# PREFACE.

AGAIN *we* present a *number* of the "Portland Reference Book" to the public. Our First, We believe, was as correct as such a work can well be made, and we have spent much time and labor in endeavoring to make the present volume equally so.

In the portion of the book appropriated as a "City Directory" there may be omissions of names, occasioned by the moving of citizens from one ward to another while the list was taking, et cet.; but, by comparing with the Assistant Assessor's returns, examining the list of deaths, and referring back to the last Directory, we have endeavored to make it, and think it will be found, *generally* correct; — to render it *perfectly* so would be *impossible*.

## CUMBERLAND AND OXFORD CANAL.

This Canal extends from Portland, near the commencement of Clark street, to Sebago Lake, a distance of twenty miles. It was finished in 1829, at a cost of $211,000. Sebago is united with Long Pond, by Songo river and Brandy Pond, and a water communication is thus furnished with the interior, of more than fifty miles. The Canal passes through the towns of Westbrook, Gorham, Windham and Standish; and during the boating season, an extensive business in lumber, cord wood, &c., is done with these places and the flourishing towns bordering on the connecting lake and ponds, above.

The scenery along the Canal, and throughout the whole extent of this water communication, is higely diversified and picturesque.

## RAIL ROADS.

### ATLANTIC AND ST. LAWRENCE RAIL ROAD.

This great enterprise, by far the most important that has ever engaged the attention of the people of this section, is now so

far advanced, as to make its completion a matter of certainty. Its object is to connect the city of Montreal, L. C. with Portland, thereby furnishing to the former, (to all intents and purposes a *new port of entry*; a port among the most safe, convenient and easy of access, connected with the American continent; and on the other hand, opening to the people of Portland and of the State, a direct channel to the vast grain growing regions o the West.

On the part of Maine, a charter was granted February 10th, 1845—title as above—capital stock $3,000,000; and the charter, of so much of the rout as traverses the province of Lower Canada, was obtained from the Canadian Parliament, March 17, 1845, title St. Lawrence and Atlantic Rail Road,—Capital stock £600,000.

The Company of the *Maine* portion of the route was organized September 25, 1845. On their part the work has been pushed forward as rapidly as the interests of the undertaking would admit. The ceremony of breaking ground, was observed on the 4th of July, 1846; the site, the dilapidated bastion at the eastern point of Munjoy's Neck, known as Fort Lawrence.—On the 1st of June, the grading of a section from this city to a point near Lewiston, some 28 miles, was nearly finished, and a section thence to Norway was nearly ready for contract.

In Canada, a section of forty-five miles has been put under contract and the work of grading is rapidly progressing.

*A convention* was entered into by the two boards of Directors on the 17th of April '46, to make the road, in its width, its grades, its guage, &c. on the same general plan and system. By this *ageement*, the whole road is to be built of an elevation sufficient to prevent obstruction from snow and ice, the gague to be 5 feet 6 inches in the clear between the rails; the whole road not to be less than 6 rods wide, and the rails first laid to be placed with the ulterior view of a double track. It also enjoins on each of the parties that no distinction shall be made between passengersor freight on account of national origin as far as the two countries are concerned—that the whole line shall be put in operation within *five* years after the exact point of junction is ascertained; and that in case of difference of opinion, as to cars, freight, &c. the matter shall be submited to arbitation—each party chosing one uninterested arbiter; and in case these cannot agree, they may choose a third, and the decision of a majority of the three shall be binding on both Companies. Finally the entire stock of each corporation is pledged to the other, as a guaranty for the fulfilment of these stipulations. The Directors of the Maine Corporation, chosen August 4th, 1846, are

The 2d division, extending to Snow's Pond, in Belgrade a distance of 25 miles is to be ready for contract about the 25th of July, and the remainder of the Road to Waterville, about the 20th of September.

