals to share new information and ideas, upgrade professional skills, or impart new techniques. The Department's conference planning and management services are extended to professional and trade associations, government agencies, private business and community groups and organizations. Programs can be conducted on either campus, or off-campus wherever an appropriate meeting site can be arranged.

Each summer the Department of Conferences offers a number of camps for junior and senior high school age students. Offerings for the summer include USM Soccer School, SWISH and RISE Basketball Camps, STIX Field Hockey Camp, and Fundamental Baseball Camp. For information about these and other conference services at USM, please call 780-5960.

Department of Continuing Education for Business

The Department of Continuing Education for Business (CEEB) offers a wide variety of noncredit courses and seminars designed to meet the training needs of companies and nonprofit organizations in southern Maine. The programs include: Integrated Management, Certificate in Management, Certificate in Human Resource Management, Certificate in Supervision, and Certificate in Office Management. CEEB programs and services are available for on-site delivery to meet specific needs of organizations. For additional information and printed materials, contact the Department at 68 High Street, Portland, ME 04101, or call 780-5910.

Registration Begins April 5, 1993.

**Course Descriptions**

**College of Arts and Sciences**

**Art**

AED 412 Exceptionality—Art Educators
This course examines characteristics of exceptional learners, strategies for teaching these students in the art classroom, and services available to them in the school and community. The focus will be on lesson planning, learning teaching styles and strategies, and classroom management for mainstreaming in the art classroom. Cr 3.

ARH 111G Art History: Prehistoric to Medieval
Examination and discussion of the painting, sculpture and architecture from prehistoric cultures through the Middle Ages. The course emphasizes the relationship of the visual arts to social, political, religious and cultural trends, and introduces students to various methods of art historical interpretation. Cr 3.

ARH 112G Art History: Renaissance to Modern
A continuation of ARH 111G from the Renaissance through the 20th century. In both semesters of the course, examples of architecture and sculpture, paintings, etc. are used as the basis of inquiry. Cr 3.

ART 101G Approaches to Art
Selected experiences using original works, lecture, panel discussions, slides, films, and other media is as the basis of the course, and students in the course, will be involved in their perception of visual form. Cr 3.

ART 141F Fundamental Design I (2-D)
A studio introduction to the basic elements of two-dimensional and color relationships. Cr 3.

ART 151F Fundamental Drawing I
A studio introduction to drawing, including the basic elements of line, tone, design, and representation. Cr 3.

ART 231 Ceramics
An introduction to methods and processes of clay forming, including modeling, pressing, hand-building, and the potter’s wheel. Emphasis on form and texture, with aspects of glaze composition and firing procedures. Prerequisite: Art Core course Cr 3.

ART 259 Landscape Drawing
This course will concentrate on drawing the landscape at Wolfe Neck Farm. Each day, problems will be assigned which focus attention on fundamental aspects of the following: pictorial form and design; analysis of landscape structures and a study of light, atmosphere and the creating of space. Students planning to pursue a degree in art must take the Art Core prior to registering for this course. Cr 3.

ART 269 Landscape Painting
An investigation of the painting process as related to visual perception of the natural environment. This course will take place outside at Wolfe Neck Farm. Students planning to pursue a degree in art must take the Art Core prior to registering for this course. Cr 3.

ART 271 Photography
This course explores photography as a creative medium and introduces the student to basic skills in the use of the camera and darkroom equipment. It investigates and practices the fundamental techniques and processes of black and white photography as an art form. Prerequisite: art core courses. Cr 3.

ART 299 Visual Graphics
This studio class will allow students to use materials and techniques with which they are already familiar in combination with the tools and techniques of graphic design. Prerequisite: drawing. Students will draw upon Renaissance, modernist, and contemporary traditions in typography and page design. Together we will experiment with how type and image work together: how designers use images in their work, and how artists use the tools of graphic design. Instruction will take place in the classroom, the studio and in a Macintosh computer lab. Prerequisite: Art Core courses or permission of instructor. Cr 3.

ART 299 2-D, 3-D Figure Study
A studio course of figure study including drawing, modeling, renderings in artistic anatomy; supplemented by historical study of figurative art. Cr 3.

ART 363 Painting/Watercolor
Watercolor, wash, dry-brush, ink and wash, gouache, and other techniques in water media. Emphasis on individual concepts and personal expression. Prerequisite: ART 261. Students planning to pursue a degree in art must take the Art Core prior to registering for this course. Cr 3.

ART 399 The Photographic Essay
This course will investigate the “storytelling” nature of photographs. Various modes or languages of communication—narrative, sequential, and serial—will be explored. Students will investigate the relationship of the photo image to caption and text. Historical references will be discussed. Group field trips will lead into individual projects. Prerequisites: Art 271 Photography or a 3-credit beginning level photography course. A working knowledge of camera use (35 mm) and black & white darkroom processes is required. Cr 3.

**Arts and Sciences**

ARS 123 Topics of Human Sexuality
The purpose of this course is to provide individuals with a thorough understanding and accurate information concerning their sexuality. The course will show the subtle complex interrelationship among sociology, biology, philosophy, psychology, theology, behavior, and interpersonal relationships as they pertain to sexuality. Topics to be discussed include sexual growth and development, sexual attitudes, sexual anatomy and physiology, male and female, human sexual response cycle, sexual attraction, love and relationships, contraception, homosexuality and bisexuality, alternative forms of sexual behavior, sexual fantasies, sexual dysfunctions and problems, and sexual history and research. Cr 3.

**Biology**

BIO 101K Biological Foundations
An introduction to the areas of current biological interest: molecular and cellular biology; genetics and development, and evolution and population biology. Intended primarily for students selecting a laboratory science to satisfy the core curriculum or for those students not intending to take other courses in the Biological Sciences. This course cannot be used as a prerequisite for other biology courses. Cr 3.

BIO 102K Biological Experiences
Laboratory studies to complement and illustrate the concepts presented in BIO 101K and BIO 101K. Prerequisite: BIO 101K or BIO 101K. Cr 1.

BIO 105K Biological Principles I
An introduction to scientific principles underlying the unity and diversity of life. Prerequisite: students must have fulfilled the University minimum proficiency requirements in writing and mathematics. Cr 3.

BIO 106K Laboratory Biology I
Laboratory experiences illustrating concepts and principles introduced in BIO 105K. Must be taken concurrently with BIO 105K. Cr 1.5

BIO 111 Human Anatomy and Physiology I
The course starts with the study of cell chemistry, structure and function. Students will be introduced to the principles of genetics, reproduction, growth and development and to the study of the integumentary and skeletal system. Prerequisite: satisfactory completion of minimum proficiency requirements. Cr 3.

BIO 211 Human Anatomy and Physiology II
This course focuses on many of the organ systems in the human body: The structure and function of the muscular, nervous, endocrine, cardiovascular, respiratory, digestive and urinary systems will be discussed. Prerequisite: grade of C or higher in BIO 105K. Cr 3.

BIO 212 Practical Human Anatomy and Physiology
Laboratory studies of the structure and functions of the human body, including histology and physiology experiments. Not open to those who have completed BIO 205. Prerequisite: grade of C or higher in BIO 106K, BIO 211 or concurrently. Cr 1.5.

BIO 281 Microbiology and Human Disease
Fundamentals of microbiology with emphasis on infectious diseases of people, including bacteria, rickettsia, fungi, viruses, protozoa and helminths. Prerequisites: grade of C or higher in BIO 106K, and college chemistry. Cr 3.

BIO 282 Microbiology and Human Disease Laboratory
Laboratory techniques in the cultivation, identification, and control of micro-organisms. Prerequisites: BIO 281 or concurrently. Cr 2.

BIO 291 Ornithology
This course studies the biology of birds of their life histories, migration, ecology, and economic importance, with emphasis on species found in Eastern North America. Numerous field trips to a variety of habitats will be taken for purposes of field identification. Students are responsible for their own appropriate outdoor clothing, footwear and binoculars. Prerequisite: a grade of C or better in BIO 107 and BIO 108, or permission of instructor. Cr 4.5

(Notes: This course is listed as BIO 291; BIO 292 in the schedule. After the schedule went to press, there was insufficient enrollment for one 4.5 credit course, BIO 291 (en # 277)).

BIO 345 Pathophysiology
A study of the physiological, genetic, biochemical and environmental basis of infectious diseases. Prerequisite: grade of C or higher in BIO 211 or permission of instructor. Cr 3.
Chemistry

CHY 101K Introduction to Chemistry
General topics in chemistry including introductory units on matter and its properties; measurement; elements and compounds; atomic structure; solutions, dispersions, and water; osmotic processes. Prerequisite: high school algebra and one year of high school chemistry (taken during the past five years) or a satisfactory grade level on the proficiency test administered by the Department. Not appropriate for science majors, pre-med, pre-vet or pre-dentistry. It will be available at Lewiston-Auburn College.

CHY 103 Introduction to Organic and Biochemistry
Stress will be placed upon topics of special importance for students of the health sciences: nomenclature of organic compounds; electron distribution in organic molecules; structural features of organic molecules; substitution, elimination, addition, and redox reactions; reaction mechanisms; oxidation reduction reactions; carbohydrates; lipids; proteins and amino acids; enzymes; nucleic acids; metabolism; some aspects of nutrition; pharmacological and medical applications of radiochemistry. Concurrent with CHY 101. Prerequisite: grade of C or better in CHY 101. Not appropriate for science majors, pre-med, pre-vet, or pre-dentistry.

CHY 104 Introductory Organic and Biochemistry Laboratory
Students will perform experiments to illustrate aspects of organic chemistry of importance to living systems, as well as general principles of biochemistry. Topics include separation and identification of organic compounds; qualitative reactions of lipids, proteins, and nucleic acids; introduction to enzyme chemistry. Corequisite: CHY 104. Not appropriate for chemistry or biology majors.

CHY 115 Principles of Chemistry II
A presentation of topics of chemistry additional to those presented in CHY 114. This course is designed to provide a solid foundation for all further studies in chemistry and is a prerequisite for all upper-level chemistry courses. Prerequisite: grade of C or better in CHY 114. Corequisite: CHY 115.

