A SURE CURE FOR CANKER

IN ALL ITS FORMS

FOR 25 CENTS.

Dr. Pettit's Canker Balsam

CURES

CANKER SORES IN THE MOUTH

In a few days, that have refused to yield to any other known preparation.

NURSING SORE MOUTH, one of the *most malignant forms of Canker*, is cured by the Canker Balsam in a few days, often after having been treated to no good effect by every other known remedy.

Enlarged Tonsils, Irritation of the Bronchia, Canker Sores on the Lips or Cheeks, Swelled and Ulcerous Gums, Canker in the Mouth, Throat, Stomach or Bowels, are sure to yield to the magic power of this matchless remedy, though they may have baffled every other.

Great Cure of Canker.

Mrs. D. Shurburn, of Otto, Cattaraugus County, New York, after suffering four months with "NURSING SORE MOUTH," and after being reduced to a mere skeleton, her friends fearing she was already in Consumption, was induced to try the CANKER REMEDY. She perfectly recovered in a few weeks (and has had no attack since). When she commencee using it the Canker had extended to her Stomach. We have never known it fail of giving Entire Satisfaction.

CURTIS & PERKINS'

CRAMP AND PAIN KILLER.

This wonderful medicine is effecting many really

SURPRISING CURES

Of old RHEUMATIC AFFECTIONS, and no person who values health and ease, and is subject to attacks of this disease, should fail to keep it constantly on hand, ready to use in case of an attack.

C. W. Atwell, General Agent, under U. S. Hotel.

DR. MARSHALL'S

Headache and Catarrh Snuff,

Cures the patient of Headache—Giddiness—Dizziness—Snuffling in the Nose—a sense of Matter dropping from the Head into the Throat, and all

CATARRHAL AFFECTIONS.

A WORD TO PARENTS.

The American Vermifuge

Is the BEST WORM MEDICINE in the world, compounded by one of the most SCIENTIFIC, SKILFUL, AND SUCCESSFUL PHYSICIANS of the age; and its

UNVARYING SUCCESS

Has won for it the *unlimited confidence* of all who have used it. It is recommended as a

SURE CURE FOR WORMS,

And as it is *pleasant to the taste* children will take it willingly, without your having to use force.

Read! Read!! Read!!!

MRS. WINSLOW,

AN EXPERIENCED NURSE AND FEMALE PHYSICIAN,

Presents to the attention of Mothers her

SOOTHING SYRUP,

For Children Teething.

For the Nervous Affections, Convulsions, Fever, Inflammation of the Bowels, &c., that attend this period of children, she recommends it as sure to produce the desired effect, giving Rest to the Mother and Relief and Health to the Infant.

C. W. Atwell, General Agent, under U. S. Hotel.

SORE AND WEAK EYES

Cured For

25 Cents.

There is no article for Sore and Weak Eyes like

DR. PETTIT'S
AMERICAN EYE SALVE.

It acts as if by magic, soothing all IRRITATION, allaying all PAIN and INFLAMMATION, *strengthening the Nerves of the Eye*, and effecting a cure in the shortest possible time. Many persons suffer for years by having their eyes water, as they call it, when they go into the air, and by being blinded by the strong light. DR. PETTIT'S

AMERICAN EYE SALVE

Strengthens the Eye, and saves all this annoyance. Persons who suffer a *smarting, burning sensation, as if dust was in the eyes*, may obtain *immediate relief* by using the AMERICAN EYE SALVE.

If your eyes fail you by LAMP-LIGHT, or if by *too intense application* they have become SORE or WEAK, use the AMERICAN EYE SALVE. It will soon restore the eye to its *original strength*, and enable you to pursue your business, day or evening, without inconvenience. BE NOT DECEIVED! Traders will often tell you of something else (which they have bought and wish to sell), but have the EYE SALVE or *nothing*, and you may be sure it will give you

ALMOST INSTANTANEOUS RELIEF.

AGENTS.—H. H. Hay, E. Mason, J. Durgin & Co., and Druggists generally.

PREFACE.

AGAIN we appear before the public with a number of the PORTLAND REFERENCE BOOK, and, as in former numbers, have spent much time and taken great pains to make it correct. Still, we have no doubt that there will be found errors and omissions in the names; this is unavoidable, and it would be utterly impossible to make a perfectly correct directory.

