D Day minus 50

Dear Ones,

Two letters from home today to cheer up a rainy day - tonight I plan on a haircut and then sleep. I hope the rain cuts out before I go on guard tomorrow night. My mail is pretty well caught up except for a letter to Ralph Loken.

I'll be looking for the blouse in the mail. I am glad that the reports on the affaire Chason are so favorable, HB. However, I don't know what you mean by your crack, Daddy, about my knowledge of the "hubba hubba" emotional psychology of 17 year olds - after all, most of the girls I knew were almost 18 when I started dating them!!

The threat of a train strike may upset my weekend - they had better settle that affair or I may be forced to spend a weekend in camp - heaven forbid.

Tonight I have up at the club building around. I did get my hair cut and I went to the PX. In answer to your question - I do not receive the Centur Bulletin; except when you send it to me, of course.

There really is not much to write about - everything is going along with the normal amount of romance; of course, the pressure is on this week because of the inspections. By the way, when I was in the PX tonight, I was looking at a lot of jewelry and other luxury items in which the PX has an average 35% knockdown from the retail list price. If I see any lighters or good pens I will buy them, but if, in addition, there are any type of knickknack which I can give a pick up for you let me know. I hate to buy such stuff because I have no idea of values on such items - so you let me know.

That about does it for now - I am already to sleep -

all my love,

Sumner

Regards to Dad.