CHY 116 Lab Techniques II
Laboratory exercises to illustrate the principles presented in CHY 115 lectures. Prerequisite: grade of C or better in CHY 114. Corequisite: CHY 115.

Communication

COM 102J Introduction to Communication
This course is designed to provide students with a conceptual framework of the basic elements of human communication. Students will examine different levels of communication analysis, learn to chart and analyze communication behavior, and discuss the effects of communication on themselves and others. Topics discussed will include communication theory; self-concept, interpersonal communication, nonverbal behavior, small group interaction, and mass communication. Students will be encouraged to adopt communication principles to their various fields of endeavor.

COM 280 Mass Media and Human Interaction
Mass Media and Human Interaction concentrates on the history and effects of mass communication in our society. Through readings and independent research, the student will explore the content and social consequences of our rapidly changing telecommunication technology. Media to be discussed include print, broadcasting, and cable. Prerequisite: COM 102J.

COM 284 Introduction to Film
This course seeks to introduce the student to the aesthetics of film. It assumes that the student has no knowledge of cinema beyond the movie-going experience. The aim of the course is to survey the fundamental aspects of cinema as an art form and communication vehicle. The power of moving images and their mass-mediated messages will be analyzed. Prerequisite: COM 102J.

COM 330 Interpersonal Communication Theories
A study of the current thinking in interpersonal communication with emphasis upon specific theories of human interaction. Students will engage in behavioral observations, experiential learning activities, group research projects, individual study, and will complete a final project on a selected topic in interpersonal communication. Prerequisite: COM 102J. Restricted to majors only, or permission of the instructor.

COM 374 Television Criticism and Aesthetics
The purpose of this course is to introduce students to the variety of critical approaches applied to the analysis of television content. The course investigates issues in popular culture and mass culture. In addition, the readings review traditional and contemporary television criticism. The final part of the course will provide a critical context for viewing the television medium within the framework of video culture. Prerequisite: COM 102J.

COM 390 Group and Organizational Communication
The purpose of this course is to provide students with knowledge about group and organizational communication. Specific topics such as leadership, conflict resolution, decision making, role behavior, and motivation will be covered in the course. Students will conduct research projects, participate in group activities, and write papers integrating theory with observed behavior. The effects of culture, gender, and politics on group and organizational communication will also be discussed. Prerequisite: COM 300 Research Methods in Communication.

COM 399 Theories of Popular Music
Popular music is a ubiquitous, multidiscursive cultural form that has, until fairly recently, escaped serious scholarly attention. This course is designed to introduce the student to the various theories and approaches that have been applied to the study of popular music. We will explore advanced communication theories such as semiotics, psychoanalysis, phenomenology; Marxist cultural theory; and feminist theory. We will also enter the postmodern debates through the window of music videos. Prerequisite: COM 102J or permission of instructor.

COM 399 Communication and AIDS
While AIDS continues to dominate research agendas in the medical community, the academic world has also responded to this worldwide crisis. The purpose of this course is to provide students with information on how the communication field has examined the AIDS epidemic. Included in the class discussions will be the rhetoric of AIDS, the media's response to AIDS, humor and condom usage, persuasion and safer sex, sex talk between and among the sexes, relationship termination and AIDS, and communication within hospice settings. The course will combine communication theory with strategies used by researchers and practitioners. Prerequisite: COM 102J or permission of instructor.

COM 484 Women in Film
The specific topic explored during this course will be women in film. Films will be analyzed in the context of the political and ideological subjects they contain. The purpose of the analysis or criticism is to understand a film and to be able to relate it to the society which reflects and sometimes affects.

COM 485 Sex-Related Differences in Communication
This seminar on sex-related differences in communication is designed primarily to evaluate critically the research literature. It is concerned with whether or not males and females differ in their actions of sending, receiving, and interpreting messages. The course examines gender-role stereotyping, empirical findings on sex differences, critiques of some major theoretical positions are discussed (e.g. sex differences in dominance, aggression, cognition, and brain organization). Prerequisite: junior or senior standing and COM 102J.
This course is an intensive course for the intermediate student, covering a full year's work at the college level. Emphasis is placed upon the four skills of language learning: speaking, understanding, reading, and writing. Daily lab work is required.

Cr. 6 (With lab, Cr. 8.)

GER 107I Intensive Beginning German
An intensive course for the beginning student, covering a full year's work at the college level. Emphasis is placed upon the four skills of language learning: speaking, understanding, reading, and writing. Daily lab work is required.

Cr. 6 (With lab, Cr. 8.)

RUS 299 Intensive Intermediate Russian
An intensive course for the intermediate student covering a full year's work at the second year level. Emphasis is placed upon the four skills of language learning: speaking, understanding, reading, and writing. Daily lab work is required.

Cr. 6 (With lab, Cr. 8.)

SPA 107I Intensive Beginning Spanish
An intensive course for the beginning student, covering a full year's work at the college level. Emphasis is placed upon the four skills of language learning: speaking, understanding, reading, and writing. Daily lab work is required.

Cr. 6 (With lab, Cr. 8.)

SPA 207I Intensive Intermediate Spanish
An intensive course for the intermediate student, covering a full year's work at the college level. Emphasis is placed upon the four skills of language learning: speaking, understanding, reading, and writing. Daily lab work is required.

Cr. 6 (With lab, Cr. 8.)

SPA 399 Readings in Spanish
A varied literary and cultural readings, providing a bridge from the intermediate level to literature and other advanced content courses in Spanish. Discussions, written exercises and examinations in Spanish. Prerequisite: Spanish 202 (or equivalent) or permission of the instructor.

Cr. 3.

GEO 109 International Geography
This course will blend the event of global events and the student's desire to be knowledgeable of geographic locations and influences. Up-to-date insights and assessments of regions and countries will be examined by selective reading, maps, video, lecture and class discussion. Prerequisite: English 399 or permission of the instructor.

Cr. 3.

GEO 299 Physical and Cultural Geography of Russia
The focus of this course is a practical introduction to the physical and cultural landscapes of the Russian Heartland, Siberia, and the post-Soviet Far East. An in-depth look at several contemporary debates on human/natural resources, environmental problems, business cultures, and futures for Russia will be analyzed through lectures, video clips and class discussion. Class includes a hands-on research project and up-to-date readings on Russian geographic and cultural changes.

Cr. 3.

GEO 300 Archaeology Field School—Casco Bay
See Special Programs section of this catalog.

GEO 300 Ecological and Archaeology Field School—West Indies
See Special Programs section of this catalog.

Geosciences
GEY 111K Physical Geology
A study of the ever-changing earth by wind, water, volcanic, seismic and glaciation. GEY 111K may be taken without GEY 112K.

Cr. 3.

GEY 112K Physical Geology Lab
Identification of common rocks and minerals, introduction to topographic maps, and development of the processes covered in lecture, field trips when weather permits. To be taken concurrently with GEY 111K.

Cr. 1.

GEY 299 Field Studies in Environmental Geology
See Special Programs section of this catalog.

OCE 100K Introduction to Oceanography
Origin and extent of the oceans, nature of the sea bottom, causes and effects of currents and tides, chemical and physical properties of seawater, animal and plant life in the sea.

Cr. 3.

OCE 101K Oceanography Laboratory
A laboratory course in which the student is introduced to some of the techniques and technical processes involved in oceanic measurements and data reduction. prerequisite: OCE 100K which may be taken concurrently.

Cr. 1.

History
HTY 101I Western Civilization I
A basic survey and introduction to the heritage of Western man from ancient times to the present. Particular attention is given to the civilizations of Egypt, Greece, and Rome. Medieval civilization is explored with a focus on the institutions of the Middle Ages and the Renaissance and Reformation and the rise of the great nation-states are studied. Throughout the course important individuals are considered such as ALEXANDER THE GREAT, CAESAR, CHARLEMAGNE, MICHAELANGELO, and ELIZABETH I. The course also introduces students to historical method.

Cr. 3.

HTY 102I Western Civilization II
A basic survey and introduction to the heritage of Western man from early times to the atomic age. Particular attention is given to the Renaissance, the French Revolution, the rise of the industrial era, the growth of nationalism, and the World Wars. Personalities such as those of Napoleonic, Hitler, and Stalin are studied. The course also introduces students to historical method.

Cr. 3.

HTY 131I United States History to 1877
A basic survey and introduction to the field of American history, covering the political, social, and economic development of the United States through Reconstruction.

Cr. 3.

HTY 132I United States History since 1877
The course is a continuation of HTY 131I. A survey of American political, social, and economic development since about 1877.

Cr. 3.

HTY 162I Introduction to African History
A survey of the colonial era, the transformation of African societies, the rise of nationalist movements, wars of liberation, and early years of the new era of independence.

Cr. 3.

HTY 300 History Internship
Professional experience in one of a variety of positions in public and private institutions that utilizes the knowledge and research skills of history majors. Students work one day per week, keep a journal, write an evaluation, and are visited on the job by a faculty member. Open to selected students; see department chair for details. Graded pass/fail, does not count for major credit. Can be taken twice.

Cr. 3.

HTY 316 French Revolution and Napoleon
The course takes the French Revolution as a climax of a new intellectual, political, and social trends in eighteenth-century Europe. Thorough coverage is given to the Old Regime, the Enlightenment and the influence of the American Revolution. There is in-depth analysis of the conflicts and the outbreak of the French revolution itself, and its impact outside France. The Napoleonic era is handled as the culminating phase of the revolution and at any influence on nineteenth-century Europe. Prerequisite: HTY 102I or permission.

Cr. 3.

HTY 360 History of Maine
A survey of Maine's social, economic, and political life from exploration and early settlement to the present.

Cr. 3.

HTY 364 History of Women in the United States
A chronological survey of the evolving role of women in the development of the United States from the Colonial Period to the present.

Cr. 3.

HTY 394 Judaism, Christianity, and Islam: Origins and Interaction
This course is designed to provide a survey of the origins and early developments of the three religions. This course will also note some of the legal and historical coincidental relationships which existed among the three. At the same time, the course also includes the study of the three religions as social and cultural phenomena which are common to all three. Students who have taken a course in Jewish, Christian, or Islamic history may take this course as an elective.

Cr. 3.
HTY 399 The Vietnam War
An examination of the military events of the Vietnam conflict as well as the political, social, and cultural contexts in both the U.S. and Vietnam. No prerequisites. Cr 3.