## ELM HOUSE
—AND—
## GENERAL STAGE OFFICE.

The subscriber respectfully informs travellers and the public generally that he continues at this well known stand. Those who favor him with calls, will find ample rooms, well furnished, and in good order. His assistants are experienced and urbane; his cooks know their business, and are faithful as his table demonstrates. Attatched to the premises is a Stable, with good Ostlers always in attendance.

The Eastern Mail, and Accommodation Stages, arrive at and depart from the Elm House, and seats may be taken for all the country routes. Carriages are also always in readiness to convey travelers to the Rail-road Depot, or the Steamboats, at the regular hours.

In a word, the traveling public will find, at his House, every accommodation usually to be met with at the best Hotels of New- England.

## *RYERSON & STOWELL,*
## City Hotel.
No. 307, CONGRESS STREET, Portland.

## Preble Street House.

The subscriber still occupies this establishment in Preble street, and is determined to make it a first rate TEMPERANCE HOUSE. To this he pledges himself; and if quiet, cleanliness, and moderate charges—a good stable, good attendance, and a strong desire to satisfy his old friends and the traveling public, entitle him to a liberal share of business, he takes it for granted he shall have it.

His Stables are large, airy, and clean; and the ostlers to be depended on.

## Carriages & Cabs.

Handsome and safe Carriages and Cabs to be had at all hours, with careful and pleasant drivers, on application at the Office—formerly the BAR.

HERSEY FREEMAN.

## Casco House,

KEPT BY

## J. M. THOMPSON,

Upon strict Temperance Principles, is situated on Middle Street, a short distance from the City Exchange.

This House is in the business part of the city, and therefore convenient for persons from the country; and it being a little removed from the street, is a comfortably retired situation, for parties of pleasure; or the traveling community at large; and they will find as good accommodations; receive every attention in the power of a landlord to impart, and as good a table as can be found in the city.

There is a good and comodious stable in connexion with the house, always furnished with the best of hay, provender and ostlers.

## United States Hotel, Portland.

This large and commodious establishment, located, corner of Congress, Elm, and Federal Streets, having been leased by the undersigned for a term of years, was opened by the subscribers Nov. 3d 1845; since which time they trust its former reputation as a hotel of the first class has been fully sustained.

It is in complete repair—having been painted, newly furnished, and arranged with a strict regard to the comfort and convenience of families and single gentlemen.

The central location of the establishment (together with its being retired) being in close proximity to the business streets, renders it a desirable house for those who visit the city for business or recreation.

S. WYATT & SON

## Commercial House.

This well known establishment, having recently been enlarged by the addition of a number of sleeping chambers, and otherwise repaired and improved, offers increased inducement as a public house to travelers, and people having business in the city.

Especially is it worthy the attention of masters and mates of vessels, and others engaged in commercial pursuits, it being immediately contiguous to the chief business wharves of the harbour.

☞Meals furnished at the shortest notice, on the arrival of the steamboats and cars.

Carriages always in attendance to convey passengers to any part of the city

Persons wishing to take passage in any of the country stages will be called for at this House.

## Cape Cottage.

The subscriber would inform citizens and strangers— the public generally— that he has opened the small but neat and convenient building, recently erected on the site of Cape Cottage, [which was burned last Spring,] and has made especial arrangements for the accommodation of fishing and other social parties, and transient visitors.

The locality, as is known to many who have visited it, is not surpassed for wild and PICTURESQUE BEAUTIES, by any other in the country — affording, as it does, views of scenery of every variety—the broad ocean, ragged shore, bold headlands, forests and cultivated fields, with exquisite perspective views in almost every direction; whilst perch or conners, and all the kinds of fish common to our sea shores, may be caught in abundance, from the neighboring reefs.

## Fishing Gear and Bait

always ready for visitors.

☞Open every day of the week, Sundays excepted.