The statistical portions of the book are not in any way derived from previous numbers, but are entirely new. The record of events has been continued from the last number, so that in the present volume it completes a brief history of our city for the eight years up to January 1, 1852, which, if preserved, will, in time, be of much value, more especially as it is our intention to continue it in future numbers, unless, indeed, we find the receipts from the sale of this work, &c., inadequate to pay its expenses. And here it is not improper for us to say, that thus far our compensation for our labor has not been equal to day laborers' wages.

Our design, in short, has been to make the Portland Reference Book a work that will be valuable to preserve for *future*, as well as present, reference.

Commerce of Portland, from 1847, to 1851 inclusive.

The Tonnage entered from foreign ports, in 1851, is a little more than 100 per cent. advance on the tonnage for 1847.

The tonnage cleared in 1851, is nearly 50 per cent. advance on the amount for 1847.

The exports have advanced upon the comparison of the same years but a moderate sum—but about $35,000. The imports have gone up in a much larger ratio, being more than doubled. The low figure of the imports in 1847, may have been partly owing to accidental causes.

The largely increased imports of last year consist chiefly of molasses and sugar. The last commodity is becoming an important staple in our imports.

The values, both of imports and exports, as represented in the tables, it will be understood, are merely invoice values, and by no means represent the aggregates of market values, in either case.—Under an *ad valorem* tariff, the disposition is to invoice cargoes as low as the law will allow, and as to our exports, a similar consideration prevails, having reference to tariff rates abroad.

We have made some comparisons between the last year's imports and exports of this port, and the aggregate imports and exports of the whole State, as returned for 1842, which will be found below, together with comparisons of tonnage between the same periods. It will be seen that the foreign trade of Portland alone, is now well up to the amount for the whole State, ten years ago.

It should be observed, however, that the year ending in Sept., 1842, was a period of great commercial depression in this State, and in the whole country.

About 57,000 tons of the tonnage both entered and cleared in this State in 1842 was returned from the District of Passamaquaddy, a large part of which, of course, related merely to a local trade on the lines, and is not to be taken into comparison with the general foreign trade of the State.—Making the deductions on this account, it will be seen that the tonnage entered at Portland in 1851, is considerably more than that for the whole State in 1842, and the tonnage cleared, about in the proportion of seven to ten.

*Until this year the valuation for Taxes only represented half the real value of the property of our city. Now, the valuation is based upon the *cash* value at the time of the assessment. The valuation for 1851—1852, shows an increase in the value of property of $2,330.009.

GROWTH OF PORTLAND.

If the increase of the population of Portland, should be in the same ratio from Jan. 1851, to July 1853, that it was for for the ten years previous, Portland will have doubled her population in the twelve and a half years, commencing with 1840.

The following table exhibits the population and number of dwellings in Portland, at several periods, from 1790 to 1850, inclusive:—

Years.	Population.	No. of dwellings	Years.	Population.	No. of dwellings
1790,	2,240	——	1830,	12,601	1,076
1800,	3,704	576	1840,	15,218	——
1810,	7,169	703	1848,	19,013	1,045
1820,	8,581	700	1850,	20,815	——

Portland was separated from Falmouth and incorporated

as a distinct town, in 1786; in 1832, it received a city charter.

In 1785, Gen. Peleg Wadsworth, built the first brick dwelling house in town; it occupied two summers in building, and was two storied. This house is still standing in Congress street, with the addition of a third story, and is occupied by the Longfellow family.

In 1795, the first brick Store was built by Capt. N. Deering, at the foot of Exchange street; the store is still standing.

In 1793, Union and Long wharves were commenced, by companies of individuals; they were the first wharves on an extended scale.

The first *block* of brick dwelling houses built in Portland, was the block of four houses in Pearl (then School) street, opposite the Episcopal Church. They were built about 1828, by Josiah Cox, and Joseph Harrod. The second block built is in the same street, below Congress street.

In 1842, the first Railroad, the Portland, Saco and Portsmouth road was opened for travel, forming our first railroad connexion by the Eastern Railroad with Boston.

In 1802, the first brick school house was erected.

In 1828, the first granite stores were erected.