HTY 399 Sport in American Culture
This course concentrates on the emergence of sport as a significant institution in American culture. How it emerged, why it emerged, how it has been appropriated by various individuals and groups to define cultural identities, and the political and economic control of sports will be central concerns of the course. The course will explore the relationships between social class, culture, leisure, and sport in the preindustrial and industrial world of the eighteenth and nineteenth centuries. Our analysis of sport in the twentieth century will focus on the association between sport nationalism, gender, race, and the media—particularly the influence of Hollywood. Cr 3.

HTY 434/534 Maine History and Travel
This course provides an opportunity to pursue independent study in Maine history (especially southern Maine) since 1820. There will be discussions, oral reports and field trips to a variety of sites located in easy range of USM. Cr 3.

Linguistics
LIN 112E Analyzing Language
In this course, students will become aware of their tacit knowledge of the rules and principles that guide language usage. They will learn how to formulate these rules and how to test and evaluate claims about the form that the rules take. Students will thereby develop skills in analysis and argumentation that are applicable in many areas of study. The course will concentrate on the analysis of sentence structure, but will also deal with the sound system, word structure, meaning, and language acquisition. Cr 3.

LIN 201J Child Language
An introductory overview of the phenomena of communication and language development. The course deals with the process by which children become able to understand, to speak, and to use effectively their native language. It touches on the development of the sound system, word learning, the emergence of sentence structure, and the development of communicative competence. Cr 3.

Mathematics
Note: Credits earned for MAT 010 and MAT 011B will not count towards fulfilling a baccalaureate degree.

MAT 010 Elementary Algebra
The first course of a two-course sequence designed for students who are deficient in high school algebra. Topics include: basic operations with integers and rational numbers; equations with variables; algebra word problems; operations with polynomials and algebraic fractions (including factoring), and operations with exponential and radical expressions. Prerequisite: MAT 009 or its equivalent. Associate degree credit only. Cr 3.

MAT 011B Intermediate Algebra
A continuation of MAT 010. Topics include: graphing linear equations in two variables; quadratic equations; graphs of functions and relations; conic sections; solutions to systems of equations; solutions for inequalities; and exponential and logarithmic functions. Prerequisite: one year of high school algebra or MAT 010. Associate degree credit only. Cr 3.

MAT 100D College Algebra
The real number system, algebraic operations, sets, equations, inequalities and their graphs, functions and relations, quadratic functions, exponential and logarithmic functions, systems of equations, permutations, combinations, probability, sequences and series, matrices and determinants, and mathematical induction. Prerequisite: two years high school algebra. Cr 3.

MAT 105D Mathematics for Quantitative Decision Making
This course is designed to give students not majoring in mathematics or related fields an understanding of some key ideas in quantitative decision making. The material is chosen to develop awareness of the utility of mathematics in life and to instill an appreciation of the scope and nature of its decision-making potential. The computer packaged programs may be used as tools to assist the students in performing calculations necessary for the decision-making process. Prerequisite: successful completion of the University's Mathematics Proficiency. Cr 3.

MAT 110D Business Calculus
A unified treatment of the elementary functions of analysis; their analytical properties including derivatives, integrals, and series; introduction to multivariate calculus; applications. Prerequisites: successful completion of the University's Mathematics Proficiency and a passing grade on an algebra competence test which will be administered at the first class meeting. Cr 3.

MAT 120D Introduction to Statistics
An introductory course including basic probability, random variables, and their distributions; estimation and hypothesis testing; regression and correlation. Prerequisite: successful completion of the University's Mathematics Proficiency. Cr 3.

MAT 140D Pre-Calculus Mathematics
A brief review of elementary algebra followed by a study of the algebraic, exponential, logarithmic, and trigonometric functions. Prerequisite: successful completion of the University's Mathematics Proficiency, and a passing grade on an algebra competency test which will be administered at the first class meeting. Cr 3.

MAT 152D Calculus A
This is the first of a sequence of three basic calculus courses covering functions of one or more variables, graphs, limits, derivatives, integrals, optimization, infinite series, vectors, and various applications. Calculus A provides an introduction to the differential and integral calculus of functions of one variable. Prerequisites: two years of high school algebra plus geometry and trigonometry, or MAT 140D. Cr 4.

MAT 153 Calculus B
A continuation of Calculus A. Calculus B will usually include infinite series and an introduction to vectors. Prerequisite: MAT 152D. Cr 4.

MAT 211 Probability
Common probability laws and distributions of discrete and continuous random variables, mean, variance, and operations and applications in probability. Prerequisite: MAT 100D or MAT 152D. Cr 3.

MAT 212 Statistics
Sampling distributions; estimation; hypothesis testing; introduction to regression analysis and analysis of variance. Applications primarily in business and economics. Prerequisite: MAT 211. Cr 3.

MAT 252 Calculus C
Multivariable calculus and vector calculus. Prerequisite: MAT 153. Cr 4.

MAT 381 Introduction to Probability and Statistics
Basic concepts of probability theory with an introduction to its statistical applications. Particular topics will include discrete and continuous distributions, moment generating functions, characteristic functions, limit theorems, sampling distributions, basic elements of estimation and hypothesis testing and simple linear regression. Prerequisite: MAT 153. Cr 4.

MME 514 Laboratory: Project ASPIRE Calculus II
This is a supervised practicum designed to prepare academically qualified, experienced high school faculty to teach sections of introductory calculus offered by the Department of Mathematics and Statistics at USM. Prerequisite: MME 513, must be taken concurrently with MME 520. Cr 3.

MME 520 The Teaching of Calculus in Secondary Schools II
This is a review of basic calculus and will include functions of one or more variables, graphs, limits, derivatives, integrals, applications of derivatives and integrals, optimizations, infinite series, and analytic geometry in the plane. Prerequisite: An undergraduate degree in mathematics teaching experience, and recommendation of the high school principal and the department chairperson. Students must apply directly to the course for acceptance to the course. Cr 3.

Music
MUS 599 Kodaly Workshop
See Special Programs section of this catalog.

MUS 100G Music Appreciation and History
A survey of music from the Gregorian chant to modern times, covering musical practices of the renaissance, baroque, classical, romantic, and contemporary periods. Representative works by the outstanding composers of each period. Cr 3.

MUS 103G Introduction to Jazz
A survey of jazz from its inception to the present day. Involves a study of the origins and stylistic development of jazz. Cr 3.

MUS 110F Fundamentals of Music
A background study of concepts and skills essential to an intelligent reading of music. The development of music and music abilities through participating in singing, rhythmic activities, and instrumental work. An appreciation of music through awareness of basic structures. Cr 3.

New England Studies
Note: All students who have not been accepted into the New England Studies Program must have written permission from the director before taking any New England Studies course.

NES 644 Twentieth-Century New England Politics
This course examines the politics of New England since 1900, with emphasis on conflicts among the distinct subcultures (White Anglo Saxon Protestant, European American, and African American) which have given the region its particular flavor. Special attention will be given to two dramatic political events—the Saucier-Vanetti case and the Boston busing controversy—in which these conflicts played a significant role. Cr 3.

Philosophy
PHI 106E Introduction to Philosophy: Why Philosophize?
The course centers about the exploration of a single question: what it means to think philosophically. In the context of this question, we will examine what are the sources of philosophical thought and whether philosophy can justify its claim to be the foundation of all reflective endeavor. Cr 3.
PHI 109E Law, Politics and Society
This course examines the traditional political questions which face every society: who should rule? What approach should the rules be? Why should the rules be obeyed? The approach is largely historical. One classical work, Plato's Republic, is read nearly in its entirety. The relevance of enduring answers to these questions to contemporary social issues is also stressed. Prerequisites: ENG 150C or concurrent. Cr 3.

PHI 199E Wisdom: An Introduction to Philosophy
This course will return to the etymological and historical roots of philosophy in order to introduce the student to the subject. "Philosophy" originally meant in ancient Greek "love (philia) of wisdom (sophia)." We will read, philosophically, some of the major wisdom texts of the (prescientific and posmodern) periods, beginning with texts like Buddha's "Fire Sermon," Lao Tzu's "Tao Te Ching" and Aesop's Fables, and ending with the works of Marcus Aurelius. Throughout, the purpose of the course is to understand what is wisdom, its causes and aims. To do so, if the etymology is right, is to be introduced to philosophy. Cr 3.

Physics

AST 100K Astronomy
A descriptive survey of modern astronomy. Topics include theories of the origin and development of the universe, stellar evolution, the solar system, galaxies, observational methods and recent discoveries. Optional evening observations with telescopes are included. No prerequisite. Cr 3.

AST 103K Activities and Experiments
May be taken concurrently with AST 100K to fulfill requirements for a science laboratory experience. Includes exercises on the Moon's orbit, Earth's orbital motion, rotation of Saturn's rings, the Sun, the Crab Nebula, variable stars, pulsars, Hubble's law, and galaxies. Two planetarium sessions. Prerequisite: AST 100K. Cr 1.

PHY 11K Elements of Physics I
This course is an introduction to the fundamental concepts of mechanics, sound and heat, light, electricity, magnetism, optics, and modern physics. Prerequisite: PHY 11K or equivalent. Cr 4.

PHY 112 Elements of Physics II
A continuation of PHY 11K introducing the concepts of electricity, magnetism, optics, and modern physics. Prerequisite: PHY 11K or equivalent. Cr 4.

PHY 123 General Physics II
A continuation of PHY 12K, introducing the concepts of electricity, magnetism, optics and light, and quantum mechanics. This course is intended for students who plan further study in physical sciences, mathematics, or engineering. It should be taken with PHY 124. Prerequisites: PHY 12K or equivalent and one semester of calculus. Cr 4.

Political Science

POS 101J Introduction to American Government
This course focuses on the political institutions, processes, behavior, and problems of government in the United States. The national government is emphasized. Key topics include the Constitution, Supreme Court, Congress, Presidency, political parties, public opinion, and interest groups. Cr 5.

