

Who Is In The Room?

Insight on Education of Delivery Staff

Maine vs US 2020

Medical Doctors (MD) and Doctor of Osteopathic Medicine (DO)

Medical Doctors and Doctor of Osteopathic Medicine are common delivery staff in hospitals, clinics, and specialized birthing suites. Each go to medical school for training but emphasize different philosophies in diagnosing and treating patients.

Midwife / Other

~Midwives are healthcare professionals specifically trained to help women give birth and support during the birthing process. Normally, they are nurses who then specialize through continued schooling.
~Other can be unanswered sections in data collection efforts.

Maine Specific

Maine is a unique state made up of vast rural areas in the Northeast most state in the United States. Maine is a great state for comparisons to the National average due to its unique characteristics and demographics of its populations.