The first building fronted with free stone, ever built in Portland, has been erected the past year, as a banking house, by the Casco Banking Company.

The first omnibus was started by Jere. Swett, June 20th, 1850, and was advertised to run from India to State, through the intermediate streets; fare 6 1-4 cents.

The first newspaper published in Portland, as also in Maine, was the Falmouth Gazettee and Weekly Advertiser. The first number was published Jan. 1, 1785, by Benjamin Titcomb and Thos. B. Waite. The present Portland Advertiser is a continuation of this sheet—and is therefore, just sixty-seven years of age.

The first brick building on our new Commercial street, was commenced last August, and occupied in December; it is the large four story block on the corner of Commercial wharf or the continuation of Lime street, and was built by Wm. Moulton, Esq., and occupied as a wholesale flour store, by Messrs. Charles Rogers & Co.

CENSUS OF PORTLAND FOR 1850.

By the census of our city the population amounted to *Twenty Thousand Eight Hundred and Nineteen.* In 1840 it was 15,218; increase 5,601, or about 37 per cent.

In 1848 the population was 19,013—increase in two years 1,806; or based on a calculation proportionate for ten years, nearly equal to 100 per cent increase.

The following table shows the population in each Ward.

Ward 1,	4,421	Ward, 5,	2,619
" 2,	2,288	" 6,	3,029
" 3,	1,823	" 7,	3,901
" 4,	2,738		
Total, ...			20,819

The increase from 1848, was

Ward 1, 611—Ward 3, 63—Ward 4, 28—Ward 5, 265—Ward 6, 241—Ward 7, 745.

In Ward 2, there has been a loss of 139, arising probably from some of the dwelling houses on the harbor side of that ward being converted into stores and manufactories.

MORTALITY OF PORTLAND.

Among the many recommendations of our city its healthfulness is not the least important. The social advantages which cities possess over the country, are often overbalanced by their destructiveness to health. In this respect Portland compares most favorably with other cities, as will be seen by the following tables, derived from authentic sources. The average number of deaths in Portland for the last seven years, is as one to sixty-two and four-tenths of the population—the proportion of each year, ending March 31st, being as follows:

1845—1 in 79.7	1849—1 in 50.4
1846—1 in 76.6	1850—1 in 44.3
1847—1 in 60.1	1851—1 in 68
1848—1 in 58.1	
General average, . .	1 in 62.4

The annual mortality of some of the principal cities of this country and Europe is given in the following table — which shows the salubrity of our climate in a favorable aspect:

Philadelphia,	1 in 45.6	Baltimore,	1 in 35.4
Glasgow,	1 in 44	Leghorn,	1 in 35
Manchester,	1 in 44	Berlin,	1 in 34
Geneva,	1 in 43	Paris,	1 in 32
Boston,	1 in 41.2	Palermo,	1 in 31
London,	1 in 40	Madrid,	1 in 29
New York,	1 in 34	Naples,	1 in 28
St. Petersburgh,	1 in 37	Brussels,	1 in 26
Charleston,	1 in 36	Rome,	1 in 25

The whole number of deaths in the city for the year ending March 31, 1852, was 384; of which 201 were males, and 183 females. Of the whole number, 12 were over 80 years of age; 59 between 60 and 80; 55 between 40 and 60; 77 between 20 and 40; 43 between 5 and 20; and 138 under 5 years of age. There were also 43 interments of still born children.

Supposing the number of inhabitants to be 22,000, which is not far from the fact, the proportion of deaths to the number of inhabitants will be as 1 to about 57 1-3.

The Church of the First Parish was erected in 1825, and dedicated Feb. 1826. The original meeting house was the first built in the State.

The Church of the Third Parish was erected in 1809—and occupied by two societies preceding the present.

The Park Street Church was built by the Methodists in 1828, and sold by them in 1835.

The Portland Circuit of Methodists was established in 1794, and the first Society was organized 1795. The Chesnut street was dedicated Feb. 17, 1811.

The First Christian Society was established in 1810, and has borne the several names of Christians, Free-will Baptist, and Union Society. In 1827, the Casco street Church was erected. In 1830, the Temple street Chapel.