POS 102J People and Politics
This course introduces the student to modern political analysis. It centers on major questions in the study of public behavior: how people think about politics, what kind of political system they adopt and support, why some individuals do not participate in politics, how political conflict is expressed and resolved in various societies. The course aims at familiarizing the student with major approaches or methods that political scientists have found helpful for understanding real public behavior. Note: POS 101J is a prerequisite for POS 102J. Cr 5.

POS 120 Government and Politics of Maine
This course concentrates on Maine State Government, including legislative, executive, and judicial programs and power as exercised within the system of Maine values, political parties, and interest groups. Open to public science majors and as an interest of students who have an interest in the programs and politics of the state of Maine. No prerequisite. Cr 5.

POS 499 Twentieth-Century New England Politics
This course examines the politics of New England since 1900, with emphasis on conflicts among the subcultures (White Anglo-Saxon Protestant, European American, and Afro-American) which make up the region, and the particular politics of New England. Special attention will be given to two dramatic political events--the Sacco and Vanzetti case and the Boston busing controversy--in which these conflicts played a significant role. Cr 3.

Psychology

PSY 101J General Psychology I
This course is an introduction to the study of behavior as a natural science. Among the topics covered are methods of inquiry, physiological foundations of behavior, sensation and perception, motivation and emotion, learning, and thinking. This course is a prerequisite for all courses in the department. Cr 5.

PSY 102 General Psychology II
A continuation of Psychology 101J, it deals with complex psychological processes such as ability testing, personality, memory, learning, problem solving, personality, and therapy, and social and industrial behavior. Prerequisite: PSY 101J. Cr 3.

PSY 311 Industrial Psychology
Critical treatment of research methods in personnel selection and evaluation and current theories of individual behavior in complex organizations such as government and business. Prerequisites: PSY 101J and 102. Cr 3.

PSY 330 Social Psychology
The psychological principles that enter into the social behavior of the individual. Areas of consideration include perception, communication, attitude formation, interpersonal attraction, and group behavior. Prerequisites: PSY 101J and 102. Cr 3.

PSY 333 Psychopathology
The etiology, development, and manifestation of the major forms of mental illness with particular emphasis upon the neuroses and psychoses are discussed. Psychological, social, and biological factors which contribute to the development of mental health are examined. Prerequisite: PSY 101J and 102. Cr 3.

PSY 361 Sensation and Perception
This course examines perceptual processes in selected sensory systems. Emphasis is on experimental methodology, research findings, and theoretical interpretations. Prerequisites: PSY 201D and 205. Cr 3.

PSY 365 Physiological Psychology
Basic neuroanatomy, neurophysiology, and endocrinology, and the relationship between nervous system functioning and behavior. Prerequisites: PSY 101J and 102. Cr 3.

Social Work

SWO 388 Substance Abuse and Alcohol and Other Drugs
Examines the use and abuse of psychoactive substances: street drugs, prescription drugs, alcohol, caffeine and nicotine. Consideration of the history, pharmacology, and physical and psychological effects of substances. Exploration of prevention and treatment models, with special reference to those used in local practice. Prerequisite: junior standing or permission of instructor. Cr 3.

Sociology/Criminology

CRM/SOC 215J Criminology
This course provides an overview of the crime problem and its relationship to society and the social system. The course examines the causes of crime and delinquency, the effects of crime and delinquency on society, and the functions of the criminal justice system. Prerequisite: CRM/SOC 215J. Cr 3.

CRM/SOC 317 Gender and Crime
This course provides a feminist analysis of gender as related to the criminal process, focusing on both males and females. The course focuses on gender and inequality, the gender bias of criminal thought, and the role gender plays in various forms of criminal victimization. Prerequisite: one 200-level SOC course or permission of instructor. Cr 3.

SOC 100J Introduction to Sociology
This course presents an introduction to sociological concepts, principles, and methods of sociology. It involves the influence of social and cultural factors upon human behavior; evaluates the effectiveness of social processes and social changes; and examines the relationship between social change and the social system. Prerequisite: one 200-level SOC course or permission of instructor. Cr 3.

SOC 337 Juvenile Justice
Examination and analysis of juvenile justice processes, focusing on both the juvenile court system and the justice system, and with an emphasis on historical and comparative materials. Prerequisite: one 200-level SOC course or permission of instructor. Cr 3.
SOC 358 Sociology of Women’s Work
This course will introduce the student to the most recent theoretical empirical research on women’s work in the family and in the paid labor force. Sociological definitions of work, theories of discrimination, and the role of ideology will be examined. Students will evaluate theatre as a way forming art through lecture, discussion, and performance of scenes. Improvisational exercises, relaxation techniques and character analysis strategies will be required. Students will also attend campus and area theatrical productions and be required to write critical reviews of the performances.

Theatre

THE 101G Introduction to Drama
This is a lecture-discussion course designed to provide students with a conception of the development of the theatre and its literature. The course consists of a survey of Greek, medieval, Elizabethan, French neo-classic, and 18th, 19th and 20th century theatre and drama.

THE 102F Acting: Performance
This course will introduce core students to theatre through the eyes of the performer. The student will gain a basic understanding of theatre as a performing art through lecture, discussion, and performance of scenes. Improvisational exercises, relaxation techniques and character analysis strategies will be required. Students will also attend campus and area theatrical productions and be required to write critical reviews of the performances.

SOCI 374 Mental Health and Mental Illness
An examination of theories of the “causes” of “madness” and the treatment of the mentally ill. Particular attention on the influence of culture on the definition of illnesses, the relationship between social factors and illness, and the social context of treatment. Prerequisite: one 200-level SOC course or permission of instructor.

SOC 327 Mental Health and Mental Illness
This course will introduce the student to the most recent theoretical empirical research on women’s work in the family and in the paid labor force. Sociological definitions of work, theories of discrimination, and the role of ideology will be examined. Students will evaluate theatre as a way forming art through lecture, discussion, and performance of scenes. Improvisational exercises, relaxation techniques and character analysis strategies will be required. Students will also attend campus and area theatrical productions and be required to write critical reviews of the performances.

ACC 202 Principles of Management Accounting
This course focuses on uses of accounting information to assist in managerial decision making. Emphasis is placed on fundamentals of cost accounting, inventory controls, cost-volume-profit analysis, capital and other budgeting, statement of cash flows, income tax considerations, and quantitative techniques. Prerequisites: computer proficiency or ABU 190 and ACC 201 and sophomore standing.

Undergraduate Business

BUS 280 Legal Environment of Business
This course introduces students to the legal system, consumer law, agency law, administrative law, antitrust law, labor law, equal employment law, environmental law, and other topics. It stresses the social responsibility of business and the legal and ethical framework in which businesses must function.

BUS 327 Investment Management
Provides the planning and management of investment programs for all types of investors. Evaluates the various media of investments in terms of their risks and profits. The functions of the stock market and its behavior are examined. Prerequisites: ACC 201, BUS 320, and junior standing.

BUS 340 Management
This is a comprehensive introductory survey of the problems encountered by managers and the practices they employ in planning, organizing, leading, and controlling organizations. The role of the general manager in business is explored, as is the behavior of other individuals and groups within business organizations. Among the various topics covered are: development of management as a discipline, motivation, power, leadership, strategic management, planning, organizational design, job design, information and control systems, and other areas related to the functions and process of management. Prerequisite: junior standing.

BUS 346 Personnel and Human Resource Management
An analysis of the issues involved in the professional practice of personnel and human resource management. Topics include human resource planning (strategy, job analysis and forecasting), staffing (recruitment and selection), performance appraisal, compensation and reward system design, training and development, employee rights and safety, labor-management relations, legal aspects of human resource management practice, and the international dimension of human resource management. Prerequisite: BUS 340.

BUS 450 Business Management and Policy
This course discusses administrative practice at the higher levels of business management through case analysis and discussion. The course attempts to coordinate the background of business majors in the formulation and administration of sound business policy. Prerequisites: BUS 320, BUS 340, BUS 360, BUS 371 and senior standing.

BUS 452 Organizational Behavior
An analysis of the interplay between individual and group behavior, leadership styles and the culture of an organization. The findings of behavior science are applied to such processes as motivation, influence, the structure of work, organizational design, leader-group relations and organizational change. Models, case studies, simulations, and applications. Prerequisites: BUS 340 and junior standing.

Graduate Business

MBA 610 Managerial Economics
A study of business decision making in the economic environment. Pricing and large-scale, long-term output decisions are approached via the specific demand and cost functions of a firm in the context of its competitive environment. Topics include mathematical optimization, applied multiple regression, time series analysis, economic theory of consumers and the firm, decision analysis, and game theory. Prerequisites: MBA 601 A & B, MBA 603, MBA 604, and computer application skills.

MBA 627 Investment Management
A systematic and in-depth treatment of security analysis and portfolio management. The security analysis segment develops E-I-C methodology augmented by determinist valuation models. A major empirical analysis is carried out in conjunction with the theoretical developments. The portfolio management segment develops Markowitz efficient sets and the subsequent developments as contained in Sharpe-Lintner-Mossin theory. Related readings in Fama Roberts market efficiency tests are assigned as needed. The empirical analysis component of this segment revolves around generating Markowitz efficient portfolios and measuring beta coefficients. Prerequisite: MBA 620.

MBA 645 International Business
A study of the business firm in the international environment using the model of the multinational firm. It focuses on the application of international trade and investment theory to the management operations of the multinational firm through the use of computer simulation, analytic case studies, and experimental exercises. Prerequisites: MBA 601 A & B, MBA 602 A & B.

MBA 651 Industrial Relations and Personnel Management
This course offers an applications-oriented overview of the fundamental issues involved in the practice of personnel and human resource management. Human resource productivity and quality of work life are the principal foci of this course. Topics covered include: human resource planning, staffing, performance appraisal, compensation and reward system design, training and development, employee rights, employee-management relations and the international dimension of personnel and human resource management. Prerequisite: MBA 642 or permission of instructor.
Associate Business

ABU 101 Principles of Economics I
A theoretical analysis of the basic characteristics, institution, and operational activities of a modern capitalist economy which is involved in the transformation of scarce economic resources to the goods and services demanded by consumers. Topics discussed include inflation, unemployment, government monetary and fiscal policy to achieve full employment, and economic growth. (Counts toward Core curriculum requirement in Social Science.) Cr 3.

