

28 March 1946

Dear ones -

The weekend is upon me and I guess I will spend it here - we have a "Town paper" and I might just as well get it cleaned up. Besides, I don't have enough money to do anything serious. Mail today brought the letter from Ralph Olsen telling me that he had heard that Santa had had a real earthquake! The Alumni Bulletin also came. Word from Aberdeen -

I hope that by the time you receive this, all will be looking <sup>up</sup> for you, Mother. From Daddy's letter, it would seem that at least this time there is more certainty in the doctors' decisions to allow your gradual change from the hospital condition. I write at some length to Father discussing what I will do upon completion of this course and my return to Aberdeen in relation to my next trip to Boston. I tried to give you all the alternatives.

Things are quiet - the pace of activity in the course seems to be slowing slightly and its interest holding features are slipping somewhat. I still can manage to pull up with more than my share of Charley horses (muscle strain) however. OK for now - this will be a short one - all my love to you and all -  
Sumner
