

June 7

Dear Ones,

I just went down and bought a card for your anniversary. It may take months for it to reach you but let me know when it does and I'll tear up the receipt.

In reference to yesterday's letter - use A PO 7769 until I notify you to the contrary. Is that clear? When I get to where I am assigned, I will notify you of a new complete address as soon as possible. We still use 7769.

There is really nothing to say. I am no longer with my friends of the old gang. The big interest now is to get news of the invasion.

Love - from 7769
