# TWO-YEAR BUSINESS GRADUATES

The University of Maine in Portland first established a two-year business program for students desiring to pursue technical academic work in the field of business administration in the fall of 1965. The program enables students to obtain working knowledge of business functions and methods, and upon completion of the curriculum, a student will be awarded the degree of Associate of Business Administration. The "core" of the program involves basic courses in finance, accounting, business data processing, economics, marketing, the legal environment of business, and general management. The primary objectives of the program at UMP are aimed at providing the necessary background needed for the preparation for a successful future in today's world of business.

## Students Respond to Survey Orono Holds Back UMP Athletics

Students at the University of Maine in a recent Activities Council survey over feel that Orono is purposely hindering UMP. The survey question read as follows:

"In your personal opinion, do you think the Athletic Advisory Board of the University of Maine, President Young, and Mr. Westerman — Athletics are holding down the intercollegiate program at UMP in order to develop a larger intercollegiate program at Orono?"

Of the 250 students who took part in the survey, the result was an overwhelming 3 to 1 vote in favor of the above question.

The UMPIRE has risen to new heights . . .

It purports to present a year in retrospect, a distillation of the atmosphere on the Portland Campus, a differentiation between yesterday and this day.

The 1968 UMPIRE is a picture of your "yesterday". It is UMPIRE. Moreover, it is you. The UMPIRE Staff hopes that this book will hold something unique and individual for each person who views it.

The UMPIRE symbolizes the spirit of growth, the spirit of the Portland Campus of the University of Maine.