The First Baptist Church was constituted July 24, 1801. The First Baptist Society incorporated Feb. 12, 1820. The First Baptist meeting house was erected in 1803. In 1811, the Federal Street Church was erected. The Free street Church was originally a Theatre.

The Swedenborgeans commenced their meetings in 1824—their present chapel was built in 1837.

The First Episcopal Church, (St. Paul's) was formed Nov. 4, 1763. St. Stephens' is the successor of St. Paul's.

The Roman Catholic Church was erected by subscription in 1828, but preaching to the denomination commenced in 1827.

The Seamen's Church or Bethel was first organized in 1827—but the property became forfeited to the mortgagees, and in 1847, the present Church was built.

The First Ministry to the Poor was established in 1845, by the Trinitarian Congregational Societies — and in 1847, the Unitarian Societies united for a similar purpose—both are in successful operation under the name of "City Mission," and "Ministry at Large."

The First Society of Friends was collected in 1743. In 1790, the present Society was established. In 1795, they commenced building the brick meeting house, which they sold in 1850, and have since built and occupied a small Chapel on Oak Street.

The past year the Trinitarian Congregationalists, principally from High street Church, have built the beautiful brick Church in State street, at a cost of about $20,000, but the Society has not yet organized. The Preble street Chapel has also been built the past year on land presented by Mrs. Preble, and was dedicated Oct. 29, 1851. The Methodists have also

erected a small and neat Chapel on Munjoy's Hill, fronting on Congress street. The land for which, was generously given by Dr. Eliphalet Clark.

The Catholics have been presented with a lot of land by C. Q. Clapp, Esq., on Munjoy's Hill, on which they propose to erect a second Church.

SOCIETIES AND ASSOCIATIONS.

Among the Societies of a Charitable character in the city, the following are the principal, viz:

MAINE CHARITABLE MECHANIC ASSOCIATION.

Incorporated June 14, 1815 — head quarters in City Hall.

The design of this Association is to encourage and promote the Mechanic Arts, to relieve indigent members and the widows and orphans of deceased members, when in need — and also to assist members by loans of money.

It is possessed of a valuable Library of over 1500 volumes, and has a handsome Cabinet of Minerals, a gift from the State. Through its kindly offices it has done much to enhance the respectability and intelligence of the mechanics of this city.

PORTLAND MARINE SOCIETY.

Incorporated in 1796. This Society was established for the relief and education of seamen and their families. Funds about $6,500.

SEAMEN'S FRIEND SOCIETY.

Established in June, 1840.

TEMPERANCE WATCHMEN.

There are two branches of this Order in the city, viz: "Active Club," instituted in January 1851, and "Dirigo Club," instituted in 1852.

BUSINESS CORPORATIONS, &C.

Among the business corporations, &c., and other large business concerns of the city, may be enumerated the following, viz:—

PORTLAND MUTUAL INSURANCE COMPANY.

Incorporated Feb. 21, 1828. This company has no agencies out of the city, and takes but few risks except in the city.

The whole amount of the risks taken by it since its organization, . . .	$13,784,496 00
Whole amount of risk Oct. 1, 1851, . .	862,925 00
The whole amount of assets of the company, October 1, 1851, was,	

Cash Funds, ...	$34,000 00
Premium notes, ...	25,887 75
The total amount paid for salaries, office rent, fuel &c., since the organization of the company, is . . .	$10,899 78

or less than $400 per year.

All policies are renewed free of expense, after running six years; and notwithstanding this arrangement the total amount of losses of the company by fire since its organization, have not exceeded the interest received on its cash funds! And the company have now in possession ninety five cents for every dollar of cash pad in, since its organization!

Office, No. 36, Exchange Street.

PORTLAND STEAM PACKET COMPANY.

Organized under Act of incorporation, in 1844. Their object was to establish a line of Steamers between this city and Boston. For this purpose they built two propeller boats, viz: the "Com. Preble and Gen. Warren," but these not being fully adequate for the business to be done, a side wheel boat, the "John Marshall," was purchased and put upon the route. The two propellers have since been sold, and two new side wheel boats, built expressly for the company, have been put upon the route, viz: the "St. Lawrence," built in 1850, and the "Forest City," launched in the spring of 1852. These boats are of the same capacity, each being 588 tons burden.

