

April 12, 1944

Dear Sumner:

The fact that there has been no mail from you yesterday or today would indicate that you are on your way over; yet I am writing this letter in the chance that you will not yet have gone and are still at Beale.

There is no special news except that I went to Portsmouth from the house this morning at 8:00 o'clock and just got back, late this afternoon. I wanted to drop you this note so as to tell you that all is well.

Under separate cover I am sending you the Alumni Bulletin, again in the hopes that you will receive it early.

Affectionately,
