Grace, Charles and I went to walk up to Fort Hill after dinner as we have not taken any walk to speak of this week. They girls are playing some pretty dances downstairs so I am going down and have them. One of the new girls is the best player I ever heard.

It is now four o'clock and I have just got home from our walk. We started about two o'clock and have just got in. We have been up beyond Fort Hill. It was a long walk and I am rather tired. We could not see off my watch to day.

Dear Mamma: It is a lovely day and I have quiet got home from meeting. It is very warm and the snow is melting quite fast.

Enid has gone up to avoid the snow and am alone. Our Lily is growing very fast and it may blossom during vacation. Some of the other girls have gone that they started since Thanksgiving and they have budded. Grace is not growing very fast. We do not
I don’t know what we shall do with their while we are here. The house is going to be closed last Friday. Mr. Acme in the school committee was here. Allet supper he was in the library where the girls began to dance he came and asked me if the girls if they knew any if the old thermometer devices and the card yes as they brought some of them. All of the girls had to get out of the way for he is an awful big slider he is a great deal larger than papa. I guess you would have laughed to see him. I had more fun than I have ever had for a good while.

I suppose you have got all of your Christmas presents I will get a try of writing paper for Grace if you want me to.

It is lonely sliding here. It is home. I want to have a chance to have a slide sometimes.

It is nearly time for dinner.
letter? How did the fair come off and how much money did they make? I suppose it will be
exhausting without rug for the next week and that old debate I can sure with
I can't find anything to read up about it nor and
Miss Kedlady wants me to have it finished before
Christmas so she can look it over. She said I would
not be obliged to have it done their but she would
like to have me get it done if I could. It is a
found project and I can

because it was a little cloudy.
It has not been clear enough
to see the White Mountains
for a good while.

The girls are having quite
a time with the redearn
lately. They are quite mutiny
on the hall floor which
need to be rolled up
very Saturday night so that
the girls can dance. The
next morning they told me
could not roll them up
any more as the girls
thief their rug with theirs
down but they got their
feet caught inside the
edge and of course that would trip them up. Miss White asked Prof. Orthoece if the cold matting could not be rolled up and he said yes as last night when the girls wanted to dance they started to roll them up and the matron said they should not.

This afternoon after dinner one of the girls was playing a piece on the piano and all of the girls were sitting around listening and two of the teachers were in the matron and told her to let the piano alone. We don't like her at all now she is just as mean as she can be. We can turn around but she will scold us.

I am glad you are going to get me some handkerchief because dusted them through and his or four pretty neat this would come in handy. I suppose you have got my cornshow. It is getting dark and I must light a lamp before I can write much more. Mrs. to Teddy Travis that he man spoke of is his
placup on it but she come me up as she pulled it off and then must back into the Pell and wrote 29. Due on it. I noticed that they laughed considerably about it when they handed it to me but I never thought but what the pretentiousness put it on my letter until they told me. I must close this letter now because I haven't any more of this kind of paper and perhaps I shan't write to Newman before I come home. I shan't be home on the noon train Friday if nothing happens. Good night with love to all Harry

Sure write it. All the new class will be here then just think what it will be to have to get up there and read it before two hundred scholars and the teachers and I shall drop through the floor. I have been playing on my auto-harp a little while but they are playing and singing down stairs and the piano and auto-harp do not chord very well. Tonight I intend to finish my recents made out of the
celling and perhaps a
daily that I am working.
I have fried some pictures
and am going to tie them
in Grace's room. The girls are
both writing letters and
I got permission to come in.
You know I told that one of
my letters had 2 P.M. in
it. Well, yesterday the cat got
out of the bag. I happened
to say something about it
and the girls began to laugh
but they would not tell me
what they were laughing at.
At last Charla said she
that when she got that
letter at the P.M. this was a

and it is now nearly eight
o'clock. I have been down stairs
with the girls and are now
in Grace's room. The girls are
both writing letters and
I got permission to come in.