The capital stock of the Company is $200,000.

PORTLAND COMPANY.

Incorporated August 8, 1846. Its object is the manufacture of Rail Road Cars, Locomotives, and Machinery of various descriptions, mostly connected with the requirements of Rail Roads.

Its works are located on made land, on the harbour side of the city, near the entrance of the Eastern Promenade, and adjoining the bridge of the Atlantic & St. Lawrence Railroad, with which they are connected by a branch bridge, and cars may be run directly from the works of the company into the Railroad depot. Authorized Capital stock $250,000.

PORTLAND GAS LIGHT COMPANY.

Incorporated in 1849 and organized Jan. 1, 1850. The works of the Company are at "Clark's Point," near the outlet of the Cumberland and Oxford Canal. Their gas manes have been extended through the principal streets of the city.

Capital Stock, $100,000.

CUMBERLAND AND OXFORD CANAL.

This Canal extends from Portland, near the commencement of Clark Street, to Sebago Lake, a distance of twenty miles. It was finished in 1829, at a cost of $211,000. Sebago is united with Long Pond, by Songo River and Brandy Pond, and a water communication is thus furnished with the interior, of more than fifty miles. The Canal passes through the towns of Westbrook, Gorham, Windham and Standish; and during the boating season, an extensive business in lumber, cord wood, &c., is done with these places, and the flourishing towns bordering on the connecting lake and ponds above.

The scenery along the Canal, and throughout the whole extent of this water communication, is highly diversified and picturesque.

PORTLAND SUGAR HOUSE.

Although this establishment is in the possession and under the management of a single individual (Mr. J. B. Brown) it is one of the chief objects of business interest in our city, both from the magnitude of the buildings comprised under the name, and the extent of the works carried on within.

The purpose of the establishment is the Manufacture of Sugar, from molasses imported from the West Indies. These sugars are remarkably clean, and will otherwise compare favorably with the various styles of brown sugars in the market.

Machinery for refining sugars is likewise, connected with the establishment. The works are situated on York Street, near the foot of Maple Street. The first building was erected in 1845. About one hundred hands are employed in the establishment, and the average amount of sugars produced is not far from one hundred barrels per day. The enterprising proprietor imports the *raw material* in his own vessels, lands it on his own wharf, and manufactures it into sugar, and puts the sugar up, ready for sale in his own establishment — and a more complete and commodious arrangement for the business carried on, could not be contrived.

RAIL ROADS.

The lines of Rail Road, connected with the business and travel of this city, are:

ATLANTIC AND ST. LAWRENCE RAIL ROAD.

This enterprise is by far the most important that has ever engaged the attention of the people of this section. Its object is to connect the city of Montreal, L. C., with Portland; thereby furnishing to the former, a NEW PORT OF ENTRY: a port among the most safe, convenient and easy of access, connect-

ed with the American continent; and on the other hand, opening to the people of Portland and of the State, a direct channel to the vast grain growing regions of the West.

On the part of Maine, a charter was granted February 10th, 1845 — title as above — Capital Stock $3,000,000; and the charter of so much of the route as traverses the Province of Lower Canada, was obtained from the Canadian Parliament, March 17, 1845, title St. Lawrence and Atlantic Rail Road,— Capital Stock £600,000.

The Company of the MAINE portion of the route was organized September 25, 1845. The ceremony of breaking ground was observed on the 4th of July, 1846; the site, the dilapidated bastion at the Eastern point of Munjoy's Neck, known as Fort Lawrence.

By a Convention entered into by the Canadian and Maine Boards of Directors, April 17, 1846, the whole road is to be built of an elevation sufficient to prevent obstruction from snow and ice, the guage to be 5 feet 6 inches in the clear between the rails; and the rails first laid to be placed with the view to a double track.

It is expected that the road will be finished and ready for travel, in the summer of 1853. It has been opened, 91 miles from Portland, since the latter part of July, 1851. The stations between these two points, are:

CAPE COTTAGE.

This well known watering establishment, so long the favorite resort of persons from all quarters, continues to invite the attention of the summer tourist, the lover of Nature, and the invalid.

