# ABOUT THE YEARBOOK

*The 1993-1994 Yearbook began as the idea of four friends who felt that USM had been without a Yearbook for too many years, ten to be exact. We took on the project of creating a Yearbook for the 1993-1994 school year with energy and enthusiasm. It's completion has been a major accomplishment.*

*Two founding members of the Yearbook in particular have worked very diligently on trying to produce a quality Yearbook which will allow all students, staff, faculty and administrators of the University to fondly look back upon the 1993-1994 school year. This Yearbook is far from being the perfect Yearbook of anyone's dreams. We could not possibly, in one year's time, accomplish all that we wished to. We did, however, accomplish what we set out to do - provide a quality remembrance book for the USM community. The departments and student organizations included are those that wished to be included and had the desire to become "part of the tradition." We thank all those who did choose to participate, and hope that many more will decide to become part of the Yearbook in the years ahead.*

*As the Coordinating Editor and Layout Editor of the Yearbook, we wish to dedicate this book to the USM Community as a whole. We hope that all who pick up this publication are reminded of the fine institution that USM is, not only for the wonderful faculty, administrators and staff who have made it such, but because of the students who are pursuing their dreams and goals within its walls.*

*To the graduating class of 1994, CONGRATULATIONS. This one is for you!*

The Yearbook wishes to extend a special acknowledgement to President Richard Pattenau, inaugurated in the Fall of 1991. President Pattenau has given much to USM, and through his leadership and devotion, we are becoming one of the best undergraduate institutions in the country. For your devotion to students and to the University, we thank you, President Pattenau.

## President's Statement:

Richard L. Pattenau

*I am very pleased that USM again has a yearbook. Students and staff who worked so diligently to create this book of memories deserve our praise and thanks.*

*I hope you will treasure the experiences you have had at USM and will remember fondly the people, the place, and the programs. We will surely remember you with warmth and appreciation for the hard work that you did and the many contributions you have made.*

*Remember, you will always be welcome here. Best wishes.*

## Vice President for Student Affairs Statement: Judith S. Ryan

*Dear Students:*

*I am pleased to see the return of the USM yearbook after a break of ten years thanks to the work of Tricia LaFlamme and Sonya Artinyan. This yearbook captures the spirit of USM, the high points of the year and for each of us memories of friends, of faculty, of hard work and of fun.*

*For those of you who are graduating, congratulations and best wishes. I hope you will take with you a little piece of USM and will come back often to use the library, attend events or maybe one day take classes. For those of you who will be with us next year, I look forward to participating with you as we continue to improve the quality of student life.*

*Sincerely,  
Judith S. Ryan*

*The Department of Mathematics and Statistics is an academic unit of the College of Arts and Sciences whose mission is to provide educational opportunities in mathematics and statistics for students at both the graduate and undergraduate level. Its programs serve four broad and overlapping areas: the graduate program in statistics, the undergraduate mathematics major, majors in other schools and colleges, and the core curriculum.*

*The department embraces the University's commitment to the highest standards of scholarship, learning and teaching; the respect for individual differences; and the responsiveness to the educational needs of the community. Its mission is to provide the highest quality of instruction and education that resources will allow. The department provides personnel and curriculum that will ensure the quality of mathematics and statistics education, meet the computer and technological needs of the 21st century, and form the external and internal links to communities outside the department.*

## HUSKY HALL OF FAME

*After three years of planning, the Husky Hall of Fame finally became a reality on March 22, 1986. The job of the premiere Hall of Fame Committee was a difficult one, as deserving candidates for the first induction ceremony were chosen from a range covering nearly 50 years of Southern Maine athletics.*

*The Husky Hall of Fame was initiated to honor USM's outstanding athletes, coaches and administrators. Each inductee is honored with a plaque commemorating his or her achievements. This plaque is presented by a friend or colleague with first hand knowledge of the recipient's career.*

The first class to be honored by the  
USM Husky Hall of Fame was:

Dwight "Buster" Webb	1935
Keith Jordan	1938
Phil Gerber	1939
Harry "Pinky" True	1953
Ken Roberts	1962
Don Donnolly	1963
Debbie Higgins	1978
Steve deBree	1980
Michele Rollins	1980

*To date, eight induction ceremonies have been held in the Kenneth T. Brooks Student Center on the Gorham Campus. Each year, the names of each member of the induction class have been inscribed on plaques mounted in the athletic director's office at the Warren G. Hill Gymnasium.*

*My experiences at U.S.M. have been interesting to say the least. I have had the opportunity to meet a lot of people along the way and I hope to continue to do so as I travel along my journey through life. I have had many memorable moments, like the Psych Club Christmas Party and a few I would rather not remember, like the Psych Club Christmas Party. Overall my experiences at U.S.M. have been pleasant, and I look forward to where my life will take me from here. Thanks Mom and Dad. I couldn't have done it without you.*

Tricia M. LaFlamme  
BA-English and History -

*As I approach graduation, I am filled with both excitement and sadness. My experience at USM has been unforgettable - I would not trade it for the world! Perhaps the most important thing that I accomplished was realizing my abilities as well as believing in the old phrase "You only get out of something what you put in it." USM allowed me to grow as a person and expand my horizons in ways that I never imagined. I thank all those people in my life who have stood by my side and never stopped believing in me or my abilities, especially Dad and Jeff - I love you both! And to my USM friends, students, staff, and administrators alike, thanks for all the wonderful times and experiences. I will greatly miss you all!*

*I can't believe I'm graduating! After a decade and five other colleges, the University of Southern Maine has given me, for four years, great academic and personal challenges and a sense of pride when I met them with achievements. I will always have a heartfelt gratitude for the countless people, and they know who they are, who have helped me get to this point in my life. My only hope, now, is that I able to earn a decent living making a difference in the quest for justice and a positive evolution of Live on Earth.*