ABU 111 Principles of Financial Accounting I
An introduction to the accounting cycle through financial statements. A practical emphasis of accounting methodology with coverage of cash accounts receivable, and inventory. Cr 3.

ABU 119 Written Business Communication (formerly ENG 019)
This course introduces students to business communication strategies and provides practice in the application of those strategies using the case method. Students will discuss and write business letters, short and long reports and employment writing. Cr 3.

ABU 220 Introduction to Business Finance
A study of the promotion, organization, and financing of the single proprietorship, partnership, and corporation. Topics such as fund flows, ratio analysis, breakeven analysis and leverage, time value of money, cost of capital, and capital budgeting are examined. Prerequisites: ABU 101, ABU 102, ABU 111, ABU 112, and MAT 011. Cr 3.

ABU 221 Principles of Real Estate
This is an overview of real estate fundamentals, including rights and interest in land, forms of ownership; contracts; mortgages; ethics; home construction components; elements of listing and selling, as well as other consumer and investor-related real estate issues. This course will also include the state and federal rules and regulations that apply to lending, law, and agency of the transfer of real property. Cr 3.

ABU 227 Introduction to Stocks and Bonds
This course provides the planning and management of investment programs for all types of investors. It evaluates the various media of investments in terms of their risks and profits. The functions of the stock market andits behavior are examined. Prerequisites: ABU 101, ABU 102, ABU 111, ABU 112, MAT 011B. Cr 3.

Economics

ECO 201 Principles of Economics I
This is a theoretical analysis of the basic characteristics, institutions, and activities of a modern capitalist economy. Topics discussed include inflation, unemployment, government monetary and fiscal policy, full employment, and economic growth. Cr 3.

ECO 202 Principles of Microeconomics
This is an introduction to the analysis of individual markets: the functioning of prices in a market economy, economic decision making by producers and consumers, and market structure. Topics discussed include consumer preferences and consumer behavior, production theory and production costs, the monopoly firm, and resource pricing. Additional topics are determined by individual instructors. Cr 3.

ECO 301 Money and Banking
This course examines the structure and operation of the financial system with major emphasis on commercial banks, their function in the economy, and the Federal Reserve System and analyzes the tools of policy; develops alternative monetary theories; and discusses major issues in monetary policy. Prerequisites: ECO 201, ECO 202, and Junior standing. Cr 3.

ECO 360 Economic Development
The theories and practices of interregional and international economic development. Special attention is given to development problems of emerging nations. Prerequisites: ECO 201J, and junior standing. Cr 3.

ECO 370 International Economics
Analysis of international markets and exchange theory; functioning of prices in the international economy; international finance; tariffs, quotas, and other instruments of international economic policy. Prerequisites: ECO 201J, ECO 202J, and junior standing. Cr 3.

College of Education

Professional Education—Undergraduate

EDU 200 Education in the United States
This course provides an introduction to the study of American education. Problems and issues in contemporary education are examined from several perspectives, including the social, historical, and philosophical. Cr 3.

EDU 210 Theoretical Foundations of Learning
An examination of theories of learning and their application to motivation, concept development, classroom management, methodology, and evaluation. Cr 3.

EDU 308 Science for Children
An alternative to EDU 307. This course is conducted in a University science resource center and provides opportunities for students to apply learning by exploring current science activities. Emphasis is on content analysis and comparison and on implementation in public classrooms. A field experience is included whenever possible. Recommended prerequisite: EDU 210. Cr 3.

EDU 335 Exceptional Students in the Classroom
This course shall serve as an introduction to the unique characteristics and needs of exceptional students in grades K-12. Legislation and its implications, roles and responsibilities of the regular classroom teacher, resources and characteristics of exceptional students shall be discussed. Cr 3.

EDU 336 Children’s Literature
A survey of children’s literature with special emphasis on the selection of appropriate books for children from preschool through the elementary school years. Cr 3.

EDU 358 Teaching Social Studies
The content of this course will focus on teaching strategies appropriate for social studies. Emphasis is on content analysis and curriculum development. Cr 3.

EDU 360 Microcomputer Applications in Education
This course is designed to orient the preservice teacher to the field of microcomputer applications and to give them a working knowledge of software and hardware, as related to American educational systems. Additionally, the course will deal with the use of electronic and electro-mechanical media as related to modern learning processes. Cr 3.

EDU 374 Physical Education for Elementary Teachers
A basic course for prospective teachers of physical education to develop skills and knowledge in the areas of health and physical education. Topics include teaching methods, classroom management, and preparation and evaluation in physical education. Cr 3.

EDU 380 Health and Physical Education for Elementary Teachers
A basic course for prospective teachers to develop knowledge and skills to teach physical education. Cr 3.

Professional Education—Graduate

EDU 510 Development of the Composition Process
This course in language arts emphasizes the development of writing proficiencies. Writing growth and its relationship to reading and oral language development is examined. A thorough study of current research and theory relating to the composition process leads to the development of instructional programs that will foster students’ growth as writers. Appropriate for elementary teachers; most secondary teachers can be accommodated. Cr 3.

EDU 511 Children’s Literature
Designed for teachers who wish to develop a deeper understanding of the literature written for children ages 4-12, and who want to become competent and creative catalysts in bringing children to books. Attention is given to standards of selection, curriculum implications, and methods of using books to individualize reading instruction. Students are expected to read widely in juvenile collections in order to establish a basis for the selection of appropriate literature. Cr 3.

EDU 514 Teaching Reading in Content Areas
This course explores techniques and processes that can be applied by content teachers to improve reading ability. Emphasis is on competencies that students use in content areas and strategies for teaching them how to apply them—a process of integrating the teaching of reading skills while teaching subject matter. The course has practical application for all classroom teachers in grades 4 through 12. Cr 3.

EDU 524 Supervised Practicum in Reading Disabilities
This clinical experience is given in conjunction with the Reading Clinic or the University Reading Academy. Under supervision, students use selected assessment instruments with children who have learning and reading difficulties. Testing sessions will be unique and geared to specific diagnostic needs perceived by the practicum. Cr 1-6.

EDU 529 Reading/Writing Workshop
Clinical experiences required the utilization of diagnostic and prescriptive methods for planning instructional strategies for students at different stages of reading progress. Tutoring experiences are augmented and related to the professional literature and research through frequent opportunities to explain and defend observations in seminars. Extensive reading from basic texts, current references, and periodicals are stressed. Emphasis is on the appropriate application of research-validated teaching and diagnostic techniques in supervised settings. Prerequisites: completion of core courses and instructor permission. Cr 6.

EDU 560 ESL Classroom Teaching Practices
This course will explore current methods and practices of English as a Second Language (ESL) at various age and proficiency levels with an examination of the underlying assumptions about language and language learning; the role of the teacher; the role of learners; the nature of learning experiences; and the role of instructional materials. Emphasis will be on developing a thoughtful approach to meaningful ESL classroom instruction. Cr 3.
EDU 561 Aspects of the English Language
This is a survey course examining the elements of English and their relevance in second language acquisition. The course will analyze the phonetic, morphological, syntactic, and semantic structure of English; the social aspects such as variation, change, and register; and the communicative aspects such as pragmatics, psycholinguistics, and acquisition. Application of these language aspects will be accomplished through problem solving and discussion activities integrating the aspects of English within the second language classroom context.

EDU 600 Research Methods and Techniques
This course studies the concepts, principles, and techniques of educational research with emphasis on scientific inquiry and problem solving, designed for both the producer and consumer of educational research. Individual research proposals and reports are completed. Prerequisite: open to matriculated students only.

EDU 603 Analysis of Teaching
This course provides opportunity to view teaching from the perspective of selected conceptual frameworks and research findings in the theory and practice of teaching. Analysis of individual teaching behavior is an important aspect of this course.

EDU 604 Curriculum Development
This curriculum course will provide students with an understanding of how curriculum and curriculum development are. Using a collaborative approach, teachers and administration will plan the design of a curriculum consistent with personal ideals and a given context. Students will analyze the curriculum in terms of knowledge, skills, learning processes, and affective dimensions. Special emphasis will be given to the processes of curriculum implementation and curriculum evaluation. Prerequisite: teaching experience or permission of instructor.

EDU 610 Critical Issues in Teaching and Learning
This course provides grounding and direction for a spiral of learning to continue throughout the program. It draws on direct and observed experience of participants, as well as on the literature of theory, research, and practice, to explore critical issues in teaching and learning. It aims to provide students with a process of inquiry useful for identifying, classifying, and analyzing instructional problems and the skill in making decisions about curriculum and pedagogy. Prerequisite: matriculation or permission of instructor.

EDU 622 Language and Literacy for Young Children
The focus of the course is the development of language (both oral and written) in children three through eight years of age. Content includes the characteristics of language learners, the conditions that promote emergent literacy, and organization and management of literacy instruction in the primary grades.

EDU 630 Organizing for Literacy Instruction
The course identifies and explores the components of effective literacy programs at the upper elementary and middle school levels. Emphasis is on the design and implementation of literature-based instruction and management of self-selected reading. Prerequisite: EDU 620.

EDU 672 Political Basis of Decision Making
Educational leaders must be influential beyond the school system as well as within it. Distribution of power and influence across interrelated social systems is seldom equal, leading to competition for bases of influence. This course examines the ramifications of this social circumstance for education with emphasis on administrative decision making.

EDUX 616 Advisory and Guidance Role of the Middle Level Teacher
This course will review the theory and research related to the social and emotional needs of the young adolescent and teaching methods related to the advisory role of the middle level teacher will be examined.

EXE 611 Nature and Needs of Learners Who Are Exceptional
This course focuses on the unique characteristics and educational and social/emotional needs of children and youth who display a range of learning and behavioral difficulties including learning disabilities, mild forms of developmental delay; and mild to moderate forms of behavioral and adjustment problems.

EXE 613 Curriculum and Instruction for Children with Learning and Behavioral Problems
In this course, students will undertake a systematic exploration of effective instructional practices for mildly handicapped children. Topics will include direct instruction, cooperative learning, cognitive approaches to learning problems, as well as a review of exemplary curricular approaches. Students are expected to conduct a variety of classroom application projects and make an in-depth study to several specific approaches.
HRD 333 Human Growth and Development
This course introduces developmental theory and research which encompasses the entire life span. Emphasis will be on prenatal development through adolescence, with an overview of adult development. A multi-disciplinary view of human development is presented which allows the student to understand how it will change throughout the life cycle. The integration of hereditary and environmental factors will be considered in physical, cognitive, and psychosocial development. Prerequisite: sophomore level standing.