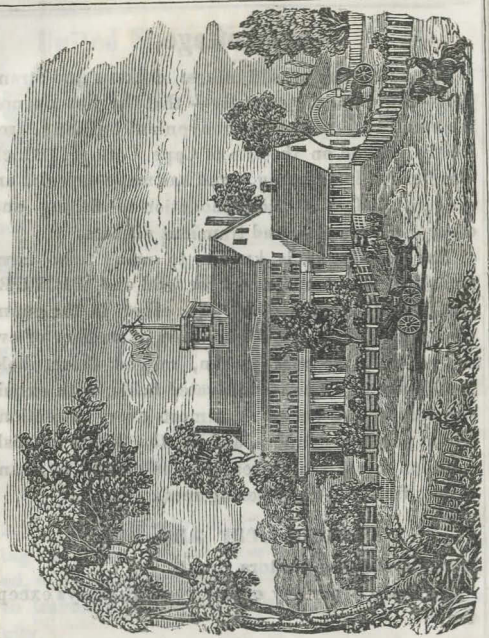
---

In the city, corner of Federal and Temple streets, the subscriber has also established

## A Saloon or Refectory,

where the choicest of oysters, cigars, and other refreshments may be always obtained.

F. D. BYRNES.



## *The Veranda,*

At OAK GROVE, two miles from Portland, Maine.

This new and splendid Establishment, built expressly for a first class Hotel, and Watering Place, is now opened for the season.

It stands on a bold peninsula, bounded by the Presumpscot River, and by Casco Bay, whose hundred of green islands, breaking the surface of the ocean waters, are fully in sight. For natural beauty, for richness and variety of scenery, it is not surpassed

Omnibi and Carriages at the depot and the steamboats to take passengers to the Veranda, for 25 cts per seat. It is one of the most desirable places of resort in the country, for the invalid, the lover of fine scenery, and pure air.

The subscribers having purchased the right to make and vend the article in the state of Maine, and having new and beautiful patterns, now offer them to the public with the fullest confidence that for Parlors, Chambers, Stores, halls, and Offices, where little or no pipe is to be used, they are superior in point of economy, comfort, and convenience, to any other stove now in the market.

The principle on which the stove is constructed will commend it to the judgment of the scientific, while a moment's observation of one in operation, will secure the admiration of the practical man.

No. 2, MONTREAL BLOCK, MIDDLE-ST

PORTLAND, ME.,

Would respectfully inform the inhabitants of Portland and vicinity that he has taken a new and commodious store exclusively for the manufacture and importation of Paper Hangings for the wholesale and retail trade.

As the establishment will be the most extensive of the kind in the state, and devoted exclusively to the business, purchasers can depend upon an opportunity of selecting from an assortment which for extent, quality and prices, will defy competition.

At this establishment papers from the French and American manufactories, of the latest designs, will be regularly received, which for elegance and novelty, cannot fail to suit the taste of the most fastidious purchaser.

He would also give notice that he has received from the manufacturer in Boston, the sole agency for the sale of Worcester's PAINTED WINDOW SHADES, in the state of Maine, and all who are desirous of decorating their dwellings or stores, with this new and desirable article, can here find a complete assortment, or have them manufactured of any design at short notice. The patronage of of the public is most respectfully solicited.

# Furniture, Chairs, Feathers, Looking-Glasses.

WALTER COREY, Nos. 52, 54, 56, Exchange-St., Portland; having very much enlarged and improved his factory, offers for sale, the largest, cheapest, and best assortment of HOUSEHOLD FURNITURE ever offered in this state, and equal to any in New-England. He pledges himself to furnish all articles in the House Furnishing line, as low as articles of the same quality can be had at any manufactory in the United States; thereby saving the people of this state the necessity of being imposed upon by purchasing the refuse of the western establishments, and enabling them to keep their money at home, by patronizing home manufacturers, instead of sending lumber abroad, to be brought back again when worked.

Also, at all times on hand, a first-rate assortment of Live Geese, Russia, and Common FEATHERS, got up in the best order.

Curled-hair MATTRESSES, TICKINGS, CUSHIONS, together with a first-rate assortment of LOOKING-GLASSES, both in gilt and mahogany frames, in all styles, to suit the most fastidious, and at prices that cannot fail to be satisfactory.