Its location on a bold headland of Cape Elizabeth, about three miles from Portland, is one of the

MOST ROMANTIC

In New England. In front, outposts of the grassy knolls and openings more immediately contiguous to the house, are an array of wild rocks and ledges, among which the never-resting billows break continually; and beyond, the broad ocean stretches without a break to the horizon; on the left is the ship channel, or main entrance to Portland harbor, so that every vessel which enters or leaves the port passes in full sight; and in the distance are the scores of

Forest Clad Islands

Of Casco Bay; on the right are the receding shores of the Cape, with its light houses, wild cliffs and downs, and in the rear are

FINE VIEWS

Of campaign and farming country.

Scarcely a stone's throw from the house a deep cove makes in, at the head of which is a hard sand beach, affording equal facilities with the famous Newport beaches for bathing, and there is no place in the North where the benefits of sea air can be better enjoyed.

The present building is nearly new, and is fitted up in the most commodious manner; and the landlord spares no pains in attending to the wants and comforts of his boarders and transient visitors.

The adjacent rocks afford excellent fishing; and for deep sea fishing, or pleasure sailing, excellent boats will be provided. Fishing tackle always ready for those who wish it.

ALEXANDER FOSS.

OCEAN HOUSE.

The subscriber would inform the public that the above named House, having been greatly improved in its arrangements and capacity for accommodating visitors, will be hereafter kept open yearly through the Watering season.

The location (on the southern shore of Cape Elizabeth, and less than a mile from Richmond Island) is an eligible one for the enjoyment of sea sports, and for

Picturesque Scenery

Will compare favorably with the most celebrated watering places of the North, affording as it does, views of every vatiety, from the rugged reefs, bold headlands, far reaching sandy beaches and

SURGING WATERS OF THE OCEAN,

To the calmer views of cultivated fields, and woodlands; whilst the ride from Portland is decidedly the finest out of the city, the road being excellent, and scenery ever changing and always pleasing. Sea Perch or Conners, and all other kinds of Fish common to our sea shores, may be caught in abundance from the neighboring reefs, and for deep sea fishing,

GOOD BOATS,

With skillful managers, will be furnished. The House will be conducted on strict

TEMRERANCE PRINCIPLES,

And nothing will be allowed in its connection which shall not be satisfactory to the most refined taste.

Grateful for past favors, the proprietor confidently trusts to satisfy his numerous friends by his coustant efforts to please them.

Cape Elizabeth, 1852. J. P. CHAMBERLAIN.

Western Exchange Hotel.

The subscriber would respectfully give notice to the traveling public that he has taken the above named House, located directly opposite the Portland, Saco and Portsmouth Depot, in this city, on the site where formerly stood the house known as the Depot Hotel. The present House is a new, substantial brick edifice—built expressly for a Hotel—furnished throughout with entire new furniture, and well arranged to convene the traveling community. Travelers arriving in Portland from the East or West, will find this House a more convenient stopping place than any other Public House in the city, as it is within twenty yards of the Railroad Station, and but a few rods from the wharf where all passengers from the eastern part of the State and the Provinces land.

Porters will always be in attendance on the arrival of the Cars and the Boats, to convey baggage to and from the House free of charge. Passengers from the country by stage, bound East or West, by Cars or Boats, will find the Western Exchange Hotel the right place to meet their convenience. No pains will be spared by the present proprietor to make the House agreeable to his patrons.

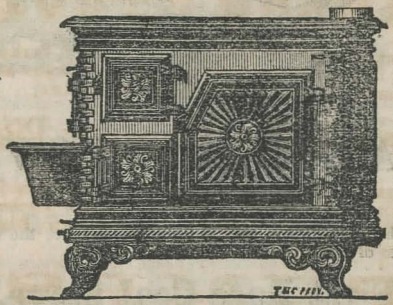
GRECIAN AIR-TIGHT COOKING **STOVE,**



FOR BURNING EITHER WOOD OR **COAL.**

This Stove, manufactured in the most beautiful and substantial manner, is offered to the public with the utmost assurance of giving

PERFECT SATISFACTION.