HRD 600 Adult Education and Human Resource Development
This is the mandatory first course in the master's program. The course introduces the student to adult education, continuing education, and human resource development, including its history, philosophy, and trends in the United States and worldwide. The course also introduces the student to the graduate program and to the network of current students and program graduates. Particular attention is given to career and educational planning, including the assessment of prior experience, the development of a personal portfolio, the development of a career plan to be sought through the program, and the development of an educational plan for the completion of the program.

HRD 603 Consultation
This course is designed to introduce students to consultation skills that can be utilized for evaluating organizational structure and individual client management. A variety of theoretical approaches to the role of the consultant will be offered, including focus on behavioral observation, organizational development, relating to staff people as a consultant, and the role of the consultant. Particular attention is given to career and educational planning, including the assessment of prior experience, the development of a personal portfolio, the development of a career plan to be sought through the program, and the development of an educational plan for the completion of the program.

HRD 608 Career Development
This course will focus on the process of career development which has a principal impact on our lives. Career development will be examined as a process which continues throughout the life span. Different theories of vocational choice will be examined and various methods of assessing vocational interests and aptitudes will be explored. Special problems of the handicapped, displaced homemakers, and elderly will be discussed. The overall emphasis of the course will be to explore the factors of career development and to participate in career development programs in the community.

HRD 614 Principles of Psychosocial Rehabilitation
This course is designed to provide a foundation of knowledge and skills useful in habilitation and rehabilitation work with persons who have psychiatric disabilities. A major emphasis of this course will be to address skill development and adjustment changes needed by the helper/counselor/teacher in implementing a compensatory model for a medical model of treatment for persons with psychiatric disabilities. Text material, research articles, guest presentations, videos, computer site visits, and "real play" through extensive di/dassmall group student interaction, will be employed to promote learning. This course is required for master's degree candidates in rehabilitation counseling. It is also open to persons interested in this innovative approach to mental illness.

HRD 615 Vocational Aspects of Disability/Placement in Rehabilitation
This course involves the practical application of job selection, job compensation, and employment for the counselor of handicapped persons. The role, function, and technique of the rehabilitation counselor in job placement of severely disabled persons will be examined. Employer and industry site visits may be arranged.

HRD 620 Fundamentals of Counseling Skills
This course emphasizes the development of fundamental counseling skills such as attending behavior, listening, reflection of feeling, paraphrasing, and questioning. The course examines the process and content of the counseling interview as well as verbal and non-verbal factors which influence the interactions within the counseling relationship. The focus will be to help the student develop his own self-knowledge and skills in interpersonal communication within the counseling relationship. Prerequisite: open to matured students only.

HRD 621 Fundamentals of Counseling Theories
This course is a course for those who are or will be engaged in counseling in an educational or mental health setting. Selected theories and techniques are closely examined. The research literature which has a bearing on the effectiveness or non-effectiveness of counseling will be reviewed.

HRD 622 Counseling Young Children
This course is designed to review theories, techniques, and strategies used in counseling young children. Attention will be given to the examination of the counselor's role, the tools of counseling and developing relationships with children. In addition, students will be given the opportunity to develop the use of various psychological testing techniques in counseling children. The course is designed to provide the student with the knowledge and skills necessary to help counsel children in educational settings.

HRD 626 Group Process and Procedures
The course focuses on the principles of group development and on the skills of group interaction. The improvement of interpersonal communication processes and their application to other group settings will be emphasized. Open to matriculated students only.

HRD 627 Group Counseling
This course is an extension of basic knowledge and practice in the fundamentals of group dynamics. Emphasis will be on the development of concepts, attitudes, and skills necessary to understand and lead counseling groups in a variety of settings and on the development of a deeper sense of how each participant intervenes in a group. Prerequisite: HRD 626 or equivalent.

HRD 633 Managing Adult Education and Human Resource Development
This course examines the interactive and leadership skills necessary for the development and management of units such as adult education centers, continuing education offices, and staff development departments in profit and non-profit organizations. Particular attention is given to the development of mission statements, the planning of advisory boards, communication, program development, personnel management, and the development of a management style.

HRD 640 Human Resource Development in Organizational Settings
Personnel directors, trainers, personnel counselors, career counselors, job designers, employment forecasters, career management, performance evaluation, and unionizing human organizational members who 'develop' the human resources of a work organization. This course examines the theories of human development explicitly or implicitly held by holders of such positions, how divergent or compatible these views are, and the probable effects on employees. The course particularly centers on approaches to developing human resources in an organization in a conceptually consistent, effective, and human way. A companion course is Human Resource Development in Community Settings, which looks at the interface between community organizations and their clients.

HRD 660 Life Span Development I
This course examines the process underlying growth, development, and behavioral changes of humans from conception through death. The focus is on the interaction of biological, cognitive, and psychological development during these earlier stages of the life span is described.

HRD 661 Life Span Development II
This course examines the processes underlying growth, development, and behavioral changes of humans from young adulthood through old age to death. The interaction of biological, cognitive, and psychosocial development in adulthood is described.

HRD 664 Culture, Tradition and the Life Cycle
This course is designed to provide an understanding of the nature and needs of individuals at all developmental stages. It focuses on cultural and social foundations, changes and trends that impact on life span human development. Drawing from the social science disciplines, cultural traditions are examined in relation to changing roles, values, and mores and lifeways. The course considers specific ethnic groups of post-colonial New England to see how traditions might influence attitudes toward growth potential. Prerequisite: HRD 662 or permission of the instructor.

HRD 665 Psychological Measurement and Evaluation
This course focuses on tests and related measurement techniques. The course content will include a review of the history of testing, current issues, fundamental statistics for understanding, using, and evaluating tests, including selected aptitude, intelligence, achievement interest and personality tests. In addition, other standardized and non-standardized evaluation measures will be reviewed.

HRD 674 Abnormal Psychology
This is an overview of normal and abnormal personality development and functioning. Emphasis is on symptom patterns, etiology, and treatment of developmental and behavioral disorders from early childhood through adulthood.

HRD 686 Internship in Counselor Education
This course provides an opportunity for the student to integrate formal coursework with on-the-job experience in selected helping institutions. The course may be taken for 1 to 12 credit hours and is a post-practicum (HRD 690) experience. Prerequisite: approval of the supervising professor.

HRD 687 Internship in Adult Education
This course is designed to provide professional experience in the student's selected area of interest. A plan for the internship is presented for approval to the student's advisor. On approval, the intern completes the required program, under the supervision and evaluation of a responsible person for the internship assignment.

HRD 688 Internship in School Psychology
The 1500-clock hour internship is a full-time, supervised experience within a public school system. The internship provides the student with supervised field experiences in the role and function of the school psychological examiner. Prerequisite: permission of instructor. (Three hours awarded in the fall and spring semesters and two hours in the first summer session).

HRD 689 Internship in School Psychology
The 1500-clock hour internship is a full-time, supervised experience within a public school system. The internship provides the student with supervised field experiences in the role and function of the school psychological examiner. Prerequisite: permission of instructor. (Three hours awarded in the fall and spring semesters and two hours in the first summer session).
HRD 693 Life Stories/Personal Myth Making
This course serves as a reflective component of the master's program for counselors, educators, administrators, and service providers. It offers a theoretical and methodological framework for in-depth study of individual lives. As a course in autobiographical reflection, the underlying assumption is that telling the stories of our lives is an important way of uncovering the personal truth in our lives. As a course in theory and research, it takes an historical look at the study of biographical narratives across time, drawing upon them as a window on the personality development of individuals. The seminar uses a workshop approach, combining autobiographical writing, personal myth making, writing circles, and life story interviews to better understand process and patterns in life cycle development from a subjective point of view.

HRD 698 Directed Study in Human Resource Development
This course provides students the opportunity to pursue a project independently planning and exploring an area of interest within the field of human resource development. The project must be clearly defined in conjunction with the faculty supervisor. An approved proposal is necessary prerequisite to registration.

HRD 699 Independent Study in Human Resource Development
This course provides students the opportunity to pursue a project independently planning and exploring an area of interest within the field of human resource development. The project must be clearly defined in conjunction with the faculty supervisor. An approved proposal is necessary prerequisite to registration.

Professional Development Center

EPD 536 Collaborative Problem Solving across Systems
Using a socioecological perspective, this course is designed for counselors, administrators, and teachers. It explores problem solving with individuals, groups, and organizations. Stress will be given to the group problem solving process, strategic planning, the skills needed to resolve problems and home-school collaboration.

EPD 560 Middle School and Gifted Learner
This course addresses the middle school philosophy as it relates to the gifted learner and examines ways in which the traditional philosophy of gifted child education interfaces with middle school education. Topics include the affective and academic needs of students, the relationship between affective and academic needs, curriculum and instructional strategies, including cooperative learning and grouping, meeting the needs of students, practices of placement, and working with other educators to develop and manage programs.

EPD 561 Curriculum Institute
Each year the Professional Development Center and the Instructional Leadership program jointly sponsor a one-week curriculum institute for curriculum directors and teachers/leaders. Located at the Stone House at Wolfe Neck Farm in Freeport, this course is designed in a format conducive to intensity of collaboration and thought around curriculum. Participants shall be defined in advance of the class.

EPD 564 Counselor Traumatized and Disordered Children
Many children experience severe emotional trauma from a variety of stimuli: physical illness, death of a relative, divorce, abuse, home accidents, and other circumstances. Counselors in schools and community agencies, school psychologists, social workers, and other human resource specialists are called upon to make decisions in emotional and psychological struggles. This course will provide an overview of traumatizing experiences and how they impact children. It will also present models of interviewing of children and provide specific techniques to use with the problems children encounter. Emphasis will be placed on interventions that focus on working with individual children, their families, school personnel, and related community resources.

