

June 3

Dear Ones -

Nothing special - still no mail from home - it will probably hit me all at once. exercise, gas machine, jigs - that was the morning. an orientation lecture this afternoon and we were free from then on. We continued our bridge game - started on the boat - and here I am, Saturday night - wishing I were in Fuzer, a youngstown, or Rutland - and writing letters. Tomorrow will be a day of rest - I'll probably read as much of Zuck's book as I can. Again I urge to read it - in fact it would make an excellent \$3.50 investment - really a good item for your library, Daddy, very provocative of good thinking.

I heard from Mike Friedman. He is happily immersed in Med School at Navy expense for at least 3 years. He is practically engaged to a Radcliffe girl - Irene Barnes -

he is sitting on top of the world. I've heard
from Eli Beaman - he is now in Reno - I
have always liked Eli - a good boy.

The news from Europe is good - Italy,
the further cooperation of England, U.S. &
Russia in the air devastation of Nazi
Europe. A lot different from 2 years ago at
this time.

I have an idea - why don't you cancel
the "Press Herald" - and clip out & send
"Terry" to me daily. And find out about
Jordan Marsh's issue of the "Boston Herald"
for reviews. No signs of the British paper
yet - and it's not so hot when it does
get here.

I may play cards tonight. I don't
know. At any rate, I'll close now for
tonight & try to write at length tomorrow.

Dot -
Summer