The beauty of workmanship and smooth surface of the plates (made thick and durable), and the care bestowed in putting the stove together, make it, with its other qualifications,

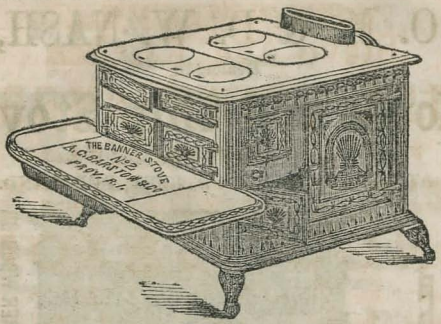
Pre-eminently Superior,

And stand unrivalled among all the new patterns offered to the community.

We have also for sale a great variety of Stoves, which we offer at the very

LOWEST PRICES.

All kinds of Job Work done at short notice.



BANNER STOVE.

FOUR SIZES.

This is a new Stove, and is designed to meet the wants of that class of families who desire a

First Rate Coal Stove,

Of such construction that it can be used conveniently and economically, a part of the year, with wood. It is very compact, beautiful in form and design, has a large square oven which bakes very quick, and with an equal heat on every part. It has a lever grate, the shank of which projects through the side of the Stove, and there is room beneath it to catch all the coal and ashes which the fire pot may contain.

The arrangement for burning wood is very perfect; and broiling may be done either with a coal or wood fire, in the most perfect manner, without any escape of the smoke or fumes therefrom into the room.

Also, the celebrated BAY STATE WOOD STOVE, the perfect BAY STATE COAL STOVE, and Parlor Oven and Parlor Stoves, all which are sold at fair prices and warranted by

T. F. & C. C. TOLMAN,

PALMER'S

Stove and Kitchen

FURNISHING STORE,

NO. 27 EXCHANGE STREET, PORTLAND.

We are constantly receiving the latest patterns of Stoves, and now offer the

ANGLO-SAXON,

A new Cooking Stove, manufactured by B. Ellis & Co. This Stove is worthy the attention of those in want of a good article for burning coal or wood. We desire all our citizens who wish to purchase or would like to see a perfect Cooking Stove, to call at Palmer's and examine this last

Unrivaled Production.

We are sparing no expense or trouble to produce Stoves of the BEST QUALITY. It is our aim to send off every stove in perfect order, and to execute all orders in our line of business promptly and with superior workmanship.

In our assortment of Cooking Stoves, we would also invite particular attention to the

ODD FELLOW,

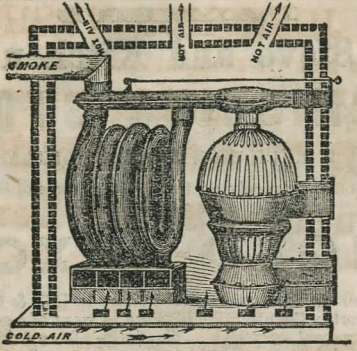
A SUPERIOR COAL STOVE,

And the

EASTERN QUEEN.

Also a general assortment of the most approved Stoves for the Parlor, Counting Room, Shop, &c.

Planished and custom made Tin Ware, and Brittania Ware in every variety. Orders respectfully solicited and promptly fulfilled.



NEW AND IMPROVED PATTERN

HOT AIR FURNACE,

WITH SPIRAL RADIATOR.

FOUR SIZES—TO BE SET IN BRICK.

This is a new and very desirable article. It has for a Radiator an oval cast iron pipe, made in spiral form, which stands in a coil directly in the rear of the fire chamber. This pipe is made perfectly air tight, and while it offers no resistance to the draft, and is easily cleaned of ashes and dust, at the same time exposes a large surface for the radiation of heat.

These Furnaces are adapted to buildings of all sizes, from a small dwelling to a large Church.

In addition to the above, we would call attention to the Report made by the chairman of the Committee on Mechanical Inventions, at the Fair of the R. I. Society for the encouragement of Domestic Industry, held September, 1851.

"The Committee were unanimous in their approval of the general plan of the new Furnace, and were particularly pleased with the Radiator, which is a spiral. cast iron pipe, so perfectly made as to prevent the escape of gas, and so arranged as to be easily cleared of ashes; and whilst the continuous spiral pipe opposes the least possible obstruction to the draft, it also presents a great radiating surface within a very limited space.

The ingenuity displayed in the arrangement of the Furnace, and the workmanship of the same, are deemed by the Committee to be highly commendable to the contributors."

For sale at fair prices, and warranted, by