EPD 592 Identifying and Nurturing Multiple Talents in Gifted Students
This course is designed for individuals who are responsible for recognizing and nurturing multiple talents within students. Topics include: planning and implementing learning experiences; developing instructional materials for enhancing multiple talents in diverse environments; conducive to creativity; and evaluating student growth in areas of productive thinking, communications, forecasting, decision making and problem solving.

EPD 501 Cooperative Learning in the School Setting
This course provides the learner with an overview of cooperative learning systems and practical approaches to implementing cooperative learning techniques and strategies in a school setting. Special emphasis will be placed on solving problems attendant to heterogeneous grouping, evaluating group learnings in a group setting, and designing activities that engage all students in multiple modes of learning.

EPD 502 Using Mac Computer with Special Needs Students
This course examines the specialized use of the Macintosh computer with students with special needs. Introductory material focuses on the basic operational procedures of the Macintosh. The uses of Macintosh software and how the software can enhance learning processes are explored, with special adaptations of the Macintosh for students with special needs demonstrated. No previous experience with the Macintosh is required.

EPD 517 Computer Networking: Linking Educators and Students to the Global Village
This course explores educational telecommunication as a technique for communication among pre-K to 12 students, teachers, and administrators as well as among personnel of post-secondary institutions and the private sector. Skills for using telecommunication networks, electronic mail and bulletin boards, and computer conferencing will be taught. Emphasis will be placed on promoting educational improvement through teacher exchanges of information and curricular materials. Experience in using the Internet to read and write through use of technology, and the reducing of teacher and administrator isolation by providing access to colleagues in schools and corporate settings.

EPD 527 Educational Interventions for the Language Learning Disabled Student
This course will focus on definition, diagnosis and intervention of the expressive and receptive language processes of the language impaired population, with the language demands of the disabled student. Language processing and the various difficulties and disabilities that children exhibit in this area will be defined using an information processing model. Various effects of both language disabilities on behavior, social interaction, and academic development will be addressed. Collaborative teaching among specialists and mainstream teachers will be covered.

EPD 548 Leadership Training in Experiential Education
Designed to blend the process and interdisciplinary approach of experiential education with more traditional forms of learning, this course for teachers will be held at USM's Red Gorge Learner Center in the Mid-State. The focus of the course is to provide teachers with experiential oriented programs and learning experiences, both concept and experiential, in self-assessment, group and team dynamics, values clarification, curriculum integration, and evaluation.

EPD 585 Literacy Instruction in the Middle School
This course is for middle school teachers who are interested in designing and implementing an interdisciplinary curriculum that integrates the teaching of reading and writing. The focus will be on incorporating appropriate adolescent and classic literature, using journals and peer reading groups, increasing communication skills using the Foxfire approach, creating writing activities, and the mainstreaming of special education students into a language arts classroom.

EPD 586 Whole Language Teaching: PS-Grade 3
This course for teachers focuses on teaching the whole language approach. Sessions will explore the phases of the whole language approach, whole language technique, the role of the teacher and learner, the writing process for young children, shared books, thematic teaching and webbing. There will be practice sessions in producing classroom materials.

EPD 588 Valuing Literature: Beyond Interpretation and Meaning
This course, designed especially for middle school and high school teachers of English, social studies, and humanities, evokes from the premise that values conveyed through literature need to be weighed for acceptance or rejection by the reader. The course provides practice in the use of "value prioritization" models to investigate material from the perspective of personal and universal values. Course readings include Aristotle, Pascal, Emerson, Wordsworth, and T.S. Eliot.

EPD 595 Law Related Education Institute: Developing Citizen Values, Knowledge, and Skills
This course will explore relevant education looking at the purpose of education, the structure and process of the judicial system, Areas such as family law, juvenile justice, individual rights and the rudiments of legal research are topics. Interactive techniques such as mock trials, role play, simulations will be integral to the program. The course is directly applicable to teachers of social studies, history, government and law; others are encouraged to apply education methods, content and resources in their own area.

EPD 597 Planning for Change in Schools
This course is for educators who are involved in planning, implementing, and evaluating change in schools. The course is designed to assist educators in understanding models of change, assessing personal and professional resources for supporting the change process and leadership development, and utilizing strategies for implementing change effectively and efficiently.

EPD 598 "At Risk" Children in a Holistic Curriculum: Grades K-4
This course focuses on techniques for "jumps" starting the reading and writing development of reluctant fourth through eighth graders. Topics include motivation, intervention, children's literature, writing process, curriculum integration, parental involvement, and portfolio assessment.
EPDI 599 Developing Counseling Support Groups
This course is designed for school counselors who are working to establish a group counseling program in their schools. Through experiential activities to identify steps to building a successful program, participants will develop a plan of action for their schools. Topics addressed include advanced group counseling skills, group activities, co-leadership, rationale for groups and community support for program groups. Cr 3.

EP1501 Curriculum as Collaborative Work of Art
This course is the third-semester course offered by the EPC and the Instructional Leadership Program using a transformational orientation to curriculum. Using the language of art, the course will help students develop the metaphor, "Curriculum is a collaborative work of art" in the setting of the Stone House at Wolfe's Neck Farm, which inspires an interactive learning process. Cr 3.

EP1502 Multi-Age Education
This course will examine the rationale for multiage teaching with a review of current research. Models of multiage education currently being used in Maine will be presented. Types of curricula, classroom organization strategies, and political considerations will be discussed. Change to multiage education will be addressed. Cr 3.

EP1505 Advanced HyperCard Development
This course will go beyond the basics of stack building. Some of the areas covered will be: advanced scripting, resource editing and placement; various kinds of animation, making and using dialog boxes, radio buttons and check boxes, complex ways of dealing with texts in fields, sound digitization, visual and user interface design; and using some of the built-in support debugging and learning tools that come with the HyperCard Development Kit. Students will come away from this course capable of designing and building accessible applications, proper course materials for almost any content area, or capable of finding out how to do it through the use of reference materials and existing stacks. Cr 3.

EP1506 Family Therapy and Substance Abuse
This course will take a macro and micro approach to understanding substance abuse, its impact on the individual, family, and culture, as well as treatment implications. Exploration of Jungian theory in relation to addiction, addiction as a disease, and a system of a serious wound to the biopsychosocial spiritual self will be integral to developing ideas for treatment. Some theoretical theories will be considered, but a systems model will provide the foundation for our work. Cr 3.

HRD 645 Institute in Educational Gerontology: Aging, Death and Bereavement
This course examines the process of life review and its role in human aging. The phenomena of memory, imagination, and identity in later age will be examined. Implications of Kierkegaard's statement, "We live life forward but understand it backward," will be explored. Participants will develop practical methods of facilitating life review for themselves and older clients. It is important that students register early for this course since a substantial amount of reading is required prior to the first class. Those registering after June 1st must obtain permission from the instructor. Cr 3.

HRDX 659 Research Methods in Applied Interventions
The purpose of this course is to teach students methods of evaluating the efficacy of applied interventions, such as consultation, behavior management, social skills training, group counseling, and individual counseling. This course will emphasize the application of single-case experimental designs and qualitative methods in evaluating the effectiveness of interventions. Cr 3.

Lewiston-Auburn College

ENG 120H Introduction to Literature
A general introduction to the various literary genres—poetry, the short story, drama—which will introduce a student to close personal, close textual reading, and practice in writing. Prerequisite: ENG 100C or 101C or waiver. Cr 3.

HRD 333J Human Growth and Development
This course introduces developmental theory and research which encompasses the entire life span. Emphasis will be on prenatal development through adolescence; with an overview of adult development. A multi-disciplinary view of human development will be taken which includes stability as well as change over the life cycle. The interaction of hereditary and environmental factors will be considered in studying physical, cognitive, and psychosocial development. Prerequisite: SOC 130. Cr 3.

HTY 131J United States History to 1877
A basic survey and introduction to the field of American history, covering the political, social, and economic development of the United States through Reconstruction. Cr 3.

MUS 110F Fundamentals of Music
A background study of concepts and skills essential to an intelligent reading of music. The development of natural music abilities through participation in signing, rhythmic activities, and instrument work. An appreciation of music through awareness of basic structures. Open to all students. Cr 3.

THE 101G Introduction to Drama
A lecture-discussion course designed to introduce students to the concepts of the development of the theatre and its literature. The course consists of a survey of Greek, medieval, Elizabethan, French neo-classic, and 18th, 19th and 20th-century theatre and drama. Cr 3.

Edmund S. Muskie Institute of Public Affairs

PPM 550 Media and Public Policy
This course provides an introduction to the relationship between the press and public policy, focusing on social issues at the state and national level. It is designed to make students aware of the often-overlooked influence of the media on the outcome of policies and to help policymakers deal professionally with print and TV media. Cr 3.

PPM 603 Advanced Research Methods
Extends the student's understanding of quantitative data analysis and research methods. Expands statistical skills in the areas of multiple regression, significance testing, analysis of variance, and selected other multivariate techniques. Introduces students to a range of data acquisition methods, including on-line searching and database construction and maintenance. Prerequisite: PPM 501 or equivalent introductory statistics course. Cr 3.

PPM 615 Managing the Human Organization
An examination of issues and approaches in the management of the human organization. Topics include classic and modern theories of management; understanding individual, interpersonal, and group behavior; leadership and power; organizational structure and culture; and managing change. Throughout the course, special attention is given to issues affecting management in the public sector and to the ethical aspects of management. Cr 3.

PPM 666 Environmental Policy and Planning
This course is a seminar on environmental issues in Maine, New England and the nation. Topics may include air quality, water quality, toxic and hazardous waste management, soil and water management, wildlife habitats, landscape degradation, Federal, state and local roles in reconciling natural resource threats, economic growth, property rights and the public interest will be explored. Cr 3.

School of Applied Science

Applied Immunology
AIM 630 Medical Immunology
This course stresses the medical relevance and application of immunology, both in the laboratory and in the clinic. Specific topics covered include assay formats and design, assay interpretation, new technology and instrumentation, the role of the immune system in protection, the interactions of the immune system with inflammation, as well as the diagnosis, pathologic mechanisms, and treatments of immunodeficiency, autoimmune, and lymphoproliferative diseases. Cr 3.

AIM 631 Medical Immunology Laboratory
Cr 3.

AIM 690, 697, and AIM 698
For information about these courses see the 1991-1992 Graduate Catalog or contact the School of Applied Science.

Computer Science

COS 140 Programming in FORTRAN
A study of programming techniques and applications using FORTRAN. Prerequisite: Two years of high school algebra or equivalent. Cr 3.

COS 160 Structured Problem Solving: Pascal
This course is an introduction to the use of digital computers for problem solving, employing the Pascal programming language as a vehicle. Content includes elementary control structures and data representation methods provided by Pascal and the top-down programming methodology. Course requirements include a substantial number of programming projects. Prerequisite: two years of high school algebra or equivalent. Cr 3.

COS 161 Algorithms in Programming
The development of algorithms and their implementations in a higher-level programming language, with emphasis on proper design principles and advanced programming concepts. Introduction to the performance analysis of algorithms. Course requirements include substantial programming projects. Prerequisite: COS 160. Cr 3.
COS 170 Structured Programming Laboratory
Computational experiments will be designed to teach students how to construct reliable software in the Turbo Pascal Environment. Topics to be covered include: MS-DOS, conditional program flow, iteration, procedures and functions, and symbolic degradation. This course must be taken concurrently with COS 160. Cr 1.

COS 230 Programming in COBOL
This course studies the programming language used primarily in business. Prerequisite: COS 140 or COS 100, previous programming experience or permission of the instructor. Cr 3.

Engineering
ELE 100 Introduction to Engineering
This course provides basic understanding of engineering tools. Word processing, engineering calculations, data processing, graphics, computer-aided drafting, principles of design, and report writing are discussed and the learning of computer skills associated with each topic is included. A simple design project and report are among the requirements. Prerequisites: none. Typing skills are useful. Cr 3.

ELE 442 Introduction to Digital VLSI Design
Principles of internal circuit and layout design of digital VLSI circuits. Topics include NMOS and CMOS logic circuits, electrical and physical design of logic gates, chip layout rules, parasitics and performance estimation. CMOS technology is emphasized. Simulation, layout and electronic design automation tools are demonstrated and used. Prerequisite: ELE 172 and ELE 342. Cr 3.

Technology
IEP 699 Independent Study
This course treats the general and specific materials and methods of teaching vocational courses. It deals with both the theoretical and practical aspects. Prerequisites: IVE 300 and IVE 305. Cr 3.

IEV 460 Independent Study in Vocational Education
This course is an opportunity to pursue independently a topic, project, or experiment of interest. Students will prepare a contract or proposal for study to be conducted and, upon completion, submit findings in a scholarly report or other evidence of completeness. Permission of advisor. Cr 3.

ITP 300 Motion and Time Study
A study of techniques to utilize available resources (men, material, machines and facilities) in the most effective and economical manner giving full recognition to the human factors involved in engineering work methods and time measurements. Cr 3.

ITP 330 Production Control
Lectures, discussions, and problems dealing with the principles and practices of production and inventory control. Study includes information flow, forecasting, scheduling, capacity planning, material requirements planning, economic order quantities, ABC analysis, line balancing, and just-in-time techniques. Cr 3.

ITP 350 Conference Leading
This is a course in the philosophy and techniques of organizing and conducting successful conferences. Each participant will assume the responsibility of planning and leading a simulated conference. Cr 3.

ITT 440 Related Occupational Experiences/Internships
Two options, total credits to be no more than the greater of those granted for ITT 440, and 45 credits.

OPTION NO. 1
This course option is designed to permit attendance at an approved industry-sponsored school or seminar for the purpose of providing the student with advanced related occupational or technical training. Courses provided by organizations such as General Motors Training Centers, or International Typographical Union, qualify under this course option. Cr 1-6.

OPTION NO. 2
Approved employment with a company may qualify a student under this option. Arrangements must be approved by the advisor in advance. The experiences should provide opportunities for updating technical skills and knowledge. Credit will be determined on the basis of one credit for each two full weeks of employment (80 hrs) with a maximum of three credits for each period of approved continuous full-time employment. A daily log, summary report, and evaluation by an industrial supervisor will constitute part of this option. Cr 1-3.

For additional information concerning either option of ITT 440 or ITT 440L, consult your advisor.

School of Nursing
Nursing
NFS 252 Human Nutrition
This course examines the basic concepts of human nutrition and their application to the needs of human beings throughout the life cycle. Discussion of factors affecting food practices and attitudes is included. Prerequisites: Anatomy and Physiology; General Chemistry or Biochemistry. For challenge information of NFS 252, contact the School of Nursing. Cr 3.

NUR 200 Introduction to Professional Nursing
This course introduces the student to historical and contemporary perspectives regarding the nature and scope of professional nursing. It explores the relationship between professional nursing and the broad base of theoretical and empirical knowledge derived from the behavioral and physical sciences and the humanities. It examines the role of the nurse as communicator and caregiver with a diverse, multi-cultural population in a variety of settings. Open to any University student of sophomore standing. Cr 3.

NUR 209 Health Assessment
This course provides the student with knowledge and skills necessary to conduct an in-depth holistic health assessment of well individuals of all ages. Emphasis is placed on data collection through development of communication, interviewing, history-taking, physical examination skills, and data synthesis with formulation of nursing diagnoses. Prerequisite: Anatomy and Physiology. Cr 2.

NUR 210 Health Assessment Lab
This course provides opportunities for students to apply knowledge and skills necessary to conduct total health assessment of clients of all ages (Concurrent with Health Assessment) Cr 1.

NUR 212 Fundamentals of Nursing
This course introduces the student to concepts and skills basic to the art and science of nursing. Foundational nursing skills/actions used in most practice settings are presented. Cr 2.

NUR 304 RN Transition
This course introduces the RN student to the nature and scope of professional nursing. The student studies all theories and concepts that form the basis for professional nursing practice with individuals and families. Nursing process is utilized to define the needs for health promotion, restoration, and maintenance for clients at various developmental levels in a variety of settings and in a culturally diverse society. The study of nursing history and the development of nursing theory is limited. Students use research to examine the role of the professional nurse and to explore family theory, crisis theory, and teaching and learning theory. Legal and ethical issues related to the delivery of health care are discussed. Open to RN students only. Prerequisite: RN license. Cr 5.

NUR 311 Reproductive and Sexual Health Nursing
Emphasizing the health care needs of the reproductive family, this course examines issues of reproductive health from adolescence through older adulthood. Content stresses the nursing roles of teacher, communicator, and caregiver related to client needs with menarche, fertility, parenting, sexuality, sexual functioning, menopause, common health problems of the male and female reproductive system. Cr 2.

NUR 312 Reproductive and Sexual Health Nursing Lab
This course offers students learning experiences in providing nursing care to families during perinatal experiences. It also offers students the opportunity to apply knowledge of client reproductive health care needs at other points in the life span. (Concurrent with NUR 311) Cr 2.

NUR 324 Older Adult Health Nursing
This course will offer students a broad based perspective on current gerontological theories and issues related to aging in this society. The older person is viewed within a holistic realm relevant to nursing practice. Emphasis will be placed on health care needs and growth potential of aging persons. Cr 2.

NUR 325 Older Adult Health Nursing Lab
This course offers students an opportunity to focus nursing practice on the unique health problems and psychosocial issues of older adults. A variety of clinical sites may be utilized including, but not limited to, home health agencies, nursing homes, and acute care hospitals. (Concurrent with NUR 324) Cr 2.

NUR 401 Health-Related Research
Introduction to health-related research with an emphasis on understanding the research process and becoming a consumer of research. Application of current research findings to nursing practice is a major component of the course. Prerequisites: Statistics; RN students; senior standing in the School of Nursing, or permission of instructor. Cr 3.

NUR 410 Mental Health Nursing
This course introduces concepts and principles basic to mental health nursing. The focus will be on the understanding of personality development and its behavioral manifestations. Assessment of clients and intervention strategies are explored. Interdisciplinary aspects of mental health care delivery and current issues in mental health nursing will be discussed. Cr 2.
NUR 411 Mental Health Nursing Lab
This course is designed to provide clinical experience with a mental health-psychiatric nursing focus. The emphasis is on application of concepts of mental health-psychiatric nursing (Concurrent with Mental Health Nursing, NUR 410) Cr 2.

NUR 415 Concepts in Community Health
This course introduces public health principles basic to improving the health of populations and to the practice of community health nursing. The epidemiological process is stressed in surveying current major health issues. Emphasis is on diverse groups in the community at national, regional, and local levels. Cr 2.

NUR 416 Community Health Nursing Lab
This course is designed to provide clinical experience in a variety of community settings. The emphasis is on application of concepts of community health nursing. (Concurrent with Concepts in Community Health) Cr 2.

NUR 599 Therapeutic Touch: Theory and Practice
This course is designed to introduce nurses and other health professionals to the theory and practice of the Krieger-Kunz method of therapeutic touch, a research and theory-based nursing intervention. Students will be introduced to Martha Rogers' nursing theory, in which human beings are conceptualized as energy fields. Through readings, demonstrations, and guided practice, students will become aware of human field energy as it extends beyond the visible boundaries of the physical body, and learn to use therapeutic touch to assess human energy fields and to promote relaxation. Integrating therapeutic touch into clinical practice to reduce pain and accelerate healing will be discussed. Cr 3.

NUR 696 Research Topics
Courses on different types of research methods such as survey, historical, and field research, offered on a rotating basis. Students taking one of these courses will have the opportunity to examine a particular research method in depth and to use this method in the conduct of a research exercise. The course meets the requirement of a research elective. Cr 3.

Recreation and Leisure Studies
REC 110 Introduction to Recreation and Leisure Services
Concepts of leisure, play, time, and work are discussed. Leisure awareness and identifying barriers to leisure are covered. Students are encouraged to develop a recreative lifestyle attitude. Cr 3.

REC 217 Basic Sailing & Seaman­ship
An intensive study of the theoretical and practical elements involved in coastal sailing. Emphasis is on USCG safety regulations, seamanship, navigation, and sail handling. Cr 3.

REC 219 Lifetime Physical Fitness and Wellness
The primary emphasis of this course is to teach students how to take control of their personal health and lifestyle habits. Major areas will include nutrition/weight management, fitness training techniques, flexibility, coronary risk factor manage-
